# ACADEMIC CATALOG

## January - March 2026

Updated March 2026

This catalog provides an overview of the policies, regulations, and procedures of the Universidad San Ignacio de Loyola at the time of its publication. The institution reserves the right to change any provision of this catalog at any time. Modifications will be noted in a revised catalog, addendum, supplement, or any other written format.

In accordance with our Sustainability pillar, we avoid printing to reduce environmental impact. This document is available only in digital version.

## MESSAGE FROM THE PRESIDENT

Universidad San Ignacio de Loyola is an institution of higher education that is committed to the development and welfare of society.

USIL's purpose is to shape professionals, the leaders that society requires. The formation of our best product, that is, our graduates, is based on the four pillars of our university: globalization, entrepreneurship, sustainability, and research, with ethics and values. Therefore, we produce multidisciplinary, multicultural professionals who are committed to innovation and entrepreneurship, and above all, who are upstanding individuals.

We provide them the keys to success: a) knowledge and soft skills that make them competitive in the market, b) a highly valuable network of contacts that provide references for our graduates, and c) principles and values, an integral education, through teaching and by example.

In the research function, USIL has become strong in the generation of rigorous or pure research, as well as relevant or applied research, through the work of our faculty and researchers. This has positioned the university in the rankings as one of the most recognized for research.

USIL has an excellent administration, a high-level faculty, and a well-qualified administrative staff committed to quality and continuous improvement, with the support of advanced technology and infrastructure. This ensures our position in the local, regional, and global market.

**Jorge Talavera Traverso**

President

## Institutional Information

## History, Mission, and Vision

Universidad San Ignacio de Loyola, a private for-profit institution, was founded in 1995 by Mr. Raúl Diez Canseco Terry, a well-known Peruvian entrepreneur, educator and political leader. Mr. Diez Canseco has a strong commitment to promoting education and providing opportunities for young entrepreneurs.

In 1996, following a path of innovation in the educational sector, the university opened its Graduate School, the first in Peru to offer a Master of Business Administration (MBA), with a dual degree created through an international partnership.

In 2007, as part of the San Ignacio de Loyola Organization, successfully opened San Ignacio College in Miami - Florida, which later became San Ignacio University in 2016, with which Universidad San Ignacio de Loyola Peru maintains an academic alliance.

In 2014, the Organization founded San Ignacio de Loyola University in Paraguay, with which it also maintains an academic alliance for its programs.

### Mission

To shape professionals with an entrepreneurial spirit—following the Onlife Educational Model (Hybrid and Online Education)—who are able to create their own ideas, develop them and put them into practice, with a global, humanistic perspective in order to contribute to the development of society and the common good.

### Vision

To be a leader in shaping agents of change, internationally recognized for academic excellence, a digital value proposition, and a solid foundation in scientific research, as well as a benchmark for sustainable development.

## Facilities and Equipment

USIL has modern facilities with hybrid and conventional classrooms, laboratories and workshops; equipped with equipment, furniture and specialized software, providing its students with a complete infrastructure and all the learning resources that allow the development of academic programs.

USIL provides its students with adequate infrastructure and equipment for the institution's academic programs.

academic programs of the institution. Each of its facilities offers learning and recreational environments that contribute to the comprehensive education of future professionals.

The academic environments such as classrooms, laboratories and specialized workshops at all locations are equipped with furniture for faculty and students, computer, screen and projector, blackboard and natural ventilation and/or air conditioning. The hybrid academic environments are also equipped with videoconferencing technology that allows virtual interaction between students and faculty.

### Campus La Molina

The La Molina campus offers Standard Undergraduate Programs and Working Adult Undergraduate Programs. It is also home to the Graduate School.

- Classrooms
- Cooking and bakery demonstration workshops
- Wine tasting workshop
- Hotel classroom workshop
- Television, radio and mini-cinema set: to promote the educational development of the students of the School of Communications, as well as to exhibit cultural and artistic expressions, in addition to promoting the production of audiovisual resources.
- Specialized workshops for the different programs.
- Specialized laboratories for the different programs.
- Music Production Laboratory: Environments for the development of class sessions of the courses Technology for Home Studio II, Music Theory IV, Music Theory V, Music Theory VI, Music Theory VII and Music Theory VIII, Technology for Electronic Music I and Sound Design.
- Computer laboratories: These laboratories are equipped with specialized software for the development of study programs.
- Library: The library has access to physical and digital bibliographic resources such as databases that allow students to complement their knowledge, as well as to carry out research.
- Study rooms
- Auditoriums
- Cafeterias
- Chapel: allows to complement the spiritual education of those who profess the Catholic religion.
- Photocopy center

- Coliseum: to promote sports activities.
- Infirmery
- Parking lot
- Gymnasium: to complete the education of the students of the College of Health Sciences..
- Lactarium
- Restaurant for events only
- Administrative offices

**Address**: Fernando Belaunde Terry Campus: Av. La Fontana 550, La Molina

Admiral Miguel Grau Campus: Av. La Fontana 750, La Molina

**Phone:** (511) 317-1000

**Website:** https://usil.edu.pe/infraestructura/campus-la-molina

**Lima Norte In-Residence-Site**

On this campus, Universidad San Ignacio de Loyola offers Undergraduate for Working Adult Undergraduate Programs.

- Classrooms
- Computer laboratories: These laboratories are equipped with specialized software for the development of the study programs.
- Library: The library has access to physical and digital bibliographic resources such as databases that allow students to complement their knowledge, as well as to carry out research.
- Study rooms
- Auditorium: Intended for conferences, seminars, round tables, symposiums and events.
- Cafeteria
- Parking lot
- Photocopy center
- Lactarium
- infermery
- Administrative offices

**Address:** Av. Industrial 3484/Av. El Pacífico 297/299.

**Phone:** Admissions Center (applicants only): 317-1050 option 2 Student Service Center (students only): 317-1010

**Website:** https://usil.edu.pe/infraestructura/campus-lima-norte

**Magdalena In-Residence Site**

On this campus, Universidad San Ignacio de Loyola offers Undergraduate for Working Adult Undergraduate Programs.

- Classrooms
- Computer laboratories: Which have specialized software for the development of study programs.
- Library: Which has access to physical and digital bibliographic resources such as databases that allow students to complement their knowledge, as well as to conduct research.
- Study rooms
- Auditorium: Intended for the development of conferences, seminars, round tables, symposiums and events.
- Cafeteria
- Parking lot
- Infermery
- Administrative offices

**Address:** Jr. José Gálvez 386, Magdalena

**Phone:** (511) 317-1040

**Website:** https://usil.edu.pe/infraestructura/campus-magdalena

**Pachacamac In-residence Site**

**Building A**

- Research laboratory
- Administrative offices
- Agroindustrial plant

**Agroindustrial Plant**:

Infrastructure for the manufacture of agro-industrial products for learning purposes, aimed at students of Industrial and Commercial Engineering, Agroindustrial Engineering, Food Industry Engineering and related fields.

**Building B**

- Main auditorium
- Administrative offices
- Hydraulics laboratory.
- Soil and Pavement Laboratory
- Construction Materials Laboratory.
- Surveying Laboratory.

**Hydraulics Laboratory**: This is a space designed for the study of the behavior of fluids, especially water, under different conditions and applications. Equipped with flow channels,

pipelines, pumps, flow meters, and hydraulic structure models, it allows students to conduct experiments on flow in open channels, energy losses in pipelines, and the operation of structures such as damns and floodgates. The tests performed in this laboratory are essential for understanding the principles of fluid mechanics and applying them in the design and analysis of hydraulic systems such as water distribution networks and drainage and flood control systems.

**Soil and Pavement Laboratory**: This is a space for research and teaching civil engineering, focusing on the study of the physical and mechanical properties of soils and the materials used in the construction of pavements. This laboratory is equipped with instruments for tests related to granulometry, consistency limits, compacting, permeability, consolidation, cut resistance and CBR (California Bearing Ratio). It also has equipment for testing the resistance and durability of pavements, such as machines to measure deformation and resistance to wear. Students learn to analyze the quality of materials and their behavior when subjected to loads, which is fundamental for the design and construction of highways and structures.

**Construction Materials Laboratory**: This is a space for analysis and testing of materials used in construction, such as concrete, steel, wood and aggregates. It is equipped with tools and equipment for conducting tests on resistance, elasticity, durability and behavior in response to different loads. Among the most common types of testing are compression, traction, and flexion tests and analysis of concrete mixes. Students learn to evaluate the quality and properties of essential materials for ensuring safety and efficiency in construction projects.

**Surveying Laboratory**: This is a space dedicated to the study and practice of techniques for measuring and representing land. Equipped with instruments such as total stations, levels, theodolites and high-precision GPS, it enables students to learn to do surveys; calculate distances, angles and elevations; and make precise plans and maps. In addition, there is a focus on the application of geographic information systems (GIS) and 3D terrain modeling. This laboratory is fundamental in the education of future professionals capable of designing civil works and planning infrastructure projects. It serves students and faculty from the Architecture, Civil Engineering and other related programs.

**Building C**

- Classrooms
- Computer Labs: They are equipped with specialized software for the development of the study programs.
- Recording studio workshop for the music program.
- Specialized laboratories
- Library: Which has access to physical and digital bibliographic resources such as databases that allow students to complement their knowledge, as well as to carry out research.
- Sports Area Services: Area for practicing sports games.
- Boarding and Return Service for Students:

The service includes the transfer of students from La Molina to Pachacámac or vice versa.

- Boarding location: Gate N° 4 of site 1, from La Molina site to Pachacámac In-residencesite.
- Return point: Building A parking lot, from Pachacámac to La Molina.

Bus departure times are scheduled in advance in order to comply with class schedules. Buses are available from 6:40 a.m. to 5:50 p.m. according to the requested schedule.

The declared hours for each location are as follows:

| | |
|---|---|
| La Molina I | Monday to Sunday 7:00 a.m. to 11:00 p.m. |
| La Molina II | Monday to Sunday 7:00 a.m. to 11:00 p.m. |
| Lima Norte | Monday to Saturday from 19:00 to 23:00 and Sundays from 09:00 to 19:00 |
| Magdalena | Monday to Friday from 19:00 to 23:00, Saturday from 07:00 to 23:00 and Sunday from 09:00 to 19:00. |
| Pachacamac | Monday to Saturday from 08:00 to 19:00 |

**Address**: Av. Pista Asfaltada, Fundo La Carolina Section B, Parcela 1 - Pachacámac

**Website:** https://usil.edu.pe/infraestructura/campus-pachacamac

## Security and Protection

As part of its security management system, USIL it has a civil defense plan to safeguard the integrity of all persons within its facilities against threats such as criminal acts, fires, earthquakes, subversive attacks, and poisoning. This plan covers employees, students, suppliers, and visitors.

The plan is audited by Civil Defense inspectors from the municipalities in which each site is located. As a result of these evaluations, certificates of Technical Inspection of Safety in Buildings are obtained, which guarantee the safety of the facilities.

It is updated annually and in the presence of structural changes caused by the nature or new projects of the organization. The Civil Defense, Risk and Disaster Management Coordinator is responsible for reviewing, updating and disseminating it.

## Degree-Granting Authority

Universidad San Ignacio de Loyola obtained provisional operating authorization by means of Resolution No. 060-95-CONAFU, issued December 7, 1995, which also authorized it to offer its first 7 undergraduate programs.

Subsequently, after 5 years under the constant supervision of the National Council for the Authorization of University Operations (CONAFU), USIL obtained final operating authorization by means of Resolution No. 159-2001-CONAFU, of July 24, 2001, which granted it full authority to offer undergraduate programs and recognized its autonomy as a university, as established in the Peruvian Constitution.

More recently, Law No. 30220, the new University Law, was passed and entered into force on July 10, 2014, establishing the licensing procedure. Universidad San Ignacio de Loyola obtained its license by means of National Superintendence of University Higher Education (SUNEDU) Resolution No. 039- 2017 on October 8, 2017.

## Accreditation and Licensing

### Licensing:

According to section 13 of Law No. 30220, The University Law (hereinafter, the University Law), the National Superintendency of University Higher Education (hereinafter, SUNEDU) is responsible for the licensing of university education service, with licensing understood as the administrative procedure whose objective is to verify the fulfillment of Basic Conditions of Quality (hereinafter, BCQ) for offering university education and to authorize operations.

Within this framework, by means of Board of Directors Resolution No. 039-2017-SUNEDU/CD of October 06, 2017 (hereinafter, Licensing Resolution), an institutional license valid for six (6) years was granted to Universidad San Ignacio de Loyola (USIL), whose headquarters are located at Av. La Fontana 550, district of La Molina, to offer university education at five (5) locations in the province and department of Lima.

Subsequently, pursuant to the “Regulations on the Institutional Licensing Procedure,” approved by means of Board of Directors Resolution No. 008-2017-SUNEDU/CD (hereinafter, Licensing Regulations), the procedure for modification of an institutional license (to modify, increase the academic offering, and locations where the service will be offered) was regulated, allowing SUNEDU to verify and ensure that the modification requested has no negative impact on the BCQ that the university demonstrated at the institutional level.

Furthermore, it should be noted that in view of the entry into force of Law No. 31520, which amended the University Law, eliminating Sunedu's power to license study programs, licensed universities may create colleges, schools, and study programs, and must inform SUNEDU for the corresponding registration.

### Accreditation:

In line with its policy of continuous improvement, Universidad San Ignacio de Loyola has obtained important recognition from national and international accreditation agencies, thereby reaffirming its commitment to educational quality. This makes it one of the leading Peruvian universities striving for academic excellence and shaping entrepreneurial leaders without borders.

We have received the following distinctions:

## Program Accreditation by International Agencies

### Distance Education Accrediting Commission (DEAC)

The Distance Education Accrediting Commission (DEAC) one of the most internationally recognized accrediting agencies for its rigorous evaluation of educational quality, granted recognition to USIL in February 2025, highlighting its commitment to academic excellence, efficient management, and continuous improvement.

Address: 1101 17th Street NW, Suite 808, Washington, DC 20036 / Phone: (202) 234-5100 / Web: https://www.deac.org / Email: info@deac.org

### Accreditation Commission for Programs in Hospitality Administration (ACPHA):

Renowned North American accrediting agency that accredits the high educational standards of the world's hospitality and restaurant management programs. The USIL´s Hospitality Management and Tourism Administration programs, are accredited by ACPHA.

### American Culinary Federation Education Foundation (ACFEF)

Prestigious culinary accreditation institution in the United States. The USIL Standard Undergraduate Culinary Arts Program is accredited by ACFEF.

### UNWTO.TedQual:

The World Tourism Organization (UNWTO), a specialized organization of the United Nations, and the OMT. Themis Foundation grant TedQual certification, one of the most prestigious international certifications for tourism education, training and research programs. The Hospitality Management, Tourism Administration, Innovation and Management in Gastronomy, and Culinary Arts programs have obtained it.

### Education Quality Accreditation Agency – EQUAA:

Leading international accreditation agency in the area of business. The following programs are accredited by EQUAA: Master's Degree in Business Administration – Executive MBA, Master's Degree in Marketing and Commercial Management, and master's degree in Nutrition Management.

## Program Accreditation by National Agencies:

### National System for the Evaluation, Accreditation and Certification of Educational Quality (SINEACE):

Entity that accredits the quality of teaching at institutions of higher education in Peru. USIL's Business and Architecture and Urban Planning programs are accredited by SINEACE.

### Institute of Quality and Accreditation of Information Technology, Engineering and Technology Programs (ICACIT):

Accreditation agency specializing in higher education programs in computer science, engineering, and engineering technology. The Industrial and Commercial Engineering, Information Systems Engineering and Civil Engineering programs are accredited by ICACIT.

## Institutional Pillars

## Entrepreneurship

At Universidad San Ignacio de Loyola (USIL), entrepreneurship is more than a concept; it is one of our fundamental pillars. We firmly believe in the power of creativity, innovation, technology and entrepreneurial vision to transform the world. That is why we have integrated entrepreneurship into the core of our educational mission and promote it as a transversal axis in all our academic and extracurricular activities.

Our strategy is based on four key principles:

Entrepreneurship and Innovation Competencies:

Our approach focuses on the development of key competencies that prepare our students to develop creative solutions and successfully carry out business projects in a dynamic and changing environment, through our academic programs.

Development Activities:

We offer a wide range of entrepreneurship activities, ranging from workshops to startup challenges and demo days. These activities give our students the opportunity to explore their ideas, develop their proposed solutions, connect with other entrepreneurs and mentors inside and outside our university community.

Linkage with the Entrepreneurship and Innovation Ecosystem:

As USIL Ventures, USIL's incubator, we are proud to be an active part of the vibrant entrepreneurship and innovation ecosystem in Peru and LATAM. We maintain strategic alliances with key players in the business sector, government, academia and civil society, as well as with investment funds, providing our students access to resources, funding and collaboration opportunities that drive the growth and expansion of their startups.

Startup Creation:

We actively support the creation and development of startups focused on innovation and technology among our students and alumni. Our incubation program offers the necessary support to turn innovative ideas into successful business models, providing access to personalized mentoring, a network of mentors, coworking space, connections with investors and experts in different industries.

Join us on this exciting journey into a future full of infinite possibilities.

For more information: https://usil.edu.pe/emprendimiento

### USIL Ventures

It is the incubator and accelerator of San Ignacio de Loyola University, which promotes business projects and startups with an emphasis on technology and innovation. It is supported by ProInnóvate, the innovation program of the Ministry of Production. It is also part of the Accelerator Network of the Pacific Alliance - AcelerAP, is an active member of the Seed Capital and Entrepreneur Association - PECAP, also has a Mentor Network, has a Cowork space, and is in constant connection with the ecosystem of entrepreneurship and innovation at national and international level

## Globalization

Globalization is one of the strategic pillars that guide the academic philosophy of Universidad San Ignacio de Loyola. For this reason, those of our students who are pursuing a Bachelor's degree must complete at least one international experience in Peru or abroad.

To make this possible, the International Relations Department has developed links with

institutions that allow our students to participate in international experiences that give them a global profile.

For the academic exchange program, San Ignacio de Loyola University currently has more than 320 international agreements in more than 51 countries around the world, which opens up a whole universe of opportunities for professional and academic development abroad.

In addition, the work programs provide our students with the opportunity to develop their personal and work skills, gaining valuable undergraduate experience in such important international institutions as The Walt Disney World Resort in Orlando and in the most luxurious hotels in Dubai. This international experience allows students to live in a different environment and learn about other cultures, improve their foreign language skills, increase their network of contacts, gain professional experience and fulfill the graduation requirement established by San Ignacio de Loyola University.

Since 2007, students from USIL and around the world have benefited from international programs.

- + 7,140 USIL students have completed an international program abroad.
- + 6,820 international students have completed an international program at USIL.

Additionally, San Ignacio de Loyola University has academic activities of internationalization, which are developed in collaboration with our international partners, through Visiting Faculty, Master Classes, academic Webinars and COIL projects. These activities promote the internationalization of the curriculum, fostering interaction between students and faculty of our university and partner universities in their different faculties.

The international programs that are considered for validation of international experience are as follows:

a. Academic Missions / Study Trips / Summer Programs

Academic, business and cultural immersion programs in other countries. These programs offered by outside companies last at least one week and/or at least thirty-two (32) total hours of classes and excursions.

b. Academic Exchange

These academic programs for undergraduate students are organized through the International Relations Office. Through international agreements with foreign universities, students can study one or two semesters at academic institutions abroad.

c. Study Abroad Program SIU - Miami

This academic program allows students to travel to Miami for 4 months and take courses taught in English at San Ignacio University, paying the same as at USIL. The program also allows them to carry out paid academic training experiences in the USA.

d. Study Abroad Program Dubai (EAHM)

Thanks to this program, USIL students and/or graduates have the opportunity to travel to Dubai for 9 months. The first 3 months they will take courses taught by Emirates Academy of Hospitality Management and the following 6 months they will participate in an internship guaranteed by EAHM. This prestigious university belongs to the Jimeirah group, owner of Burj Al Arab 7 stars, and is considered number 1 in the QS Ranking in its field.

e. Cultural and Labor Program at Disney

Through this program, USIL students travel to The Walt Disney Resort in Orlando, Florida to obtain work experience and competitive compensation for their work. Students perform different tasks, receive training and develop job skills. During the selection process, students undergo a personal interview with Disney's international recruiters, who evaluate the candidates according to the required profile. The program is administered by the International Relations Department.

f. Disney Academic Work Study Program with San Ignacio University

Students travel to the United States to attend classes and earn college credit from a host institution of higher education, such as San Ignacio University, while gaining work experience at The Walt Disney World Resort, for which they receive competitive compensation for their work. During the selection process, students undergo a personal interview with Disney's international recruiters, who will evaluate the candidates according to the required profile.

g. External Labor Programs (Work & Travel)

The program encourages students to gain cultural exchange experience through paid work. These programs are offered by authorized external companies and can be anywhere in the world, generally during the summer vacation.

Additionally, there are other ways to validate international experience, such as participation in international congresses, immersive English courses, among others. For more information, please contact the International Relations Office at international@usil.edu.pe.

**International Agreements**

Currently, USIL has more than 320 international agreements in 51 countries across all 5 continents. (https://internacional.usil.edu.pe/nacional/buscador-de-alianzas/).

## Research and Development

We are committed to inclusive and sustainable national development through an education that prioritizes quality research, technological innovation, development, entrepreneurship and internationalization, in the different areas of knowledge and its transfer to society. Likewise, we promote a deep knowledge of local characteristics, a sense of belonging, pride in one's own culture towards the world, as well as the efficient management of resources and social welfare. In this way, we promote the formation of ethical citizens with values committed to sustainability, entrepreneurship, local development and a broad and comprehensive global vision of their reality.

**The Research Management and Academic Research:** departments have developed a series of services to promote and strengthen research activity at the university, thus contributing to the development of knowledge and quality academic progress of the university's educational community. The services are:

**Research Support:** Provide resources and assistance to researchers at all stages of the research process, from project conceptualization to publication and dissemination of results.

**Research Promotion:** Organization of conferences, seminars and events related to research to foster collaboration among researchers, as well as to promote the visibility of the research conducted at the institution.

**Management of Research Funds:** Administration of funds for research projects, including the distribution of grants and scholarships, as well as overseeing the proper use of financial resources.

**Technology Transfer:** Facilitate the transfer of knowledge and technology developed in the institution to the private sector, promoting innovation and economic development.

**Intellectual Property:** Offers advice and training in intellectual property and patents, supporting the entire patent application semester before Indecopi.

**International Collaboration:** Establish and foster collaborations and alliances with national and international research institutions and universities to promote excellence in research and academic cooperation.

**Research Training:** Offer training and professional development programs for researchers, including workshops on scientific research, project management and scientific communication skills.

**Scientific Dissemination:** Promote the dissemination of research results through academic publications, conferences, media and other platforms to reach the academic community and the general public.

**Research Ethics:** Ensure compliance with ethical standards in research, including the review and approval of research protocols involving humans or animals.

## Sustainability

San Ignacio de Loyola University incorporates, as part of the training it provides to its students and the community, the sustainable development approach; that is, an education that allows them to exercise their profession and citizenship with full awareness of the need to build an economically developed society that protects the environment and ensures social inclusion, so that this and future generations can have access to quality of life.

To this end, it promotes and facilitates the practice of social responsibility by the entire university community; that is, the search for a healthy coexistence, respect and commitment to others, ethical behavior inside and outside the classroom, and to the community in general.

In this sense, the sustainability pillar lays the foundations for this approach to be present in the academic, social, environmental and governance dimensions, both at the institutional level and for students, faculty and administrative collaborators.

For more information visit: https://usil.edu.pe/sostenibilidad

A. Academic and Research Management:

Elaborate and implement sustainable and socially responsible educational strategies, as well as transversal training processes that allow the progressive and organic integration of the principles and values of sustainable development in the curricular and extracurricular training of the University, so that our students can achieve a responsible and committed citizenship with their environment.

Academic mainstreaming of sustainability and social responsibility

Every 3 years a review of the curricula of the university's academic programs is made in order to identify the courses that integrate the specialty of the program with social responsibility and sustainable development. This integration is made tangible in the syllabus of the courses through the proposed sessions and the evaluations that are applied after receiving the knowledge such as essays, papers, exams, field trips, among others, which are carried out during the academic semester.

Mention in “Integrated sustainability management”.

The mention is an optional specialization open to students of all undergraduate academic programs, i.e., students can obtain a bachelor's degree in their program and at the same time obtain a specialization diploma in integrated sustainability management. This mention is unique in Peru at the undergraduate level. The mention is made up of 4 courses: Bases for the Strategic Management of Sustainability, Sustainable Business Management, Management of Socio-environmental Enterprises, Management of the Public Sector and Civil Society for Sustainable Development.

Academic events on Sustainable Development and Social Responsibility

During the academic periods, recreational-academic events are promoted available to all students of the university in order to provide them with spaces for information, dialogue, reflection and participation in relation to social responsibility and sustainability. The activities contribute to learning, sensitization and awareness of students, providing a quality educational service through the formation of responsible, ethical and empathetic citizens, capable of proposing sustainable and innovative solutions that generate welfare for society and in favor of the planet. Among the most outstanding events are the Sustainable Week and the Volunteer Fairs.

Research and publications

In order to share the organization's best practices and educational experiences, information and activities are systematized in publications that summarize the work carried out during the year on social responsibility and sustainability issues. Special emphasis is placed on the positive impacts generated from the implementation of social and academic projects, as well as on the lessons learned from implementing a sustainable management model. These include: “Sustainability and Social Responsibility”, “The Sustainable Development Goals”, “The 2030 Challenge”, 2016, “USIL University Social Responsibility Model”, 2018, “Kusikuy, The happiness of Peruvians”, 2019, which was conducted in partnership with Arellano Marketing, EY and Peru 2021; and the USIL sostenible reports for 2018, 2019, 2020, 2021 and 2022.

B. Social impact management:

Design, implement and promote programs and projects of its own, of different units of USIL, and with partner organizations, which are aligned with the Sustainable Development Goals (ODS by its sigils in spanish) and benefit vulnerable populations and those located in the areas of direct influence of the institution.

In this line, experiences are developed that generate impact on the students and faculty, as well as on the community. Participants put their skills and knowledge at the service of others, while developing their competencies in an environment that catalyzes learning, research and innovation with purpose. The participation of our students takes place within the framework of university volunteering and social service.

Volunteering and social service

Volunteering is the action developed by free choice, without economic remuneration and that has a positive impact on people or society as a whole. Volunteering can be provided in different areas, roles and times. Social service is very similar to volunteering, the main difference being that it is a complementary action to academic training that allows putting into practice what has been learned, having as a target audience populations in vulnerable situations, and as a thematic axis those of development; in tasks aligned with the work of their program.

Sustainable Club (Sustainability Leaders Club)

It is a club made up of students with a high degree of sensitivity and socio-environmental commitment who seek to increase their knowledge on sustainable development issues and strengthen their skills such as leadership, teamwork, innovation and entrepreneurship. The Sustainable Club is open every academic semester, inviting students from our different campuses and educational units to participate.

C. Environmental Management

Implement the USIL Sustainable Campus program and ensure compliance with the sustainability policy and directives related to environmental care, which are aligned with the Sustainable Development Goals (ODS) and the National Climate Change Strategy.

Sustainable Campus

Its main objective is the implementation of actions to mitigate the environmental impacts generated by the activities carried out in all campuses, thus promoting continuous improvement in our operations and compliance with legal and voluntary commitments to optimize our environmental performance, thus ensuring sustainable educational spaces. The program includes the management of 5 lines of action: Waste Management, Water and Energy, Responsible Consumption, Sustainable Construction, Culture and Learning.

Among the most important actions are the university's buildings that are environmentally certified as sustainable buildings - LEED Certification (Leadership in Energy & Environmental Design), the change of USIL's energy matrix to one of renewable sources of water origin - which helps reduce the university's CO2 emissions every year - and the measurement of the carbon footprint, which allows us to establish a plan to reduce it in the medium term. In terms of waste management, paper and plastic are sent for recycling. This benefits children from social organizations with scholarships for food and school supplies, while electrical and electronic waste (RAEE by its sigils in spanish) and used vegetable oil are sent to specialized companies that reuse them and dispose of unusable waste in authorized landfills.

D. Good corporate governance

San Ignacio de Loyola University has established policies and directives to promote a culture with a focus on sustainable development in all its units and programs. To this end, it has formed a Sustainability Committee with leaders of the organization. Also, as part of its ethical and transparent management, it prepares and publishes the annual USIL sostenible report, as well as

shares its good management practices in public and private spaces, having received important local and international awards such as the Distinctive of company with sustainable management, consecutively; the Green Gown Awards International in the years 2020 and 2023; as well as positioning in the top 10 ranking of the Inter-University Environmental Network (Red Ambiental Interuniversitaria)

## Educational Model

The USIL educational model is centered on competence-based learning. Competencies are integral actions that enable our students to mobilize their knowledge to deal with the challenges and problems inherent to their fields and the globalized world. It has three main elements, which are:

**Ethical Life Plan:**

USIL is committed to each student's ethical life plan, whose structure is based on challenges, goals, and aspirations that give meaning to one's life in the short, medium, and long term, with actions involving responsibility, respect, honesty, and equity to contribute to a more human society.

**Onlife Education Model:**

The student-centered Onlife education model consists of competence-based learning with a flexible curriculum for hybrid, and online education, with a learning system adapted to digital culture and technology to turn information into knowledge.

**USIL Style:**

It is the DNA of our university culture. Through USIL Style, we promote healthy, sustainable habits for the wellbeing of the members of our university community and their families. USIL Style offers a set of services that follow five lines of action: healthy eating, emotional wellbeing, spiritual wellbeing, physical activity for health, and art and culture, which are integrated into all the programs of study so that our students become professionals who serve society.

**General Competencies**

General Competencies are the hallmark of USIL graduates, in line with the four pillars of the educational model: research and development, entrepreneurship, globalization, and sustainability. They are a mandatory part of the competency map of hybrid, and online education programs of study.

According to the USIL educational model, generic competencies are:

- Comprehensive Communication: Drafts academic text and produces oral communications— making adequate use of the rules of Spanish and appropriate sources and resources—expressing critical assessments of specific academic, professional, or social situations to contribute to the transformation of different environments.
- Bilingual Communication: Communicates effectively in English using the four linguistic skills— listening, speaking, reading, and writing—with sufficient fluency and naturality for personal, academic, and professional purposes at the international level.
- Research: Plans, proposes, and executes research projects and reports, ethically following the steps of scientific method to solve real problems according to the university's lines of research.
- Entrepreneurship: Manages and innovates in goods and services in the commerce, industry, or service sector, including foreign trade and ecommerce, with the highest standards of quality, through the creation of innovative prototypes that will make it possible to lead the market with entrepreneurial soft skills.

- Human and Sustainable Development: Has a socially responsible perspective with a focus on sustainable development to contribute to society, based on environmental protection, social inclusion, and economic growth.
- Digital Competence: Applies computational thinking and information and communication technologies to the achievement of objectives and the solution of academic and work-related problems, taking a positive attitude toward cultural diversity and generational changes. The programs of study complete the competency map with the specific and specialization competencies defined by each program of study.

**Other Differentiating Educational Factors**

**Bilingual Education:**

USIL follows a curriculum that includes major courses taught in English, as well as intensive teaching of the language for the purpose of shaping bilingual, entrepreneurial professionals. English is required for all students, who must reach at least levels B1 and B2 (intermediate level).

**Flexible, Competency-Based Curriculum:**

The flexible curriculum of the programs of study ensures the achievement of the graduate profile, the USIL hallmark. Students develop competencies such as research, human and sustainable development, entrepreneurship, and comprehensive, bilingual, and digital communication. It comprises projects, modules, and courses with innovative methodologies, hybrid, and online education, as well as formative assessment, which places value on progress and recognizes students' effort in relation to continuous improvement in their learning.

**Education in Entrepreneurship:**

At USIL, we are engaged in entrepreneurial education with an innovation component through programs, projects, and courses related to entrepreneurship. The specific training of every program of study includes subjects such as business administration, fundamentals of accounting and finance, principles of economics, and marketing.

## Institutional Outcomes

The graduate profile comprises the USIL hallmark stated as characteristic traits of all the university's professionals, based on expected competencies and performance. The USIL graduate profile is as follows.

- Assumes an entrepreneurial and innovative culture, is agile in complex and dynamic environments, and is able to identify business opportunities with a sustainable impact and global vision, promoting work with transdisciplinary teams.
- Exercises responsible, empathetic, ethical citizenship in his/her work and personal life, and is able to propose sustainable and innovative solutions in interdisciplinary environments that lead to welfare for society and the environment at the local and global levels.
- Communicates in his/her native language and a foreign language (bilingual communication) in his/her personal and professional interaction in different national and international contexts in an intercultural, globalized world.
- Researches and innovates to generate scientific knowledge, making use of scientific method in an ethical manner to solve national and global problems, along the university's lines of research.
- Uses computational thinking and digital technologies in the management of his/her personal and professional identity, assuming cultural and generational diversity.

Every program of study must complete the graduate profile, including traits inherent to the major.

## Administration

### Statement of Legal Control

Universidad San Ignacio de Loyola S.R.L. is a private, for-profit institution, founded as a limited liability company subject to the General Law on Companies, Law No. 26887. It has a Board of Partners as its highest decision-making body, as well as a general manager who administers and executes the board's decisions.

It has an additional, voluntary body called the Advisory Board, which is made up of the following members:

1. Chair - Raúl Diez Canseco Terry
2. Vice Chair - Luciana De la Fuente Carmelino
3. Ismael Alberto Benavides Ferreyros
4. Carlos Alfredo Magariños
5. Federico Martínez Zúñiga
6. Pablo Rivas Suárez
7. César Emilio Rodriguez Larraín Salinas
8. Eduardo Michelsen Delgado
9. Luisa María Guevara Ramírez

## Academic and Administrative Staff

### Academic Authorities

| Position | Name |
|---|---|
| President | Jorge Talavera Traverso |
| Vice President of Academic Affairs | Erika Valdivieso López |
| Vice President of Graduate School Affairs | José Nicanor Gonzáles |
| Vice President of Research | Ana María Muñoz Jaúregui |
| Vice President of Entrepreneurship | Daniel Diez Canseco Terry |
| Vice President of Internationalization | Juan Carlos Mathews Salazar |
| General Secretary | Héctor Pittman Susanibar |
| Director of Sustainability | Galia Garcia-Hjarles Villanueva |
| Acting Director of International Relations | Rocío Baldarrago Valdivia |

### Administrative Staff

| Position | Name |
|---|---|
| Deputy Chief Executive Officer | Mariela Sánchez Vásquez |
| Manager of Talent and Culture | Gabriel Chang Chang |
| Vice President of Legal Affairs | César Diaz Bocanegra |
| Vice President of Finance | Juan Amayo Abanto |
| Vice President of Communications and Digital Innovation | José Sotomayor Muñoz |
| Senior Vice President | Rafael Herrera Chacón |
| Vice President of Corporate affairs | Luis Torres Paz |

## Program Advisory Council (PAC)

The role of the advisory councils (CC) is to advise the different faculties, academic programs and other departments that manage University courses. Its purpose is to contribute to the optimal cultural, academic and pedagogical development of students, within the framework of USIL's mission, according to national and international standards of educational quality. The advisory councils advise the undergraduate and graduate programs.

Each advisory council is composed of a minimum of five (5) and a maximum of ten (10) advisors, who are proposed by the Director or Dean, as appropriate, and appointed by resolution of the Rector's Office. Members of the CC serve ad-honorem for a period of two years, which is automatically renewed. The position cannot be delegated.

The members of the advisory councils are persons of recognized academic, professional and/or business background or representatives of prestigious institutions. They come from different sectors of public and/or private activity, are related to the functions of the programs they represent and reflect multiple perspectives. The position of counselor may be terminated at the expiration of two (2) years or by resignation, communicated in written form to the President or highest authority of the Program.

Potential members of an Advisory Council are invited by USIL to join it. To formally accept, you must respond to the invitation in a letter indicating your willingness to join the program's Advisory Council and your commitment to adhere to the provisions of the current guidelines. Undergraduate Advisory Council meetings are held twice a year.

For graduate programs, meetings are held once a year. Specific dates are determined and communicated at least ten (10) days in advance. The Council may hold extraordinary meetings at the request of the program director, dean or at least 2/3 of the members, in order to discuss specific issues. Decisions made during the meetings are not binding and should be considered confidential information. It is understood that what is discussed at such meetings is authorized by the academic and/or administrative authorities of USIL.

## International Advisory Council

USIL's International Advisory Council is made up of prominent professionals in the fields of academia, politics, science and economics. Its objective is to maintain and promote the excellence, quality and prestige of the university, in accordance with its mission, vision and institutional pillars such as: entrepreneurship, globalization, sustainability and research and development. Currently the international advisory board is made up of the following personalities:

- Amb. Allan Wagner Tizón: Former Chancellor of Peru and President of International Advisory Souncil (CCI by its sigils in spanish).
- Dr. José Maria Aznar: Former President of the Spanish Goverment and leading global political figure.
- Eng. Ismael Benavides: Former Minister of Agriculture, Economy and Finance, and Fisheries in different Peruvian governments.
- Dr. Eng. Raúl Delgado Sayán: Founding President of CESEL S.A. Ingenieros Consultores, one of the most outstanding representatives of engineering worldwide.
- Dr. Enrique Iglesias García: Former President of the Inter-American Development Bank.
- Dr. Carlos Magariños: Former Ambassador of Argentina to Brazil.Dr. Dr.
- Dr. Emilio Rodríguez Larraín: Businessman.
- Dr. Ulrich Hemel: Director of the Weltethos Institute.

- Dr. Kaye Chon PHD, CHE: Dean and senior faculty of Hong Kong Polytechnic University, one of the world's leading tourism institutions.
- Dr. Vicente López-Ibor: President of Ampere Energy.
- Dr. Enrique García Rodríguez: Former President of the Andean Development Corporation.

## Student Code of Conduct and Ethics

### General Provisions

**Objective:** This code of conduct and ethics is based on general ethical principles, values and rules that guide student behavior at every level of education at Universidad San Ignacio de Loyola. Students are expected to conduct themselves according to the USIL framework of principles, which seeks healthy coexistence and serves as a basis of their comprehensive education.

**Scope of application:** Adherence to the provisions of this code is mandatory for students of Universidad San Ignacio de Loyola at the different levels of education, in every context in which they interact as such.

USIL student status is acquired upon registration for any level of education offered by USIL. Registration entails a series of rights and obligations set forth in documents approved by the university, to which students have access.

### Guiding Principles for Usil Students

**Truthfulness:** Aware of the environment in which they interact (the university institution), USIL students seek the truth, allow it to guide their thoughts, attitudes and actions, and act accordingly.

Honesty: Honesty entails coherence between what one feels, thinks, says and does. USIL students are consistent, loyal to their guiding principles and aware of the consequences of their acts on themselves and their environment. Honesty precludes any fraudulent behavior.

**Responsibility**: USIL students assume the consequences of their decisions. This implies awareness of their limitations, strengths and weaknesses; that is, self-knowledge to seek the help they need to make the best decisions in their life as a student.

**Tolerance**: Without losing their sense of identity, USIL students respect the opinions, ideas, attitudes and practices of other members of the USIL community. They respect others even if they disagree with their opinions.

**Commitment**: USIL students are aware of and assume their student status, demonstrating proactivity and responsibility, staying true to their word, and striving to achieve their objectives.

**Solidarity**: USIL students are aware of others' needs and capable of sharing projects, ideas and goals, supporting others, and recognizing human beings' social nature. They are capable of altruism.

**Decorum**: USIL students are concerned about their student status and know how to conduct themselves adequately in the university environment or in any other situation.

**Loyalty**: USIL students seek to create an atmosphere of loyalty and honesty with every member of the USIL community, based on respect and worthiness of the trust that others place in them.

**Good judgment**: USIL students use common sense and good judgment in every situation in which they are involved, always showing respect for other's rights.

### Responsibilities of Usil Students

**USIL students and fulfillment of their responsibilities:** USIL students are aware that they have responsibilities they must fulfill. These responsibilities have no other purpose than to contribute to their personal and professional education, which they have entrusted to Universidad San Ignacio de Loyola.

Students are responsible for following a set of rules of behavior established by Universidad San Ignacio de Loyola.

**Main responsibilities of USIL students**

USIL students have the following responsibilities, among others:

- Register on the dates and according to the conditions established by the academic authorities.
- Fulfill financial commitments for the academic service provided by Universidad San Ignacio de Loyola.
- Know the educational philosophy (purpose, vision, mission and values), as well as the rules established by the university authorities, and put it into practice.
- Participate responsibly in the activities for which they have registered during each semester, as well as the extracurricular activities in which they have freely joined.
- Follow the class schedule established by the university.
- Care for the infrastructure, materials, equipment, tools, etc. that the university provides as part of the academic service.
- Show respect for every member of the university community on campus, as well as off campus in activities related to the educational service.
- Demonstrate intellectual honesty in the research work assigned every semester.
- Contribute to the teaching and learning process through a proactive, responsible attitude.
- Submit complaints and grievances exclusively through the official channels of communication according to established procedures.
- Safeguard the reputation of Universidad San Ignacio de Loyola, as well as the honor and reputation of members of the university community. Report any conduct that reflects poorly on the university or the university community and impedes ordinary academic activities to the appropriate authority.
- Use the tools required for academic activities.
- Obey rules and regulations on safety and security, as well as access to the campus and other locations where academic and research activities are conducted.
- Represent the university with integrity and dignity in the activities and events in which one is selected to participate.
- Be orderly, neat, punctual and honest in the submission of projects, assignments and assessments, respecting intellectual property and copyrights.

The above is not an exhaustive list of the responsibilities that may be established by the competent authority or derived from the nature of academic activities.

## Rules of Behavior

**Prohibitions**: The prohibitions established to impede certain acts by students are part of the rules of behavior for USIL students. Among others, the following acts are prohibited:

- Socially unacceptable behavior at the university or on any of its properties.
- Repeated and unjustified refusal to fulfill freely accepted academic obligations.
- Negatively affecting the physical or mental well-being of members of the USIL university community.
- Acting with intellectual dishonesty in relation to assignments, research, assessments, or any other output required as part of the teaching and learning process.
- Replacing or attempting to replace another student for assessments or any other activity at the university.
- Engaging in any conduct that entails harassment of another student, a faculty member, an administrative staff member, an administrator, or any other member of the university community or person on its property. Any act involving sexual harassment will be considered extremely serious.
- Any type of fraud in academic research or any other activity assigned by the university. This includes paying money to a fellow student or third party to do assignments, take tests, or perform any other activity that should be done by the student.

## Academic Integrity Policy

### Anti-plagiarism policy

In fulfillment of its purposes as a university, Universidad San Ignacio de Loyola promotes research, invention, and the creation of artistic and literary works. Therefore, it sanctions the use of information, data, projects, creations and other property pertaining to third parties in any assignment, research, thesis, etc., unless the source is cited properly.

As part of USIL students' education, the university will take all necessary measures to ensure the foregoing. The sanctions for plagiarism are set forth in the corresponding academic regulations.

### Infractions and Sanctions

#### Applicable principles

Infractions and sanctions are established in the USIL Academic Regulations. In the application of sanctions for infractions committed by USIL students, the right to a defense, due process, and the principles of legality, reasonableness, proportionality, non- retroactivity and impartiality will be respected, guaranteeing absolute respect for students' fundamental rights.

Disciplinary proceedings consist of two phases: investigation and decision. In both, the previously mentioned principles and the student's rights will be respected.

### Classification of infractions

Infractions are classified as minor, serious and very serious. They are sanctioned as established in the corresponding academic regulations in force at the time an infraction is committed.

### Sanctions

According to the Academic Regulations, the applicable sanctions are classified as written warnings, suspension and expulsion. Sanctions will be imposed in strict relation to the seriousness of the infraction. The application of sanctions should consider their corrective purpose, except in the case of expulsion.

## Acceptance of the Code

Students must state that they know the content of this code, affirming that they understand the importance and context of the rules contained in it and their obligatory nature, which contributes to a better atmosphere that allows them to grow as individuals and professionals.

## Discipline

### Regular Undergraduate and Working Adult Undergraduate Programs

The disciplinary procedure is regulated in the USIL Study Regulations, which define the offenses and establish the sanctions to be imposed on students after a disciplinary procedure has been carried out.

The scope of the terms to be taken into account to qualify the conduct of students that determine whether or not to initiate a disciplinary proceeding and the manner of its completion are as follows:

**Offense:** Conduct contrary to the behavior that should be observed by the student within the University facilities or in other spaces in which institutional or inter-institutional activities are carried out, as well as in other places or areas in which, at the University's discretion, the image or good name of the institution may be affected.

**Sanction:** Decision of the competent authority imposed after a disciplinary proceeding, according to the seriousness of the misconduct incurred.

The following general principles are considered in order to guarantee the disciplinary procedure:

**Non-retroactivity:** The study regulations in force at the time the offense was committed shall be applied, unless a later regulation is more favorable to the student.

**Proportionality and reasonability:** For the determination and individualization of the sanction, issues such as the seriousness of the act itself, the existence or not of intentionality of the offense, the damage caused with it and the circumstances in which it was committed, the recidivism in the commission of offenses, the age of the student, his academic performance, his background as a student, his personal situation, and his level of understanding of the seriousness of the conduct he has developed, the attitude of the student aware of the seriousness of his conduct with respect to the same, the degree of progress in the student's studies, among others, will be considered, his personal situation, and his level of understanding of the seriousness of the conduct he has developed, the attitude of the student aware of the seriousness of his conduct with respect to the same, the degree of progress in the student's studies, among others, so that the sanction to be imposed is appropriate, necessary, proportional and reasonable.

**Impartiality:** The disciplinary bodies act without any kind of discrimination among students, granting them equal protection and treatment throughout the procedure, resolving in accordance with the Study Regulations and with attention to the general interest of the university community.

**Bodies involved in the disciplinary procedure and instances**: The bodies and instances of the disciplinary procedure are as follows:

a. Disciplinary Commission in the first instance

b. Court of Appeals in second and final instance

**Disciplinary Procedure:**

According to the Regulations, once the Technical Secretary of the Disciplinary Commission receives the communication of the existence of an alleged misconduct, he/she proceeds to form the respective file with the supporting documentation and the information related to the student's background contained in his/her personal file.

Phases of the Disciplinary Procedure: Disciplinary proceedings have two phases:

The disciplinary procedure has two phases:

- The investigation phase: It begins with the communication to the student of the opening of the disciplinary proceeding by e-mail to the address with domain @usil.pe that the University has enabled and to the e-mail address registered in the USIL academic system.

  In the opening of the proceeding, the Disciplinary Commission will detail the conduct alleged as a misconduct and the sanction foreseen for the same, providing that within a period not exceeding five (5) working days, the person must submit his or her defense in writing by e-mail.

  Upon expiration of the term, whether or not the respective defense has been presented, the Commission may, if it deems it convenient, summon the student to a hearing in person or virtually as many times as it deems necessary, as well as summon or request information from all persons who, in its judgment, may help to clarify the facts that are the subject of the disciplinary proceeding so that they may make their statement and answer the questions that may be asked. Likewise, the Commission may order the taking of any evidence that, in its judgment, may contribute to the determination of the truth.

- The resolution phase by the Disciplinary Commission may conclude with a sanction or with the declaration that it is not appropriate to sanction the imputed fault and/or absolve the student of responsibility. In all cases, the resolution must be duly motivated. Under the competence of the Disciplinary Commission, the disciplinary procedure must be carried out within a period of three (3) months from the day after the student is notified of the initiation of the procedure by e-mail. If there are several students involved in the same procedure, the term will be computed from the day following the electronic notification to the last of them, if they were made on different dates. The Commission may adopt an extension agreement for an additional period of three (3) months, only once, without giving any reason. If the disciplinary proceeding has not been concluded after the expiration of the aforementioned periods, the Disciplinary Commission may extend the proceeding for an additional period of three (3) months.

**Appeals**

In order to guarantee the student's right to contradict the Resolution issued by the Disciplinary Commission, students may file an appeal for reconsideration, which are filed by e-mail before the same authority that issued the challenged resolution within a maximum period of fifteen (15) working days from the day following the day the student is notified of the resolution. The filing of any appeal against the resolution issued in the first instance suspends the effectiveness of the disciplinary measure imposed until the final pronouncement of the corresponding instance.

In the event that the suspension sanction is challenged, if the Court of Appeals upholds the sanction, it will adjust the time limits for the execution of the disciplinary measure.

Students who have not yet obtained the bachelor's degree diploma, even if they have complied with all the requirements of the pertinent regulations, shall be prevented from requesting and obtaining it while the suspension or separation sanction is in force or while any disciplinary proceeding in which they are involved is in progress. In the case of a suspension sanction, the referred restriction shall be maintained until the period or periods stipulated in the corresponding Resolution are completed.

The appeal for reconsideration is submitted to the Disciplinary Commission and must be accompanied by new evidence.

The Appeals Tribunal resolves the appeal within thirty (30) working days from the receipt of the appeal via e-mail by the Disciplinary Commission, and if it deems it convenient, it may summon the student to a hearing through virtual means before resolving the appeal. Likewise, by e-mail or by telephone, students may request information on the processing or status of their disciplinary proceeding in the Appeals Tribunal, without prejudice that they may also request it through the student service channels.

**Offenses and Disciplinary Sanctions:**

The disciplinary offenses in which students may incur, as well as the penalties applicable to them, have been determined in the Regulations according to their seriousness and are considered as follows:

- Minor Offenses - Punishable by a written warning. For example, consuming food in classrooms, participating in gambling games within the institution, among others.
- Serious Misconduct - Punishable by written warning or suspension for up to one term. Serious misconduct includes, for example, disrespecting authorities, faculty or other students, causing damage to university property, among others.
- Very serious misconduct - punishable by suspension for two academic terms or definitive separation from the university. Among them are the lack of academic probity and plagiarism, adulteration of documents, threatening or assaulting, etc.

Likewise, the Regulations provide for a series of attenuating and aggravating circumstances that are considered by the disciplinary body prior to determining the sanction that will be applicable to each student.

Finally, the Undergraduate Regulations state that notwithstanding the disciplinary procedure, University authorities such as faculty members and Program Directors may verbally call the attention of their students as a warning when the offense committed does not merit being submitted to disciplinary proceedings.

**Graduate School**

The disciplinary procedure is regulated in the USIL's Regulations for Graduate Studies, which typifies the offenses and establishes the sanctions to be imposed on students after a disciplinary procedure has been carried out.

The scope of the terms to be taken into account to qualify the conduct of students that determine whether or not to initiate a disciplinary proceeding and the manner of its completion are as follows:

**Offense:**

Conduct contrary to the behavior that should be observed by the student within the EPG-USIL facilities or in other spaces in which institutional or inter-institutional activities are carried out, as well as in other places or areas in which, at the discretion of the EPG-USIL, the image or good name of the institution may be affected.

**Sanction:**

Decision of the competent authority imposed after a disciplinary proceeding, according to the seriousness of the misconduct incurred.

The following general principles are considered in order to guarantee the disciplinary procedure:

**Non-retroactivity:**

The study regulations in force at the time the offense was committed shall be applied, unless a later regulation is more favorable to the student.

**Proportionality and reasonability:**

For the determination and individualization of the sanction, issues such as the seriousness of the act itself, the existence or not of intentionality of the offense, the damage caused with it and the circumstances in which it was committed, the recidivism in the commission of offenses, the age of the student, his academic performance, his background as a student, his personal situation, and his level of understanding of the seriousness of the conduct he has developed, the attitude of the student aware of the seriousness of his conduct with respect to the same, the degree of progress in the student's studies, among others, will be considered, his personal situation, and his level of understanding of the seriousness of the conduct he has developed, the attitude of the student aware of the seriousness of his conduct with respect to the same, the degree of progress in the student's studies, among others, so that the sanction to be imposed is appropriate, necessary, proportional and reasonable.

**Impartiality:**

The disciplinary bodies act without any kind of discrimination among students, granting them equal protection and treatment throughout the procedure, resolving in accordance with the Study Regulations and with attention to the general interest of the university community.

**Bodies involved in the disciplinary procedure and instances:**

The bodies and instances of the disciplinary procedure are as follows:

- Disciplinary Commission in first instance.
- Court of Appeals in the second and final instance of the EPG-USIL.

**Disciplinary Procedure:**

According to the Regulations, once the technical secretary of the Disciplinary Committee receives the communication of the existence of an alleged offense, he/she proceeds to form the respective file with the supporting documentation and the information related to the student's background in his/her personal file.

Phases of the Disciplinary Proceeding: The disciplinary proceeding has two phases:

- The investigation phase: It begins with the communication to the student of the opening of the disciplinary procedure by e-mail to the address with domain @usil.pe or @epg.pe that the University has enabled and to the e-mail address registered in the academic system.

  In the opening of the proceeding, the Disciplinary Commission will detail the conduct alleged as a misconduct and the sanction foreseen for the same, providing that within a period not exceeding five (5) working days, the person must submit his or her defense in writing by e-mail.

  Upon expiration of the term, whether or not the respective defense has been presented, the Committee may, if it deems it convenient, summon the student to a hearing in person or virtually as many times as it deems necessary, as well as summon or request information from all persons who, in its judgment, may help to clarify the facts that are the subject of the disciplinary proceeding so that they may make their statement and answer the questions that may be asked of them. Likewise, the Committee may order the taking of any evidence that in its judgment may contribute to the establishment of the truth.

- The resolution phase by the Disciplinary Committee may conclude with a sanction or with the declaration that it is not appropriate to sanction the imputed fault and/or absolve the student of responsibility. In all cases, the resolution must be duly motivated on the basis of factual and legal arguments presented in the course of the disciplinary procedure. Under the competence of the Disciplinary Committee, the disciplinary procedure must be developed within a period of three (3) months from the day after the student is notified of the initiation of the procedure by e-mail. If there are several students involved in the same procedure, the term will be computed from the day following the electronic notification to the last of them, if they were made on different dates. The Committee may adopt an extension agreement for an additional period of three (3) months, only once, without giving any reason. In case the disciplinary procedure has not been concluded after the expiration of the above-mentioned periods, the Disciplinary Committee may extend the procedure for an additional period of three (3) months.

**Appeals:**

In order to guarantee the student's right to contradict the Resolution issued by the Disciplinary Committee, students may file an appeal for reconsideration and appeal, which are filed by e-mail with the same authority that issued the resolution being challenged within a maximum period of fifteen (15) working days from the day following the day the student is notified of the resolution. The filing of any appeal against the resolution issued in the first instance suspends the effectiveness of the disciplinary measure imposed until the final pronouncement of the corresponding instance.

In the event that the suspension sanction is challenged, if the Court of Appeals upholds the sanction, it will adjust the time limits for the execution of the disciplinary measure.

Students who have completed their studies and even if they have fulfilled all the requirements set forth in the Regulations to obtain their degree, shall be prevented from applying for and obtaining their degree while any disciplinary proceeding in which they are involved is in progress, and in case a suspension sanction is imposed, the restriction shall be maintained until the period or periods set forth in the corresponding Resolution are fulfilled.

The appeal for reconsideration is submitted to the Disciplinary Committee and must be accompanied by new evidence.

The Appeals Tribunal resolves the appeal within thirty (30) working days from the receipt of the appeal by e-mail from the Disciplinary Committee. The Appeals Tribunal, if it deems it convenient, may summon the student to a hearing via virtual means before deciding on the appeal.

**Offenses and Disciplinary Sanctions:**

The disciplinary offenses in which EPG students may incur, as well as the penalties applicable to them, have been determined in the Regulations according to their seriousness, and are considered as follows:

- Minor Offenses - Punishable by a written warning. For example, using any communication system or devices during classes, consuming food in classrooms, among others.
- Serious Misconduct - Punishable by written warning or suspension for up to one term. Serious misconduct includes, for example, disrespecting authorities, faculty or other students, causing damage to University property, among others.
- Very serious misconduct - punishable by suspension for two academic periods or definitive separation from the EPG-USIL. Among them are the lack against academic probity and plagiarism, adulteration of documents, threatening or assaulting, etc.

Likewise, the Regulations provide for a series of attenuating and aggravating circumstances that are considered by the disciplinary body prior to determining the sanction that will be applicable to each student.

Finally, the EPG Study Regulations state that notwithstanding the disciplinary procedure, the EPG-USIL authorities and faculty may verbally call the attention of their students as a warning when the offense committed does not deserve to be submitted to disciplinary proceedings.

## Guidelines for the Use of Artificial Intelligence (AI)

San Ignacio de Loyola University has implemented guidelines for the ethical and responsible use of Artificial Intelligence (AI) in its academic programs. It offers trainings to ensure informed decision making about its application, and continuously evaluates its impact on teaching and learning.

Students are authorized to use AI in their academic activities with due responsibility in the handling of personal data and academic integrity. Responsible research supported by reliable sources and the development of their critical and creative skills are encouraged.

Faculty are encouraged to use AI to enhance the learning experience and stimulate student participation. The importance of creating assessment techniques that drive critical and creative skills is emphasized, ensuring ethical use of AI. In addition, the potential for bias in AI tools is pointed out and the need to safeguard personal data is highlighted, while promoting transparency in author credit recognition and digital literacy in relation to AI is promoted.

## Academic Freedom

Academic freedom is the right of the faculty that ensures their contribution to society through the production of knowledge. The following should be taken into account:

Faculty members are free to conduct research and publish the results of their research whether or not it is related to what they teach. However, research for monetary compensation is subject to an agreement with the authorities of the institution and the signing of the corresponding documents.

Faculty members have the right to express themselves freely when teaching and discussing academic matters in the classroom, presenting controversial matters with care when it is necessary to discuss them in class. Limitations on academic freedom for religious purposes or others determined by the institution must be clearly established in writing when a faculty member is appointed.

A university faculty member is a citizen, a member of a professional organization, and a functionary of an educational institution. When he or she speaks as a citizen, he/she must be free to do so without institutional censorship or disciplinary sanctions, but a university faculty member has a special position in the community that imposes special obligations. As a man or woman of knowledge and a teacher, he/she must keep in mind that the public may judge his/her profession and institution based on his/her statements. Therefore, he/she must always be precise, speak with moderation, show respect for others' opinions, and do everything possible to indicate that he/she is not a spokesperson for the institution.

## Privacy and Confidentiality of Personal Data

### Objective:

Establish the declaration and formal commitment to inform users of the different services provided through its platforms, web portals, among others, about the treatment and uses to which the personal data obtained are subjected.

### Scope:

Applies to all platforms and web portals managed by Universidad San Ignacio de Loyola S.R.L. (hereinafter USIL).

### Regulatory References:

- Law No. 29733 – Personal Data Protection Law
- Executive Order No. 003-2013-JUS – Regulations on Law No. 29733

### Guiding Principles:

**At USIL we respect the principles of personal data protection, which are detailed as follows.**

- Principle of legality: User's personal data will not be gathered by illegal or fraudulent means.
- Principle of consent: Users' freely given, informed, express, unequivocal, prior consent to the handling of their personal data will be obtained.
- Principle of purpose: Our users' personal data will be gathered for a specific, explicit, legitimate purpose, and will not be used for any purpose that has not been established unequivocally at the time it was gathered.
- Principle of proportionality: All handling of our users' personal data will be adequate, relevant, and reasonable for the purpose for which it was gathered.
- Principle of quality: The personal data to be used will be reliable, accurate and, to the extent possible, current, necessary, relevant, and adequate for the purpose for which it was gathered. It will be stored in a manner that ensures security and only for the time necessary to fulfill the purpose of processing it.
- Principle of security: USIL adopts the technical, organizational, and legal measures necessary to ensure the security and confidentiality of personal data. USIL has appropriate security measures for its use of data and the category of personal data involved.
- Provision of resources: USIL has the necessary administrative or jurisdictional means to claim and enforce their rights, when they consider that these have been violated
- Principle of adequate level of protection: USIL guarantees the adequate level of protection of the personal data of its users for the cross-border flow of personal data, with a minimum level of protection comparable to that provided by Law No. 29733. Personal Data Protection Law (hereinafter, Law) or by international standards on the matter.

**Definition of Personal Data:**

The law defines personal data as “numerical, alphabetic, graphic, photographic or acoustic information about personal habits, or any other type concerning natural persons that identifies them or makes them identifiable by means reasonably likely to be used.” USIL considers as personal data all information that the User voluntarily enters through any of the forms published on the platforms, web portals or other media.

**Ownership of the Database:**

Personal data provided through USIL's platforms, web portals or other means, will be incorporated to the personal data banks under USIL's ownership.

**Purposes of Handling Information:**

In accordance with the provisions of the Law and its Regulations, approved by Supreme Decree N° 003-2013-JUS, the interested party will give express consent for the personal data provided to be incorporated into the Personal Data Banks owned by Universidad San Ignacio de Loyola S.R.L., domiciled at Av. La Fontana N° 550, La Molina, Lima, and which has among its purposes to manage the information of persons interested in the educational services provided by USIL at its various levels, obtained in person or through websites, to answer queries and provide advertising information, and give them uses related to the analysis of profiles, advertising and commercial prospecting, statistical, historical or scientific purposes and education, among others, according to the Data Bank that corresponds to the purposes of USIL.

Likewise, the interested party authorizes USIL to carry out the national transfer of personal data to organizations or persons directly related to USIL. Furthermore, the interested party authorizes the international transfer of personal data for storage purposes. Likewise, the interested party authorizes USIL to keep the personal data in the bank until the consent is revoked.

**Privacy Statement:**

USIL does not collect personal data on users other than information provided voluntarily by a user when logging in to any of the websites or sending an electronic mail message or other communication addressed to USIL. USIL will not process personal data or transfer personal data without the user’s prior consent.

**Security and Confidentiality of Data:**

USIL agrees to comply with the security and confidentiality standards necessary to ensure the reliability, integrity and availability of information gathered from users. The user is solely responsible for supplying his/her personal data to USIL.

**Rights of Users (ARCO Rights):**

In accordance with the Law, the User may exercise, at any time, his/her rights of access, rectification, cancellation and opposition, as well as update, inclusion and suppression of personal data by downloading the form "F-426 Request for Attention of PDP Rights" from the website www.usil.edu.pe/arco and sending it to the e-mail address arco@usil.edu.pe or presenting it physically at any of the offices indicated on the aforementioned website, attaching in both cases a copy of his/her National Identity Card, Foreigner's Card or Passport.

**User Consent and Acceptance of Terms:**

This privacy and confidentiality statement described in this policy constitutes a valid agreement between the User and USIL, which confirms the User's knowledge, understanding and acceptance of the above for the purposes expressed. If the User does not agree, he/she should not provide any personal information, nor use the service or any information related to USIL's web sites.

More information: Privacidad y confidencialidad de los datos personales

## Student Complaint and Grievance Procedure

## Complaints Book

As required by the Code of Defense and Consumer Protection, each site of the university has at the disposal of every student, parent and/or external the physical Complaint Book, in which you can register a complaint or claim in case of any event that generates dissatisfaction.

Likewise, all persons related to the university have at their disposal the: Virtual Complaint Book, hosted on the website, and is available for registration by the user 24 hours a day, through the following link: https://infosil.sil.edu.pe/apaa/Procesos/Reclamo/frmRecRegistro.aspx, having to complete the fields: general data, data of the claimant, detail of the claim, acceptance of the privacy policy and protection of personal data. Finalizing the registration in the option “send”.

The user must differentiate between a claim and a complaint when registering it in the Complaints Book, considering that a claim is generated when there is a disagreement related to the products or services, while a complaint is generated when there is a disagreement not related to the products or services, or discomfort or dissatisfaction with respect to customer service.

The time limit for the complaints book is 15 working days, from the registration of the complaint and/or claim.

It should be noted that the Student Services Department provides direct attention to students, parents, guardians and authorized external parties, with respect to all university services; among them, it answers questions regarding Credits and Collections, Student Welfare, Academic Services and others (questions about rules and regulations, management of procedures and/or documents, reception and delivery of lost objects, recategorization processes, Complaints Book and University Ombudsman, among others), in order to guarantee the quality of attention based on effective communication and cordial treatment.

On the other hand, the Coordination of Student Services Department deals with complaints or claims, in person and/or virtually, carrying out an exhaustive analysis of the case with the support of the departments involved, in order to provide a response to the student that is in accordance with the regulations in force.

Once the case has been resolved, a detailed response will be prepared and delivered to the student by the means he/she provided (e-mail or home address) and, in appropriate cases, a telephone call or teleconference will be held to share the response and ensure the student's satisfaction with the explanation and/or solution of the case or incident. The response to the complainant will be reviewed and validated by the Head of Student Services Department.

If the student, parent and/or external to our institution does not agree with the resolution of the case, he/she may resort to other instances (INDECOPI).

The hours for all service channels are:

Monday to Friday from 8:00 to 20:00 hours

Saturday from 8:00 to 17:00 hours

**Electronic mail**: atencionalumno@USIL.edu.pe

**Switchboard:** 317-1010 option 1

**WhatsApp chat:** +51 908 830 868

## Attention to Complaints and Claims from Students, Faculty and Employees

### Student Complaints

The student may file a complaint when he/she considers an affectation in his/her learning process as a result of an inappropriate pedagogical practice of the faculty member or in his/her relationship with him/her. It does not include the complaint process for grades. It is carried out according to procedure PB-VRA-032. Complaints from students to faculty members.

A student's complaint regarding a faculty member consists of the following phases: Receipt of complaint, investigation, release of the faculty member, preparation of the report, appeal for reconsideration (optional) and response to the student.

The procedure is as follows:

- The claim is presented by the student individually to the Coordinator or higher instance in case the faculty member is the Coordinator or Program Director, with a copy to Plataforma de Atención al Alumno (atencionalumno@usil.edu.pe) and to the Ombudsman's Office (defensoriauniversitaria@usil.edu.pe) indicating the following information: Names and surnames of the faculty member, course, time block and the details of the claim, specifying date and time and supporting information, if applicable.
- The coordinator receives the student's claim by mail and checks that he/she has sufficient data to be able to carry out the respective evaluation.
- For the evaluation of the case, the coordinator takes into account several elements: the faculty member's satisfaction surveys of the last three periods, as well as the videos of the classes, if applicable. On the other hand, as part of the investigation, the coordinator contacts at least two students with the highest weighted average of the previous period and inquiries about the behavior of the faculty member referred to in the complaint. Once the information has been gathered, the coordinator sends an e-mail to the faculty member notifying him/her of the complaint and requests the corresponding complaints for attention within a maximum period of two (2) working days.
- The response to the complaint must be provided by the coordinator within ten (10) working days from the date of receipt of the student's mail, according to the investigation, with a copy to the Student's Attention Platform and the University Ombudsman's Office, informing the following:
  - On whether the claim has been unfounded, or
  - Report on the merits of the claim.

- If the claim is found to be valid, the Final Report, prepared by the Coordinator and approved by the Program Director, will include the actions that will be taken to remedy the situation.
- In the event that the student does not agree with the response to his/her complaint, he/she may request a reconsideration to the Program Director, who must respond within a maximum period of five (5) working days.

Links where the procedure for students' complaints to faculty is published:

Infosil: Reclamos de estudiantes a docentes

Intrasil: Reclamos de estudiantes a docentes

**Faculty Grievances**[1]

The faculty member may file a complaint as he/she deems appropriate according to one of the following procedures:

- Dialogue with the person in charge: a faculty member with an academic-related complaint may initially try to resolve it through an informal dialogue with the person in charge of the Directorate or staff.
- Complaint verbally to his/her coordinator: the faculty member may present the complaint verbally to his/her respective Course Coordinator as soon as possible after the event that provoked the complaint. In this case, the coordinator must propose a solution to the faculty member as soon as possible.
- Presentation of a formal complaint to the Office of the Academic Vice President through the Academic Services Office: the Academic Services Office is the formal channel for faculty members to present complaints to the Academic Vice President's Office after having exhausted the previous procedures. In this case, the Academic Vice Chancellor's Office informs the faculty member of the response as soon as his or her query has been dealt with by the appropriate body.

**Employee Complaint and Grievance Policy**

Universidad San Ignacio de Loyola promotes mutual respect and cordiality among all occupational levels, without disregarding the principles of authority, order and discipline.

The individual complaints of employees, in the first instance, must be raised formally and in writing to the immediate boss. If required, the case will be passed to the Talent and Culture Department.

The employee, at the time of filing a formal and written complaint, must act with honesty, objectivity, clarity and maintaining the mutual respect and harmony that govern working relationships.

Each complaint or claim will be evaluated in a serious, fair, impartial and timely manner. The decision that resolves it must be duly grounded and will be made known to the employee.

[1] Usil Faculty Handbook

## Attention to Sexual Harassment Cases

### Academic

The internal regulations of Universidad San Ignacio de Loyola establish a process to be followed for the attention of cases of sexual harassment. This attention must include all students, graduates, alumni, former students, faculty and academic staff.

The process is as follows: First, a Preliminary Investigation is conducted; then follows an Instructive Stage where the Initial Instruction Report is issued which determines the initiation of the disciplinary procedure or the filing of the complaint; finally, the Resolutive Stage is reached in which the harasser or the complainant has the possibility of filing an Appeal subject to evaluation by the Disciplinary Tribunal.

The unit responsible for this care process is the Secretariat of Instruction.

Intrasil: Gestión de casos por hostigamiento sexual académico

### Administrative

The internal regulations of Universidad San Ignacio de Loyola establish a process to be followed in cases of sexual harassment. This attention must include administrative collaborators at all levels.

The process is as follows: First, it proceeds with the Protection Stage, where the facts are made known and protective measures are provided to the harassed person. This is followed by the Investigation Stage, which concludes with the sending of a sanction or filing report to the Talent and Culture Management.

The decision/sanction stage follows, in which a final report is issued with the sanction to be applied and the measures to avoid new cases. Finally, the final decision is communicated to the Ministry of Labor and Employment Promotion.

The unit responsible for this process is the Talent and Culture Sub-management.

Intrasil: Gestión de Casos por hostigamiento sexual administrativo

## Non-Discrimination Policy

USIL complies with established national regulations related to non-discrimination and has internal rules and procedures related to the attention of students with disabilities, where a specialized team registers students with disabilities who voluntarily wish to access the Educational Inclusion Program. The specific needs of the student are reviewed together with the student and the measures required to ensure accessibility and inclusion in their education are determined and coordinated.

These may include adaptations in teaching methodology, educational materials, assistive technology, accessible infrastructure, among others.

USIL is an institution committed to social inclusion, with guidelines on the protection of the rights of students with disabilities, based on respect and the promotion of human dignity, equal opportunity and non-discrimination. It offers accessibility to all of its facilities, programs and services for students with disabilities. This may include providing ramps, elevators, restrooms, etc. In addition, it promotes awareness-raising in its education community and training on the rights of students with disabilities and best practices for their inclusion and development.

It has internal regulations that support and ensure social inclusion in its educational offering, where students with disabilities have access to a quality education and a satisfactory educational experience. It has an education inclusion program that includes tutoring geared toward students with physical, sensory or learning disabilities. It involves the entire education community and establishes the mechanisms necessary for their incorporation and adaptation to the education system, according to the university’s resources.

## Refund Policy

### Considerations for Refund of Payments for Undergraduate and Working Adult Undergraduate Programs

A refund of payments may be made for:

- Installment payments (whether or not the student has registered), processed through the Office of Credit and Collections.
- Cancellation of registration previously authorized by the Department Academic Services.

The following are not subject to refund:

- Registration fee for a program.
- Registration fee (if the student has registered).

Only in the event that the student is unable to enroll, the amount of the registration fee and the first installment will be refunded in full, applying the administrative costs.

For the calculation of the amount to be refunded, the date the procedure is recorded in the system is considered.

Processing a refund request may is fifteen working days (15) calculated from the day after the date on which the student submits a refund request to Credit and Collections, using forms “F153 Request for Refund of Payment and Affidavit for Bank Transfers" in the Credit and Collections Department.

The refund will be processed, deducting administrative fees.

If a student has paid for the entire (Prompt Payment) semester and withdraws, the refund will be processed as follows, the prompt payment discount will no longer be applicable:

| Withdrawal from a Semester/Complete Withdrawa | Refund Percentage |
|---|---|
| Before the 4th week of classes | 80% of the installment due and pay |
| Before the 8th week of classes | 60% of the installment due and pay |
| Before the 12th week of classes | 40% of the installment due and pay |
| Before the 16th week of classes | 20% of the installment due and pay |

In the case of the Working Adult Undergraduate Program, the refund of the payment will be taken into account on the date of withdrawal and the unmatured installments will be refunded at the time of the withdrawal.

In the case of summer courses (Regular Undergraduate and Working Adult Undergraduate Programs), 100% of the payments made will be refunded after application of the corresponding administrative expenses. Only if the academic enrollment is not completed, the tuition fee will be refunded.

No refunds will be made in the case of course withdrawals, even if payment has been made per academic period (Prompt Payment).

There are no refunds in case of course withdrawals.

Example 1:

**Semester refund (prompt payment) - UNDERGRADUATE**

The context of the case presented is a student's withdrawal from a semester. He withdrew from the semester on May 09. Of the 5 installments paid by the student, considering the month and number of weeks of classes, as shown on Table 1, the student is responsible for payment of installments 1, 2 and 3 (11 weeks), resulting in a refund of 40% of the installments; that is, installments 4 and 5. Administrative fees (S/. 100.00) and the discount initially deducted from each installment (S/. 77.85 + S/. 77.85 + S/. 77.85) would be deducted from this amount. In this manner, the discount for prompt payment is no longer in effect, and the amount to be refunded is S/. 2,624.75.

Withdrawal date 9 - May

| Month | Weeks of clases | Installments | Cost without prompt payment | Cost with prompt payment | Calculation of refund with withdrawal |
|---|---|---|---|---|---|
| March | 2 weeks | 1 | 1,557 | 1,479.15 | -77.85 |
| April | 4 weeks | 2 | 1,557 | 1,479.15 | -77.85 |
| May | 5 weeks | 3 | 1,557 | 1,479.15 | -77.85 |
| June | 4 weeks | 4 | 1,557 | 1,479.15 | 1,479.15 |
| July | 1 weeks | 5 | 1,557 | 1,479.15 | 1,479.15 |
| **Total S/** | | | S/ 7,785 | S/ 7,395.75 | S/ 2,724.75 |
| **Administrative fees** | | | | | -100.00 |
| **Total amount to be refunded S/** | | | | | S/ 2,624.75 |

*Table 1. Calculation of refund for full payment*

**Considerations for Refund of Payments for Graduate School Programs**

Refunds are processed through the Office of Credit and Collections according to the procedure established by USIL.

All refunds are subject to a deduction for administrative fees, as established by each program (see fee schedule), and billing for future installment payments will be cancelled.

Refunds apply in the following cases:

- Installment payments.
- Cancellation of registration, following completion of the corresponding procedure with Graduate School Student Services.
- □ Semester withdrawal and permanent withdrawal[1] if applicable, not applicable for course withdrawal. It does not apply for course withdrawal even if payment has been made in cash (Prompt Payment) for the entire program.

**Note 1: When a student withdraws from a semester or permanently, he/she must pay all the installment payments due up to the date he/she submits his/her withdrawal request, according to the calculation made by the Credit and Collections department, based on the regular installment payments for the program in which the student is enrolled.**

If the program began classes and the student was enrolled and decides not to continue with the program, neither the tuition fee nor the payment made will be refunded, with the exception of the "cash" payment method, according to the settlement prepared by the Credit and Collections area, which is made based on the regular fees of the program attended.

If the program does not open on the date established by the Graduate School, and the student decides not to continue with the program and has not registered, the registration fee and the first installment payment are refunded. If the student has registered, the Office of Admissions cancels his/her registration and applies the amount paid to a new starting date for the program or refunds the payments made.

The following are not subject to refund:

- Application fee. Unless the program does not start, in which case the refund will be made.
- Academic and documentary procedures.
- Registration fee, if the student has registered.

No administrative fees will be charged for internal processes if class sections are closed or a program is not opened.

For the calculation of the amount subject to refund, previously approved by the corresponding authorities, in accordance with the procedure for the Refund of Payments, the date of presentation of the request for the respective procedure is taken into account.

For cash payments (prompt payment), the amount refunded will be proportional to the service provided through the semester in which the student was enrolled and the corresponding installment. Any early payment discount will no longer apply. For a refund to be made, the student must first complete the permanent withdrawal process through the Graduate School Student Services department.

For special, extended financing, the calculation of the amount to be refunded will be based on the length of the program, taking the number of installments established for regular financing as a reference.

Proccesing a refund request may take up to twenty (20) working days calculated from the date the request thorugh the established forms are submitted to Credit and Collections Office.

Example 2:

**DOCTORAL program refund (prompt payment) – GRADUATE**

The context of this case involves a student who was enrolled in the third semester of a doctoral program and withdrew completely on July 05 (having completed semester 3).

Table 2 shows the amount calculated for the refund for prompt payment corresponding to 3 semesters—4, 5 and 6—for which academic services remain pending (following his complete withdrawal). Administrative fees of S/ 170 are deducted from this amount (with a debit note), and the discount for prompt payment is no longer in effect. Therefore, the amount to be refunded is S/ 17,638.

| Withdrawal date: | 5-Jul | Semester in which the student is enrolled: 3 | |
|---|---|---|---|
| Semester* | Cost without prompt payment | Cost with prompt payment | Calculation of refund with withdrawal |
| 1 | 7,067 | 6,501 | -565 |
| 2 | 7,067 | 6,501 | -565 |
| 3 | 7,067 | 6,501 | -565 |
| 4 | 7,067 | 6,501 | 6,501 |
| 5 | 7,067 | 6,501 | 6,501 |
| 6 | 7,067 | 6,501 | 6,501 |
| Total program | S/ 42,400 | S/ 39,008 | S/ 17,808 |
| | Administrative fees | | -170 |
| Total amount to be refunded S/ | | | S/ 17,638 |

*Table 2. Calculation of refund for prompt payment of the program*

** The calculation of the refund is based on the number of periods established according to the EPG program chosen (master's degree, doctorate or second specialty).*

## Transparency

San Ignacio de Loyola University, in accordance with its policy of transparency, promotes free access to information related to its financial management, strategic plans, statutes and regulations.

More information at:

https://usil.edu.pe/transparencia/informacion-financiera
https://usil.edu.pe/transparencia/plan-estrategico-institucional
https://usil.edu.pe/transparencia/estatutos-reglamentos

# ACADEMIC AFFAIRS

## Admission

The admission process is a personal, voluntary act required for applying to the university.

The Undergraduate Admissions Office (hereinafter referred to as the Admissions Office) establishes the dates for the admission process and sends them to the Office of the Vice President of Academic Affairs for approval, considering two (2) public admission competitions per year.

The dates of the admission process are shown on the admission schedule approved by means of a Resolution of the Office of the Vice President of Academic Affairs, which is published on the USIL website.

Each competitive public process consists of a knowledge exam as the main, mandatory process, among other assessments, as part of the assessment mechanism of the admission process. The form of assessment is established by USIL and is communicated to applicants in a timely manner.

For the “Scholarships Awarded by the Peruvian government” admission option, the results obtained on the National Pre-selection Exam (ENP) that determined an applicant’s PRONABEC pre-selected status may be considered equivalent to completion of the knowledge exam included in the admission process.

Only applicants to the Medicine program must obtain the required score on the knowledge exam and pass an interview.

The admission process has two types of acceptance: Regular/Ordinary and Extraordinary.

**Type of Acceptance: Regular or Ordinary**

Regular or ordinary acceptance takes has the following characteristics:

a. Regular acceptance consists of the ordinary USIL admission process through a public competition geared toward individuals who have completed their secondary education or are enrolled in the fifth year of secondary school at public or private schools. They must fulfill specific requirements established for each academic program.

b. The knowledge exam assesses applicants according to the incoming student profile defined in the USIL Educational Model, through basic competencies with which they graduate from secondary school, such as mathematics, communication, mastery of ICT, autonomy, etc. The list of topics is published on the university’s website under the responsibility of the Admissions Office.

c. To be accepted to the university, one must qualify for an opening, based strictly on merit according to the results of the admission process.

d. To apply to one of the different Working Adult Undergraduate Program, the applicant must show proof that he/she will be at least 22 years of age by the last day to be accepted as a USIL student.

e. If the number of openings under the ordinary acceptance option are not filled, they may be redistributed to the extraordinary acceptance option.

**Type of Acceptance: Extraordinary**

Extraordinary acceptance takes place through the following options:

1. International Baccalaureate
2. Outstanding Academic Performance

3. Outstanding Athlete and High-level Athlete
4. External Transfers and Licensed Professionals and Graduates
5. Center for Pre-university Studies
6. Scholarships Awarded by the Peruvian government

1. International Baccalaureate and equivalents

a) The submission of the high school diploma and the academic transcript (both in original and simple copy) is required for applicants holding an International Baccalaureate or equivalent programs. This diploma must correspond to one of the following systems: International Baccalaureate, German Baccalaureate (Abitur), French Baccalaureate, Italian Baccalaureate (Liceo), or British Baccalaureate.

- For the German, French, and Italian baccalaureates, applicants must additionally submit one (1) simple copy of the translated version of both the high school diploma and the academic transcript.

b) Courses passed in the International Baccalaureate program or equivalent programs are recognized according to the equivalence tables used for this admission option. At the time one applies, an official grade report from the program must be submitted.

2. Outstanding Academic Performance

The requirements to apply in this admission process are:

a) Meet at least one of the following requirements during the 3rd, 4th, and 5th years of secondary education:

- Rank within the top third or top fifth of the graduating class at the school of origin
- Obtain no more than ten (10) grades of “B” and no “C” grades

- • Achieve a minimum cumulative grade point average of fourteen (14.5)

b) Rank within the top two positions in the order of merit at the secondary education institution.

- (*) Grades must be substantiated by the official secondary education transcript or the Certificate of Learning Achievement.

c) Having completed one’s secondary education at a regular basic education school.

d) If the applicant attended different schools during his/her secondary education, he/she must have obtained the grades required for this admission option at each school.

e) Meet the requirements and complete the documents specified by the USIL Admissions Office, as detailed in the preceding sections.

3. Outstanding Athlete and High-level Athlete

To participate, applicants must pertain to one of the following sub-categories:

a) Outstanding Athlete - Geared toward members of national sports teams accredited by the Peruvian Institute of Sports (IPD), some other team accredited by the federation to which it belongs, or who are members of another team accredited by the relevant federation or sports association.

b) High-level Athlete - Geared toward athletes that have participated in high-level sports programs (PRODAC).

4. External Transfers and Licensed Professionals or Graduates

To participate, applicant must pertain to one of the following sub-categories:

a) External Transfer Students – To apply, it is necessary to submit a certificate verifying higher education studies, with a minimum of seventy-two (72) credits successfully completed at the time of application, or the completion of at least four (4) academic semesters or two (2) academic years. The certificate must detail the studies undertaken, the grades obtained, and the credits or contact hours assigned to each course successfully completed.

   Likewise, the applicant must provide an up-to-date document issued by the institution of origin confirming that they have not been dismissed for disciplinary reasons.

b) Degree holders or Graduates. – To apply, you must provide proof of your academic degree by submitting a copy of your high school diploma and/or professional degree, which must be registered with National Superintendence of University Education (SUNEDU).

5. Scholarships awarded by the Peruvian government

Geared toward participants in scholarship programs subsidized by the Peruvian government with which the university has signed agreements.

a) To participate, applicants must have completed their secondary education or be enrolled in the fifth year of secondary school, as well as be included on the official list issued by PRONABEC for this admission option.
b) The academic programs to which one can apply are determined by the Peruvian Ministry of Education (MINEDU).
c) For this option, the knowledge exam is governed by subsection 6.3 of the General Provisions.

Applicants must submit the required documents to the Admissions Office, together with proof of payment of the application fee:

**For standard undergraduate**

- Applicants must have completed their secondary education or be enrolled in the fifth year of secondary school.

1) Personal data form (available on the USIL website)
2) National Identity Document (DNI), foreigner ID card, passport, or Temporary Resident Permit (PTP), scan of both sides
3) Digital version of the secondary school Official Grade Report or Certificate of Learning Achievement.
4) Applicants who have completed their secondary education but do not yet possess the aforementioned documents may provisionally submit their report card up to the fourth academic term completed, or an original certificate issued by their school confirming that

they are currently enrolled in the final year of secondary education.

- Applicants under the “Degree Holder or Graduate” admission category are exempt from submitting these documents.
- If the school’s grading system is competency-based, the grade equivalency table detailed in Annex No. 03 must be applied.

5) Affidavit and commitment to submit documents.

6) Photo (JPG format with a white background)

**Table 1**

| Scale | Description |
|---|---|
| **AD** | **Outstanding Achievement**<br>The student demonstrates a higher-than-expected level with respect to the competency, that is, learning which exceeds the expected level. |
| **A** | **Expected Achievement**<br>The student demonstrates the expected level with respect to the competency, completing tasks in the allotted time. |
| **B** | **In progress**<br>The student is close to the expected level with respect to the competency, for which he/she requires support during a reasonable time to achieve it. |
| **C** | **Initial Level**<br>The student shows minimum progress in achieving a competency at the expected level. He/she frequently has difficulty doing assignments, for which he/she needs additional support from the teacher. |
| **Note: Grades are calculated using the competency-based calculator developed by USIL SRL, in accordance with Vice-Ministerial Resolution No. 00094-2020-MINEDU, issued by the Ministry of Education.** | |

## Documents and Additional requirements for Standard Undergraduate

| Type of Admission | Admission Option | Documents and additional requirements |
|---|---|---|
| Extraordinary | External Transfers and Degree Holders or Graduates (2) | i. **External Transfer**:<br>If course recognition is required, the following documents must be submitted:<br>a. Syllabi stamped and certified (certifications and digital signatures are acceptable) by the institution of origin<br>b. “Course Credit Transfer Request” form (available on the USIL website)<br>c. Additionally, the applicant must demonstrate, through an up-to-date document from the institution of origin, that they have not been dismissed for disciplinary reasons.<br><br>ii. **Degree Holders or Graduates**<br>If course recognition is required, the following documents must be submitted:<br>a. Course syllabi stamped and approved (digital signatures are acceptable) by the institution of origin.<br>b. “Course Recognition Application” form (available on the USIL website) |
| | Scholarships Awarded by the Peruvian Government *(1)* | Be included on the list of students shortlisted by PRONABEC. |

(1) Admission options not applicable for the Medicine program
(2) If the applicant has taken a program at any of the educational units of USIL S.R.L, he/she only needs to submit evidence of his/her curricular progress for the admission process. These documents are issued by the Admissions

| Type of Admission | Admission Option | Documents and additional requirements |
|---|---|---|
| Office. | | |

**For Working Adult Undergraduate Programs:**

High school graduation is required

1) Personal data form (available on the USIL website)
2) National Identity Document (DNI), foreigner ID card, passport, or Temporary Resident Permit (PTP), scan of both sides
3) Digital version of the Official Certificate of Secondary Education Grades or the Certificate of Learning Achievement Affidavit and commitment to submit documents, if authorized by the Admissions Office
4) Sworn statement and commitment to submit the required documents, if authorized by the Admissions Office
5) Photo (JPG format with a white background)
6) Employment certificate or document(s) that certifies the applicant's work experience (digital versions)

The following table lists additional documents required based on the admission track (Regular Undergraduate or Working Adult Undergraduate Programs). Submission of the documents and fulfillment of the requirements detailed in both appendices are mandatory.

**Documents and Additional requirements per Admission Option for Working Adult Undergraduate Program**

| No. | Admission Option | Documents | Requirements |
|---|---|---|---|
| Regular or Ordinary | Regular (No Previous Higher Education) | | Minimum work experience: 6 months or currently employed<br><br>**Face-to-face or blended programs:**<br>Minimum age: 22<br><br>**Online programs:**<br>The minimum age is determined by the legislation in force. |
| Extraordinary | External Transfer Students and Licensed Professionals or Graduates (4)(5) | a. External Transfer. If course credit transfer is required, the following documents must be submitted:<br>i. Course syllabus stamped and signed (digital signatures are acceptable) by the institution of origin.<br>ii. "Course Credit Transfer Request" form (available on the USIL website)<br>iii. Likewise, the applicant must demonstrate, through an up-to-date document from the institution of origin, that they have not been dismissed for disciplinary reasons.<br><br>b. Degree Holders or Graduates. If | **Transfer from Another School or University**:<br>Minimum of 6 months of work experience or currently employed.<br><br>**Face-to-face, hybrid, or online programs**:<br>Minimum age: 22 years old (Does not apply to graduates of the Institute of Entrepreneurs)<br><br>**Institute Diploma or Degree Holder:**<br>Minimum work experience of 6 months or currently employed. |

| No. | Admission Option | Documents | Requirements |
|---|---|---|---|
| | | course validation is required, the following documents must be submitted:<br>i. Course syllabus stamped and approved (digital stamps and signatures are acceptable) by the institution of origin.<br>ii. "Course Validation Application" form (available on the USIL website) | **Face-to-face, hybrid or online courses:**<br>Minimum age: 20 years old (Does not apply to graduates of the Instituto de Emprendedores).<br><br>**University Diploma or Degree Holder:**<br>Required work experience: Does not apply.<br>Minimum age: Does not apply. |
| (4) Institutes selected by the director of Working Adult Undergraduate Programs together with the Office of the Vice President of Commercial Operations.<br>(5) If the applicant has been enrolled in a program at any of the educational units of USIL S.R.L, he/she only needs to submit evidence of his/her curricular progress for the admission process. These documents are issued by the Admissions Office. | | | |

In the case of individuals who have completed secondary or equivalent studies abroad, the academic certificate must be officially translated into Spanish (if necessary). It must also be apostilled or, alternatively, authenticated and legalized by the Peruvian Consulate in the country of origin and by the Ministry of Foreign Affairs of Peru.

A copy of the official resolution issued by the Ministry of Education authorizing the revalidation or recognition of such studies is required. In the case of revalidation, the corresponding official certificates must also be submitted.

The Admissions Office is responsible for filing applicants' documents virtually during the application process. If an applicant completes the admission process and is accepted, his/her complete set of documents must be sent to Academic Services to be filed virtually.

**Graduate School**

The Admissions Office establishes the dates of the admission processes, according to the periodicity of the master's, doctoral and second professional specialty programs, as well as the target audience. These dates are formalized by means of a Resolution of the Vice President's Office for Graduate Studies, which contains the Admission Schedule, and are published on the University's Transparency Portal.

The admission process for the master's, doctorate and second professional specialty programs is carried out through public competition, after the definition of vacancies and a maximum of once per semester.

The public competitive examination for the master's, doctorate and second professional specialty programs consists of a mandatory knowledge test and a complementary interview. If the applicant obtains the minimum passing score in the knowledge test, it will not be necessary to schedule the personal interview.

The commercial advisor informs the applicant of the evaluation topics for the knowledge test and the interview.

For doctoral programs, the evaluation process includes the presentation of a solid research proposal, in addition to the knowledge test and/or interview.

In case of having studies abroad and not having the academic degree registered in SUNEDU, submit an internationally legalized or apostilled copy and a document (apostilled) issued by the foreign university certifying that the applicant is authorized to pursue Doctorate or Master's studies (as applicable). These documents must be officially translated into Spanish if required

The general academic, administrative and document requirements to start the admission process are:

**Master’s Degree:**

- Applicant's data sheet.
- Curriculum vitae (not documented).
- Simple copy of ID card, Alien Registration Card, Passport or Temporary Permit to Stay (PTP by its sigils in spanish).
- Simple copy (both sides) of the bachelor's degree registered in SUNEDU.
- In case of having studied abroad and not having the bachelor's degree registered in SUNEDU, submit an internationally legalized or apostilled copy and a document issued by the foreign university certifying that the applicant is authorized to pursue Master's studies (Apostilled). These documents must be officially translated into Spanish if required.
- Presentation essay mentioning academic and professional achievements.
- One (01) passport size color photo.

**Doctoral Degree:**

- Application form.
- Photocopy of the applicant's National Identity Document, Foreigner's ID Card, passport, or Temporary Residence Permit (PTP).
- Photocopy (both sides) of the applicant's master's degree diploma registered with SUNEDU.
- In case of having studies abroad and not having a master's degree registered in SUNEDU, submit an internationally legalized or apostilled copy and a document issued by the foreign university certifying that the applicant is authorized to pursue doctoral studies (Apostilled). These documents must be officially translated into Spanish if required.
- Two-page essay on the applicant's academic and professional goals
- One (01) passport-size color photo with a white background
- Preliminary research proposal.

**Second Specialization Degree**

- Applicant Data Sheet
- Curriculum vitae (not documented)
- Simple copy of DNI, Alien Registration Card, Passport or Temporary Permit to Stay (PTP by its sigils in spanish).
- For university graduates: Simple copy of the Professional Degree granted by the university (Bachelor's Degree) registered in SUNEDU, otherwise a legalized copy will be requested.
- For high school graduates: Legalized copy of the Professional Degree granted by an institute or school of higher pedagogical education.
- One (01) passport size photo in color and with white background.

## Special Admission Mechanisms

### Applicants With Different Abilities

- In accordance with the provisions of Law No. 29973, General Law on Persons with Disabilities and its Regulations approved by Supreme Decree No. 002-2014-MIMP, in order to ensure equal treatment free of discrimination, persons with disabilities apply to USIL, as provided in the Policy of Care for Students with Disabilities.
- In order to access the reservation of vacancies established by Law No. 30220, University Law, the applicant with a disability must submit the Certificate of Disability issued by public, private and mixed Health Service Providers at the national level, which certifies his or her permanent physical, sensory, mental or intellectual disability, in accordance with the applicable regulations. USIL reserves the right to carry out the verifications it deems pertinent.
- For undergraduate and Working Adult Undergraduate Programs, if the total number of vacancies offered for people with different abilities is not filled during the admission process, these vacancies may be used for other applicants.

USIL has trained personnel to assist and guide applicants in vulnerable conditions in the admission process.

## Technological Requirements

To meet the requirements of the USIL course curriculum, students have access to the CANVAS virtual campus. For content management and development of synchronous and asynchronous activities, students must possess or have access to:

**Operating Systems**:

- Windows 10 o superior.
- MacOS 10.13 (High Sierra) and later versions.
- Linux: Modern distributions supporting Google Chrome or Firefox.
- Chrome OS: Updated versions of Chrome OS

**Native Mobile Operating System App Support**:

- iOS 13 and later versions (compatibility varies by device).
- • Android 6.0 (Marshmallow) or later version.

**Computer and Processor Speed**:

- Computer Age and Configuration:

Use a computer that is no more than 3 years old for optimal performance.

- 1 GB of RAM
- RAM Memorie: Minimum 2 GB of RAM.

Processor: 2 GHz or higher processor.

**Internet Speed:**

- Minimum recommended speed of 1 Mbps.

**Screen Readers**:

- Macintosh: VoiceOver (the latest version for Safari).
- PC: JAWS (the latest version for Firefox or Edge).
- PC: NVDA (the latest version for Firefox or Edge).
- Browser Compatibility:

Support for screen readers in chrome is recommended, in addition to Safari and Firefox.

More information: Canvas - Requerimientos Técnicos

## Student Identity Verification

### Regular Undergraduate and Working Adult Undergraduate Programs

Once admitted to the University, applicants receive their access credentials (username and password) to the INFOSIL virtual platform, through which they can access the different services, as well as information on their enrollment, academic progress, enrollment, courses, evaluations, study regulations, communications, attention platform, library, etc.

The identity verification process is performed when the student enters the platform using the credentials provided.

In addition, identity verification is made according to the internal regulations in the “Guidelines on Written Assessments and Final Exams” (Standard Undergraduate and Working Adult Undergraduate Programs). To take a virtual exam, the student must identify him/herself by showing his/her digital student ID from the USIL mobile application or another valid, official photo ID document. The camera of the student’s electronic device must be focused on the student’s face without any accessories that impede his/her identification. Above all, the camera must be turned on throughout the exam, with no virtual background or blurring.

The verification, protection of the identity and the privacy of the students, both virtual classroom and the other information systems that the students use, is carried out through the connection to the LDAP interface to the Office 365 Active Directory. It's in this interface where the assigned users and passwords are validated. The process of verifying student identities is regulated in the directive that regulates the development of written and virtual evaluations of regular Undergraduate and Working Adult Undergraduate Pprograms.

### Graduate School - EPG

In the admission process, the student's identity is verified when the business advisors initiate a conversation with the applicant via WhatsApp, phone call or email. After generating access to the knowledge test, credentials are sent to the student via email or WhatsApp so that he/she can access and complete the assessment.

Once the applicant is admitted to the University's EPG, the student receives their access credentials (username and password) to the INFOSIL virtual platform, through which he/she will be able to access the different services, as well as the information of their enrollment, academic progress, evaluations and learning resources. Likewise, you will receive the manual and instructions to download from the APP store or Play Store the USIL MOBILE application where you will find your Digital Photocheck with a QR code, which will allow you to identify yourself for on-site evaluations, pedestrian and vehicular entry.

The identity verification process is carried out when the student enters the virtual platform using the credentials and/or access granted to him/her, while for pedestrian or vehicular entry to USIL facilities, the student must show at the security checkpoint their Digital Photocheck together with their ID card or University ID.

The verification, identity protection and privacy of students, both the virtual classroom and other information systems used by students, is done by connecting to the LDAP interface to the Active Directory of Office 365. It is in this interface where the assigned users and passwords are validated.

## Transfer of Credits

### Regular Undergraduate and Working Adult Undergraduate Programs

The transfer of credits is a process of validation of the credits of the courses studied and approved by a student in a professional program in a university or non-university higher education institution different from the one he/she is applying for (entrant) or in which he/she is enrolled; in order to exempt him/her from taking a specific course.

For undergraduate programs, the maximum number of credits that can be validated is up to 140 when students come from other Peruvian universities and up to 130 credits when they come from a non- university higher education institution.

In any case, the indicated credit limit does not include the exoneration of language courses. Students who have previous knowledge of the English language may request exemption from one or more courses in accordance with the regulations of the current Directives.

Exceptionally, students coming from universities whose operating license has been denied or cancelled, to guarantee the continuity of the educational service, are exempted from the maximum limit indicated.

The validation of courses is done on the current curricula of the professional programs based on competencies at the time the student makes the request. It only covers the courses that make up the curriculum of the program the applicant has applied for or is enrolled in.

It is carried out prior to the enrollment process, and applications are accepted until the deadline indicated for each procedure, either in the Admission Schedule (for entrants or the Academic Calendar (for students who have completed an academic exchange or are transferring internally. Under no circumstances will courses be validated after this process.

The student may eventually request the partial or total cancellation of the validated courses upon request to the program Direction in which he/she is registered, which carries out the corresponding procedures before the Academic Operations Office. This request, once applied, is irreversible.

a. External Validation

Process of comparison and validation of credits obtained for courses taken by a student in a professional program in a university or non-university institution of higher education different from the one he/she is applying for (entrant) or in which he/she is enrolled (in the case of an academic exchange), which implies the acceptance of these courses according to the study plans of the courses to be validated.

b. Recognition:

Process for exemption of English courses.

Credit Recognition: This is the process through which USIL grants academic credit for courses included in a program's curriculum and records those credits toward the student's academic progress, provided that mastery of the corresponding learning outcomes is demonstrated. Such evidence must be obtained in advance through a competency-based proficiency exam or assessment of learning outcomes established by USIL. In the specific case of English courses, recognition may be supported by the presentation of a valid external certificate or through a placement or reclassification exam that demonstrates the required level of language proficiency. The academic effects of recognition (credit assignment and its recording in the academic record) are governed by applicable institutional regulations.

c. Internal Validation

Comparison and validation of courses and their respective credits and approved grades obtained in a professional program previously taken.

d. Target Program

Professional program in which a student has entered or will enroll.

| Type of Validation | Type of Application | It is carried out |
|---|---|---|
| External Validation | 1. For students admitted by: International Bachelor's degree, external transfer, graduates, undergraduates, graduates of universities or non-university higher education institutes. | In their first enrollment period. |
| | 2. Students with more than one academic period: Students who have participated in an academic exchange. | After participation in the academic exchange |
| Recognition | Exoneration of English courses as regulated in the Enrollment Guidelines - English Course Considerations for regular undergraduate and Working Adult Undergraduate Programs courses. | In their first enrollment period. |
| Internal Validation | After approval of your internal transfer. | In the period in which he requested his transfer. |

An internal transfer to another program may only be requested when a minimum of fifteen (15) credits have been approved prior to the date of the transfer request.

The internal transfer does not proceed when the student who requests it has failed more than 50% of the total number of credits taken in the semester immediately prior to the transfer request.

In case the student changes the place of study and remains in the same degree program, he/she may keep the course validations applied at the beginning.

The documents submitted in the course validation process are never returned to the applicant, regardless of the result, since such documents are part of the applicant's file.

In case it is detected that the documents submitted by the applicant were adulterated, the registration for the period will be cancelled. Likewise, in this situation, the rules of the disciplinary process of the Regulations of Studies of the program will be applied, if applicable.

The process of validation of courses will be carried out only upon request.

**Graduate School**

- For master's and doctoral programs, course credit can only be transferred from internal programs. Up to 50 % of the total number of credits in the curriculum of the target program may be transferred.
- In a transfer of course credit, the number of credits recognized is that assigned to the course in the curriculum of the target program.
- A proposal for transfer of course credit is prepared by the coordinator of the target program for approval by the academic director of the Graduate School or the director of the graduate unit, as applicable.
- The deadline for requests for the transfer of course credit is fifteen (15) workdays before the start of registration for a student's first semester at the USIL Graduate School.
- The minimum passing grade for courses to be transferred is eleven (11).
- The transfer of course credit is carried out considering the curricula of USIL Graduate School programs in effect for the semester for which the student requests the procedure.
- Credit for courses with the same name and that pertain to programs at the same level as the target program at USIL will be transferred, provided that the number of credits is

greater than or equal to that of the USIL courses.

- Credit can be obtained for non-credit courses within the same master's degree program at the USIL Graduate School only if the student meets the admission requirements for the program. To obtain credit for such courses, a student must be admitted to the master's degree program within five (5) years after completing them, and the courses and/or their content must still be in the curriculum.
- Students must at least have a bachelor's degree to transfer course credit to a master's degree program and a master's degree in the case of the transfer of credits to a doctoral degree program.
- Internal transfers can take place when the program of origin is the same level as the target program. As an exception, credit for courses in programs at a different level can be granted, provided that the academic director of the target program expressly authorizes it.
- The student or applicant is exonerated from payment for the course(s) in the target program for which credit is transferred.

## Class Attendance and Participation

### Standard Undergraduate Programs

Class attendance is mandatory. The student who reaches or exceeds the limit of thirty percent (30%) of non-attendance in the course, defined over the total number of class hours, will be disqualified to take the final evaluation, and will receive a grade of zero (0) in said evaluation.

Students may permanently review their attendance record on the institutional platform (INFOSIL). If you find any discrepancies, you have up to three business days from the date they are recorded to request a review from the faculty member of the course.

Attendance Record by the faculty member:

Student attendance is recorded for each class hour.

- Attendance is recorded by accessing the faculty member's INFOSIL platform with his/her username and password.
- The faculty member can change the information already recorded as many times as necessary during the class. Once the class is over, no changes can be made.
- Attendance to online courses (synchronous and asynchronous) is equivalent to the activity presented.
- Course instructors should note that recording attendance is mandatory.

### Automatic attendance record

- All students enrolled in a given virtual block course must access the Zoom platform on the dates and at the times the class sessions are scheduled.
- Access is through your institutional e-mail account, which is essential to be identified and registered as an attendee.
- To take into account the attendance to a class session, it will be necessary the sum of the minutes connected in the sequence of programmed sessions of that course-block.
- Class sessions are 50 minutes long, therefore, the first hour is considered to be attended with at least 10 minutes, the second hour with 51 minutes, the third hour with 101 minutes and so on, depending on how many consecutive hours are scheduled.
- At the end of the day, there is a nightly process that is executed (interface) which is in charge of passing all the necessary information from Zoom to the ERP and which is finally displayed in the student's INFOSIL.
- In this mode, the system automatically tracks the student's time spent on the platform. The faculty member should inform students that attendance is automatically recorded based on the amount of time they spend on the platform.

### Correction of attendance / registered absence

- If there is an error in a student's attendance record, the instructor must request a correction through INFOSIL, which will send an alert to the Academic Coordinator for approval.
- - The rectification option is in effect for the active period. The faculty member cannot request corrections for the previous semester.
- Only one attendance-attendance rectification request may be generated for a student on a single date and for a single course-block.

- No second attendance/non-attendance rectification for the same student for the same date.
- If the faculty member requests a second correction of the same student for the same date, the system will maintain the status of the first correction requested.
- The final deadline for the faculty member to rectify the student's attendance/absence is three (03) working days after the request has been posted. (Working days include Monday through Saturday)
- The Academic Coordinator will receive, in his/her institutional e-mail, a request for attendance/absence correction.
- After the e-mail has been received, the Academic Coordinator has a maximum of 2 working days to approve or reject the application.
- The response of the request is sent to the institutional e-mail of the Academic Coordinator, with a copy to Academic Services.

**Justification for non-attendance**

- Students may only justify their absence from classes for medical reasons or force majeure if the following conditions are met:
  - Students who are close to or have exceeded the % of non-attendance limit.
  - Applications to be submitted no later than 2 weeks prior to the final evaluations.
- In case the student wants to justify his/her absence due to medical reasons or force majeure, he/she must present the following documents:

| Cases | Supporting documentation |
|---|---|
| Medical cases or accidents resulting in the inability to attend classes | - Medical certificate signed by a physician registered with the Peruvian Medical Association (CMP) indicating the diagnosis, current situation of the student and period of medical rest.<br>- Copy of results of clinical analysis, diagnoses, medical prescriptions, orders and results of tests performed, purchase of medicines, vouchers for health expenses.<br>- Police report, if applicable. |
| Cases of force majeure. | - Death certificate of immediate family member, in case of death.<br>- Proof of hospitalization, in case of accident. |

- Only the absences contemplated in the days stipulated in the medical leave document or the hospitalization certificate, as applicable, shall be excused.
- In the case of working students, who are from a province or abroad, their request for justification must be submitted by e-mail to the Dean/Director/Coordinator of the corresponding program requesting that their evaluations be taken.
- In the case of outstanding student athletes, they will coordinate their justifications with the Sports program coordination.

**Graduate School**

Class attendance is mandatory in all modalities. The maximum percentage of absences is 30%, in case the student exceeds this percentage, he/she may be disqualified to take the final evaluation of the course.

Faculty shall record the attendance of their students at the beginning of the classes and their

participation during the development of these classes, either online or in the media available for this activity.

The student may permanently review his/her attendance record in the institutional platform INFOSIL. If a discrepancy is found, the student has a maximum of three (3) working days after the discrepancy is registered and may request its revision.

The faculty member is the maximum authority of the class and will have the discretionary power to accept or not the entrance of the students to the classroom once the classroom session has begun. The faculty member's decision must be abided by by the student.

In case the class or evaluations are being given in a virtual synchronous manner, the student must keep the camera on at all times. In case of any difficulty, the student must follow the guidelines of the directive of Exam Preparation and Management, of the corresponding norm or according to the indications of the University.

## Maximum Time in the Program

### Standard Undergraduate and Working Adult Undergraduate Programs

The maximum time a student can remain in a degree program is established in the USIL Academic Regulations, which define the limit as a maximum of 1.5 times the total number of credit hours for the program. Procedures for appealing grades and validating credits do not affect the maximum time permitted.

## Standard Undergraduate and Working Adult Undergraduate Programs Academic Procedures

### Enrollment

Enrollment is the formal and voluntary act that accredits the student's condition as a student of Universidad San Ignacio de Loyola, by which he/she selects a set of courses for which he/she is qualified. It is a condition for enrollment to fulfill the requirements established by the University in the corresponding norms. The student will not be able to enroll in a course without the approval of those other courses that are considered prerequisites.

English courses are mandatory enrollment in the period established by the study plan and must be taken continuously.

Students requesting exemption from any of the English courses must comply with the current English Course Considerations policy.

#### Enrollment Reservation

The student may stop studying for one or more semesters, prior reservation of enrollment and respective payment. The reservation is made prior to the enrollment corresponding to a specific academic period not taken.

#### Enrolment Cancellation

You may only request a cancellation of enrollment up to the maximum date established in the Academic Calendar. If necessary, the retention department may request extra documentation in order to evaluate the enrollment cancellation request.

### Re-Admission to the Program

Students who have not reserved their enrollment must apply for readmission and make the corresponding payments. Readmitted students must follow the curriculum and regulations in effect at the time they are readmitted. If a student also wants to change majors, he/she must follow the internal transfer procedure by the deadline indicated on the Academic Calendar.

### Internal Transfer

Students who are studying in a specific program of the University may transfer to another program following the procedures established for internal transfers.

From the 2019-02 term and thereafter, a student who fails a course for the third time will be suspended for one year from the University. At the end of this period, the student will only be able to enroll in the subject he/she previously failed, in order to return to his/her studies in a regular manner in the following semester. After completing the one-year suspension, the student may choose to enroll in another program, but if the failed course is mandatory in the new curriculum, he/she must enroll only in that subject. In case the failed course is not a required course in the curriculum of the new program, the student will be able to resume his/her studies in a regular manner. The internal transfer under these conditions can only be done once during the student's permanence at the University and will be subject to the approval of the corresponding Program Director.

### Course Cancellation

The student may withdraw from up to three courses in each semester, and a maximum of four times from the same course during his/her stay at the University, following the established procedures. Cancellation of a course has only academic effects and does not exclude the

fulfillment of the payments to which the student has committed. Cancellation of a course can only be made up to the date indicated in the Academic Calendar.

### Semester Cancellation

The student may withdraw from the semester in which he/she is enrolled until the date indicated in the Academic Calendar. The cancellation of a semester may only be done once during the student's stay at the University. The cancellation of the semester has academic and economic effects. For duly justified cause, the Dean of the corresponding College or Program Director may authorize a second Cancellation of the semester.

The procedures can be found in the academic procedures guide in the following links:

https://usil.edu.pe/servicios/tramites-academicos/retiro-de-curso

https://usil.edu.pe/servicios/tramites-academicos/retiro-de-periodo-academico

## Graduate School Academic Procedures.

## Registration

Registration is the formal, voluntary act that confirms student status at the USIL Graduate School. In the first semester, registration is processed by the USIL Graduate School, once a student completes his/her admission process. Starting with the second semester, on the date established on the Academic Calendar for the student's program, he/she registers each semester for all the courses in the curriculum for the semester of the program in which he/she is enrolled and for which the student qualifies.

To register, a student must meet the following requirements:

a. Have no outstanding payments to the USIL Graduate School.

b. Have paid the registration fee and installments or promissory notes, as applicable.

### Registration Reservation

Students can discontinue their studies only once over the course of a program by making a registration reservation prior to the start of classes during registration, according to the dates established on the Academic Calendar, paying the corresponding amount according to the fee schedule and providing an explanation of work-related or other reasons for doing so.

After making a registration reservation, the student has one (1) semester to resume his/her studies at the USIL Graduate School, provided that the program is still offered, and the courses are being taught in the corresponding semester. Otherwise, the student must apply for readmission through USIL Graduate School Student Services, regularizing his/her financial situation with the university before applying. In this case, the applicable fees will be those in effect at the time he/she is readmitted.

## Readmission to a Program

Upon resumption of his/her studies up to one (1) year later, the student must adapt to the curriculum, fees, and regulations in effect. Students who resume their studies must agree to the new financial and academic conditions. A student must pay a readmission fee in the semester in which he/she resumes his/her studies if he/she has not made a registration reservation.

If a student applies for readmission, having previously withdrawn from a semester, he/she must pay any installments he/she failed to pay before applying, including the respective administrative and late fees calculated based on regular installments for the program.

**Readmission to a Course**

A student who has withdrawn from a course may apply for readmission to the same through the Graduate School Student Services area, making the corresponding payment.

To request readmission to a course from which a student has withdrawn, the student must have no outstanding debt to the institution.

- If the student has not discontinued his/her studies, he/she must pay the fees for registration and tuition for the course, according to the fee schedule in effect.
- If the student has discontinued his/her studies for a semester, he/she must pay the fees for readmission, tuition for the course, and registration for the semester in which he/she takes the course, according to the fee schedule in effect.

**Readmission - Internal transfer with a change of course delivery method**

If a student has discontinued his/her studies for up to three (3) years, and the academic offering originally selected no longer exists, he/she may request an internal transfer through the Graduate School Student Services area. This procedure only applies to a change of course delivery method within the same program.

## Retaking a course

A student who fails a course must enroll in it the next time the USIL Graduate School offers it, making the respective payment according to the fee schedule in effect. A student who needs to retake a course or courses must go through the readmission procedure, as applicable. In addition, the student must pay the registration fee and tuition for the course(s) according to the fee schedule in effect.

It should be noted that charges for this procedure are not included in the amount stated as the total investment in the program.

Students whose status is “Expulsion due to failing grades” (“Academic suspension” or “Registration on academic probation”) may not undergo this process and will not be permitted to resume their studies.

## Re-Admission

Students who have left their studies for a maximum period of five (5) years may apply for reinstatement to USIL through the EPG Student Services department, which must be evaluated by the academic coordination of the program.

**Re-Admission - Internal Transfer with Change of Modality**

Students who have left their studies for a maximum period of five (5) years and who currently do not have the academic offer they initially chose, may request an internal transfer process through the EPG Student Services department. This process only applies to change of modality within the same program.

## Course Cancellation

The student may request cancellation of one or more courses per academic semester and a maximum of only once of the same course throughout the entire program in which he/she is enrolled. The student must enroll the next time the EPG-USIL schedules the course. If the course or courses are not rescheduled, the student will be subject to the Academic Direction and the Coordination of the respective program. Cancellation for one or more courses means that the academic credits and grades obtained during the academic period in which the cancellation is made will not be considered. All courses that have been previously cancelled will be subject to the fees in force at the time of reinstatement at the time of reinstatement.

In case of being enrolled in only one (1) course, the student may only apply for cancellation of a semester or definitive withdrawal. After applying, students must resume their studies within a period not exceeding one (1) year and pay the cost of the course and the corresponding tuition, at the rates in effect at the time of their reinstatement. In the latter case, their reinstatement to the program will be subject to the validity and availability of the course or program. All students assume a payment commitment with the subscription of the enrollment agreement that implies the specific economic conditions, as well as the payment terms. Withdrawals from courses in no case exempt from the fulfillment of the obligation.

## Semester Cancellation

The student may only cancell one (1) academic period during the entire program in which he/she is enrolled. The cancellation of a semester has the following effects:

- The student will not be credited for courses passed or failed in the semester.
- Must pay all fees generated and due up to the date of submission of the application, according to the settlement made on the basis of the regular fees of the program studied.

After applying, the student must resume his or her studies within a period of no more than one (1) year. In the latter case, the student's reentry to the program will be subject to the validity and availability of the course or program. Upon retaking his or her studies, the student must assume the prices that are in effect, in addition to the tuition fee for the respective period or periods to be studied.

## Permanent Withdrawal

Has the following effects:

- No academic credits or grades will be given for the semester in which the student withdraws.
- The student must justify his/her request to withdraw.
- The student must pay the installments due through the date the request was submitted, which will be calculated based on the regular installments for the program in which he/she is enrolled.
- The student, after a definitive withdrawal, will not be able to retake the program in the modality he/she attended.
- In case the student wis|hes to enroll again in a program of the Graduate School, he/she must go through the whole process as a new student with the Admissions Department.

The procedures can be found in the procedural guidelines through the following links:

https://usil.edu.pe/servicios/tramites-academicos/retiro-de-curso

https://usil.edu.pe/servicios/tramites-academicos/retiro-de-periodo-academico

## Courses and Academic Credits

The University offers the following types of courses:

a. Compulsory courses are those that, according to the curriculum of a program, must necessarily be taken and passed or validated in accordance with the established norms.

b. Elective courses are those freely chosen to complement their academic training. They must be taken and approved or validated in accordance with the established rules.

c. Leveling courses are those offered in basic training subjects to standardize the previous knowledge of regular undergraduate students. These courses do not grant academic credits.

Each College establishes the courses that are mandatory for its degree or degrees and those that are elective, in order to be incorporated into the Curriculum.

The syllabus is the instrument for the management of the course and has the purpose of evidencing the teaching-learning achievements in the course. It is mandatory for students.

## Nomenclature of the Course Coding System

The coding system for USIL courses consists of three elements:

1. Prefix:

   The prefix is composed of 03 letters that indicate the academic discipline to which a course belongs. USIL has decided to use the prefixes of the academic disciplines established in the State Course Numbering System (SCNS) of the State of Florida, United States of America. In addition, USIL has edited some categories and included its own disciplines according to the nature of the programs it offers.

   The prefixes are detailed in the "Catalog of USIL prefixes and academic disciplines".

2. Course Level:

   Arabic numbering from 1 to 8 is used to indicate the levels established in the USIL course coding system.

The levels are:

- **Pre-university**: These are leveling or preparatory courses prior to undergraduate studies. These courses do not grant academic credit.
- **(4) General Studies**: These are the basic courses of the professional programs (courses in the area of General Studies and Languages, etc).
- **(5) Initial Vocational Training:** These are courses specific to the field of professional programs and are located in the initial semesters of the program outline.
- **(6) Advanced Vocational Training:** These are courses specific to the field of professional careers and are located in the final semesters of the program outline.
- **(7) Graduate studies not leading to an academic degree:** Courses offered by the EPG that do not lead to academic degrees, such as: Diplomas and continuing education.
- **(8) Graduate courses leading to an academic degree:** Courses offered in the University's Master's, Doctorate and Second Specialty programs.

3. Suffix:

   It is composed of four (04) numerical digits that indicate the line of instruction, disaggregated by academic discipline.

   It is assigned according to the Academic Disciplines Catalog. Example:

| GES | 5 | 1001 | BUSINESS ADMINISTRATION |
|---|---|---|---|
| **PREFIX OF THE DISCIPLINE** | **Course Level** | **Suffix** | **Course Name** |
| (Source: own elaboration) | | | |

**Concentration and Upper Division Courses**

- Concentration area. Also known as specialty program courses. These courses are related to the academic objective and graduate profile. These courses allow to have knowledge of pertinent theories and methods of the discipline. General studies courses and other non-specialty courses are not concentration courses.
- Upper division course. They are courses that have a much more specialized content than the program. Its content is deeper in theoretical aspects, methods and the understanding of the program itself. They are courses that are generally developed in the last semesters of study and that have previous prerequisite courses.

## Definition of a Unit of Credit

For face-to-face, hybrid modality and online education modalities, the academic credit is the unit of measurement of the academic load of the courses, equivalent to sixteen (16) academic hours of theoretical class or thirty-two (32) academic hours of practical class, workshop and/or laboratory. Each academic hour of class has a duration of fifty (50) minutes. Approval of the course grants the credits detailed in the syllabus corresponding to the course in which the student is enrolled.

## Grading System

The grading scale is vigesimal. The minimum passing grade for the course is 11. All evaluation grades, obtained individually or in groups, are rounded to whole numbers. In this sense, a grade with a decimal part equal to or greater than 0.5 will be rounded up to the next higher unit in favor of the student; grades with a decimal part less than 0.5 will be rounded down to the next lower unit.

In the same way, the items of the evaluation scheme (average of permanent evaluation, partial exam in case it is foreseen to be given according to the syllabus, final exam and the final grade of the course) are rounded to whole numbers. Any grade with a decimal part equal to or greater than 0.5 will be rounded up to the next higher unit in favor of the student; grades with a decimal part less than 0.5 will be rounded down to the next lower unit.

For Undergraduate and Working Adult Undergraduate Programs, the final grade for the course is the weighted average of the permanent evaluation items, including any exams.

In the case of the Graduate School, the final grade for a course is the weighted average of the formative and summative assessment categories, as stated in the course syllabus.

| USIL Rating System | U.S.A Equivalence of Grades |
|---|---|
| 20 | A+ |
| 19 | A |
| 18 | A |
| 17 | A- |
| 16 | B+ |
| 15 | B |
| 14 | B- |
| 13 | C+ |
| 12 | C |
| 11 | C- |
| 0-10 | F |
| (Source: own elaboration) | |

**Review and Reconsideration of Undergraduate and Working Adult Undergraduate Programs grades.**

There will be only two types of student complaints that will be accepted:

- For incorrect summation of exam scores.
- For omission of the score of a question(s).
- The time established for presenting a grievance face-to-face in the classroom is a maximum of ten (10) minutes per student, while in the virtual classroom, a grievance may be submitted during the 24-hours of receipt of the evaluation.
- All appeal requests must be notified, reviewed, and validated by the course coordinator.

- The reconsideration response is not subject to appeal.
- Any modification or alteration to the original exam is classified as a very serious offense in the USIL Study Regulations and, therefore, subject to disciplinary sanctions.

**In the Physical Classroom:**

- The review of individual evaluations is personal and conversation, comparison of answers, exchange of materials (pens, books, handouts) or any other group activity is prohibited.
- Any modification or alteration to the original evaluation is classified as a very serious offense in the USIL Study Regulations and, therefore, subject to disciplinary sanctions.
- The scheduled time to make any claim is a maximum of ten (10) minutes per student.
- **For Summative and Lagged Evaluations**: Only during the scheduled date, time and place, the student may formally process his/her review and reconsideration, if applicable, by filling out form F-405 Request for Review and Reconsideration of Grades, inside the classroom. This request must be filled out with the appropriate support to take into consideration the review and reconsideration of the grade within the deadlines established in the academic calendar.
- **For formative evaluations (exams, tests, laboratories, etc.).** The student must:
- Complete form F-405 Request for Grade Review and Reconsideration at the time of return by the instructor and only at the date, time and place scheduled by the instructor.
- Formally process its review and reconsideration, with valid grounds. This procedure must be completed without leaving the classroom.

**In the Virtual Classroom:**

- Formally request your review and reconsideration by email to the course instructor, with adequate support to be considered for review and reconsideration of the grade within the dates scheduled in the syllabus or established by the faculty member.
- The claim is submitted within 24 hours of receipt notified by the Canvas tool.

**Grade Review and Reconsideration for the Graduate School**

- The review of individual assessments is personal.
- If a student requires a review of a grade on an assessment (which has no oral component) or the final exam, he/she may request a grade review and reconsideration within 24 hours after grades are published in the virtual classroom and/or INFOSIL. After this time, it will be understood that the student has no objections to the grade received, and he/she will automatically lose the right to make this request. Students' requests for this procedure must be made through the Graduate School Student Services platform.
- Grade review and reconsideration requests will be evaluated by the course instructor or the academic director, within the following timeframes: in the case of continuous assessment, up to seven (7) calendar days and, in the case of final assessments, up to the date indicated on the Academic Calendar. After this time, the student will be notified of the outcome of the evaluation of his/her request.
- The outcome of a grade review and reconsideration is final and cannot be appealed.
- A grade review consists of a thorough verification of the test (assessment or exam). The outcome may be a higher grade, a lower grade, or confirmation of the grade given by the course instructor.

- Only in the case of exams or assessments from face-to-face courses, the grade reconsideration request and supporting documents submitted by the student will not be returned.
- A grade review and reconsideration cannot take place after the end of the semester, as indicated on each program's Academic Calendar.
- This procedure does not apply to assessments taken orally (presentations, defenses, etc.).

## Evaluation Process

### Regular Undergraduate and Working Adult Undergraduate Programs

The evaluation outline is defined in the syllabus of each course, which details the evaluations and the percentage, if any, that corresponds to obtain the final grade or average of the course. The items of the evaluation outline are:

a. Formative evaluation that allows the student's learning process to be assessed,

b. Summative evaluation.

The evaluation scheme may be modified according to the nature of the course.

The formative evaluation is inherent to the teaching-learning process, it includes the evaluation of the evidence and expected learning through tests, reading controls, projects, works, presentations, which can be individual or group. The grades obtained in the formative evaluation are considered for the final grade of the course, as detailed in the course syllabus.

- For Regular Undergraduate, the schedule of late exams is published in the institutional platform, specifying date, time and place of the exams. The student who does not take one or more components of the Formative or Permanent Evaluation may only take one of them, as long as the syllabus expressly allows it. The Academic Calendar indicates the deadline date for requesting a late evaluation, the date for payment of the late fee and the dates on which it is to be taken. This evaluation covers all the topics developed in the syllabus of the course and will replace the unperformed evaluation. If the syllabus of the course contemplates the taking of a partial exam and the student does not take it on the scheduled date, he/she may also take a late exam under the considerations foreseen in this article or others provided by the University.
- Working Adult Undergraduate Program if applicable, for courses that schedule final exams and late exams, it is published on the institutional platform specifying the date, time and place of the exams.

Students who do not take the final exam stated in the syllabus on the scheduled date may take a late exam, whose grade will replace the grade of the exam not taken. In the Academic Calendar, the deadline to request a late exam is detailed, it is processed through the institutional platform, upon payment of the corresponding fee.

The evaluations are given according to the modalities of hybrid or online education, either in the physical facilities of the university or through the virtual means that the university has implemented for such purpose, being the professor of the course responsible for a correct application.

The directive that regulates the development of written and virtual evaluations of regular Undergraduate and Working Adult Undergraduate Programs, monitors the evaluation and verification of student identities.

### Graduate School

The assessment system is explained in each course syllabus, which lists the types of assessments and the weight of each assessment category or criterion in the calculation of the final course grade. Assessment categories include:

a. Formative assessment, which makes it possible to evaluate a student’s learning process.

b. Summative assessment.

The assessment system may be modified according to the nature of a course, in which case

students will be notified in a timely manner.

Assessments are taken face-to-face or online, as indicated in the course syllabus. Face-to-face assessments must be taken at the USIL Graduate School, and online assessments must be taken in the virtual classroom.

The course instructor reports grades to Academic Operations through the INFOSIL platform by the deadline established in the internal regulations of the Graduate School.

Once a student knows his/her grade on the final assessment, he/she can request a grade review and reconsideration by the date established on the Academic Calendar for the program in which the student is enrolled. For further detail, review the considerations and restrictions established in the Procedural Guidelines (available on the institutional platform, INFOSIL).

The guidelines that govern written and virtual assessments in Graduate School programs monitor the evaluation and verification of students' identities.

## Academic Progress (AP)

### Regular Undergraduate and Working Adult Undergraduate Programs

Academic progress is assessed each semester by validating levels of compliance with the following standards:

- Semester grade point average (PPP).
- Courses passed.
- Total number of credits taken during the student's studies at the university.

Academic progress is found to be satisfactory if the student:

- Obtains a grade point average for the academic period (PPP) greater than or equal to 10.5.
- Passes 100% of the courses in which the student is enrolled.
- Does not exceed a maximum of 1.5 times the total number of credits required for the academic program during the student's studies at the university.

Every semester, the system for following up on academic progress calculates weighted semester grade point averages and the number of consecutive times a student has had an unsatisfactory grade point average (under 10.5), in order to contribute to the analysis of academic progress.

If a student meets the aforementioned standards in a given semester, he/she will have a satisfactory status. In the event that a student fails to meet one or more of these standards, he/she is placed on academic probation, and his/her status is recorded in the academic system. A student is taken off academic probation when he/she remedies the cause for this status.

Satisfactory status qualifies a student to take the maximum number of credits allowed per semester, according to the curriculum for his/her program. Additionally, students are ranked in the following percentiles:

a. Top fifth percentile
b. Top third percentile
c. Top half percentile

A regular undergraduate student is placed on academic probation if:

a. Has to take one or more courses for a third time
b. Has a failing weighted semester grade point average
c. Has exceeded the limit of 1.5 the total number of credits for the program.

A Working Adult Undergraduate Program student is placed on academic probation if:

a. Has to take one or more courses a second time.
b. Has to take one or more courses for the third time.
c. It has a weighted average of the period (PPP) failed.

The university informs the student of his/her academic probation status and establishes the intervention required to assist him/her with his/her academic performance.

- For the Standard Undergraduate Programs, when the student is under Academic Observation, he/she must enroll in a lower number of credits. If the student's academic performance is satisfactory, he/she may enroll in a greater number of credits.
- In the Working Adult Undergraduate Program, when the student is under Academic

Observation, he/she must enroll in a maximum of fifteen academic credits. This restriction may be waived by the corresponding program Director upon request of the student and according to the evaluation of the same.

**Expulsion**

A student who fails a course for the third time will be suspended from the University for one year. At the end of this period, the student may only enroll in the subject he/she failed previously, in order to return to his/her studies in a regular manner in the following semester. If the student fails for the fourth time, he/she will be definitively dismissed.

The student will be automatically expelled from the university for any of the following situations:

a. If you fail a course for the fourth time.

b. If the number of credits completed plus the amount of credits that you still have to complete to complete the degree exceeds the maximum limit of 1.5 times of the total credits that corresponds to carry.

**Appeals Tribunal**

The Appeals Tribunal is composed of the President, or the person appointed by him, who chairs hi more her, the Vice President of Academic Affairs and a third member who will be appointed for an annual period by Resolution of the President. Decisions are adopted by simple majority. Each member has the right to one vote. In the absence of any member, the Appeals Tribunal is composed of the most senior director of the program or, failing that, the second and so on.

The Appeals Tribunal has a Technical Secretary, appointed by the president, whose responsibility is the formation of the file, its follow-up, subpoenas, communications, publications and other orders granted by the Appeals Tribunal.

A student who has been placed on Academic probation or has fallen under any of the conditions of academic separation, but who considers that there were extenuating circumstances that caused him not to meet the Academic Progress standards, may submit a written appeal with the documentation of support to the Court of Appeals, who declares the admissibility of the appeal. If it is considered founded, it indicates the conditions to the student that it considers pertinent.

For the subscription of Resolutions and other documentation issued by the Appeals Tribunal, it will be possible to use the electronic or digital means that are deemed pertinent. Alternatively, the agreement of the members of the Appeals Tribunal with the content and issuance of the Resolutions equivalent to their subscription may also be recorded in internal communications such as emails, in which case the Resolutions will include the signature of the President of the Appeals Tribunal, leaving a record of the conformity and subscription of the three members. The indicated internal communications will be attached to the respective file.

The student who has been separated from the University in application of the provisions of literal b. aforementioned, but you consider that there were extenuating circumstances that caused you not to meet the standards of Academic Progress, you can submit to the Appeals Tribunal a request for reinstatement in writing where you must comply with (i) Explain clearly and in detail what those circumstances were; and (ii) Accompany the documentation that accredits their statements.

The maximum term to present the aforementioned request is fifteen (15) business days from the end of the period, established in the academic calendar, in which the separation occurred. If the request is presented outside of the aforementioned term or without complying with the requirements (i) and (ii) before those indicated, the Appeals Tribunal will declare it inadmissible, otherwise, it will proceed to analyze the arguments and documents presented with the request. If it is considered well founded, the Appeals Tribunal will authorize the reinstatement of the student, subject to the conditions it deems pertinent. The Tribunal's ruling regarding the request referred to in this paragraph is unquestionable.

The request is sent to the email address deapelaciones@usil.edu.pe and its receipt is subject to the confirmation sent by the Court of Appeals by the same means to the interested party. Once the request is received by the Court, it has a period of ninety (90) days, extendable, to resolve it, being able to summon the student to a hearing before resolving if it considers it convenient and / or necessary.

## Graduate School

Academic Progress is assessed every semester, based on whether a student passes 100% of the courses in which he/she is enrolled.

Program coordinators follow up on the established standards.

In a given semester, if a student meets all the standards, his/her academic status will be Passing. If the student fails to meet one or more of the standards, he/she will be placed on one of the following levels of academic probation, which will be recorded in USIL's internal system.

Academic Probation has two levels:

Level 1. A student is at this level if he/she has failed a course and must take it a second time.
Level 2. A student is at this level if he/she has failed two courses and must take them a second time.

- If a student is enrolled in a master's degree program in the modular format, any courses failed in each module are considered cumulative for academic probation and the student's continuance in the program.

A student's status will be "Expulsion due to failing grades" ("Academic suspension" or "Registration on academic probation") in the following cases:

a. The student fails the same course three (3) times. He/she will be suspended from the university for 1 year, after which he/she may only register for the course he/she failed. If the student fails the course again, he/she will be expelled.

b. A student who has failed three (3) courses over the course of the program in which he/she is enrolled. If the student believes there are mitigating circumstances due to which he/she does not meet the Academic Progress standards, the student can submit a written request for reconsideration with supporting documents to Graduate School Student Services to be referred to the academic director and the coordinator of the program, who will decide whether to approve the request. If it is determined to be well-founded, they will state the conditions they deem appropriate. The request must be submitted within seven (7) workdays after the end of the semester in which the student was placed on probation or suspended.

A student whose status is "Expulsion due to failing grades" ("Academic suspension" or "Registration on academic probation") must fulfill the financial commitments to the USIL Graduate School set forth in the registration agreement signed at the start of the program.

### Appeal Procedures

The student who has been placed in Academic probation or is under any of the conditions of academic separation, but who considers that there were extenuating circumstances that caused he or she does not meet the standards of Academic Progress, may submit a written reconsideration with the documentation of support in the Platform of Attention EPG for his derivation to the Academic Direction and to the Coordination of the Program, which will pronounce on the origin of his request. If considered founded, they will indicate the conditions to the student that they consider pertinent.

The request must be submitted within a period not exceeding 7 business days, after the end of

the academic period in which the observation or academic separation occurred.

## Graduation Requirements

The academic degrees of Bachelor, Master, Doctor and the corresponding Professional Degrees are granted in the Nation's name.

**SECTION 4**: Resolution on Degree or Professional Title Awarded

The awarding of a bachelor's, master's or doctoral degree or a professional title, with the respective diploma, is authorized through a presidential resolution. A diploma is signed by the president, the corporate secretary and the dean of the respective college or the highest authority of the USIL Graduate School, as applicable.

The names of the bachelor's, master's and doctoral degrees and professional titles awarded by the university can be found in the document titled "Degrees and Professional Titles Awarded by USIL."

### Bachelor's Degree

**SECTION 5**: Requirements:

To obtain a bachelor's degree, a student must meet the following requirements:

1. 5.1. Earn the total number of credits required by the curriculum of the degree program, which is a minimum of 200 credits including a research course in the last semester of the program.
2. 5.2. Know English or a native language according to the requirements established by the university in internal regulations.
3. 5.3. Complete a minimum of four hundred fifty (450) hours in some educational format. Each college can issue provisions with specific details about the educational format (internship or other) applicable to their degree programs.
4. 5.4 Participate in and/or lead activities or experiences in Social Responsibility and Sustainability or Institutional Service according to internal regulations.
5. 5.5 Participate in at least one activity recognized as international experience, according to the university's internal regulations..

Additionally, program completers must have fulfilled all their financial obligations and other commitments assumed during their time at the university and not have any documents pending submission for their files.

Working Adult Undergraduate Program students are exempt from requirements 5.3 and 5.4, given the nature of the program.

The director of the program can verify that students pursuing a second degree have fulfilled requirements 5.2 and 5.4 in the first degree program at the university. The remaining requirements to obtain a bachelor's degree in the second degree program must be met as established in internal regulations.

**SECTION 6**: Procedure for the Issuance of a Bachelor's Degree Diploma

The requirements for requesting the issuance of a bachelor's degree diploma are listed in the Procedures Guide available in INFOSIL.

### Professional Degree

To obtain a professional title, students must meet the following requirements:

a. Having earned a bachelor's degree in the program in relation to which a title is requested.
b. Having fulfilled the requirements for one of the options for obtaining a professional title, which can be found in section 8 herein (Regulations on Degrees and Professional Titles).

Additionally, the holder of the bachelor's degree must have fulfilled all of his/her financial obligations and commitments to the university.

**Modalities to obtain the Professional Degree.**

- Thesis for professional degree:

It is a research work that seeks to measure professional competencies in a specific academic area or discipline, in which a problem of knowledge and/or requirement for professional life is identified. It addresses this problem with logical argumentation, reasonable support and applying a methodology specific to the discipline. The results obtained are presented in a systematic, logical and objective manner. In this document, the author confronts his position with the existing literature on the subject, since it is a critical analysis and dialogue with the information obtained. This thesis will be defended before a jury of professors of recognized professional experience and preferably with graduate studies. Within the framework of the academic autonomy of the university, this thesis may be considered in the format of a research article publishable in a Indexed journal.

- Work of Professional Sufficiency for the professional degree:

This work aims to demonstrate the theoretical and practical capacity, as well as the critical reflection on the professional competencies obtained in the training and especially in the working world. The purpose of this type of work is to certify professional practice. It necessarily implies an evaluation and approval by an advisor. Each program may also require a presentation of the work before a jury, if deemed necessary. If this is the case, the specific provisions are included in the corresponding college directives.

**Master's Degrees**

**Academic Requirements:**

1. Have a bachelor's degree registered with SUNEDU.
2. Have passed all the courses on the curriculum, with at least forty-eight (48) credits.
3. Knowledge of a foreign language, preferably english or native language, according to the requirements established by the USIL Graduate School or in the corresponding internal regulations.
4. Have a passing grade on the defense of a thesis or research project before a jury, according to the grades established in section 18 of the Graduate School Academic Regulations.
5. Have submitted a bound copy and a digital version of the approved degree project to the director of degree projects, as established in internal regulations.

**Administrative Requirements:**

1. Have no documents pending submission for their file.
2. Have no outstanding materials or pending payments to the USIL Graduate School.

**Options for Obtaining a Master's Degree Thesis for a master's degree (dissertation):**

The main characteristic of a thesis at this level is specialization in a subject. Its preparation involves:

(i) presenting an in-depth reflection on a matter; (ii) preparing a logical sequence that specifies the central idea of the work and its arguments; and (iii) arriving at clear conclusions in the process that can be drawn from the proposal, as well as permitting the application of the theoretical

knowledge obtained. It must be defended before a jury made up of qualified academics and renowned specialists in the subject to be examined, preferably with a doctoral degree. Within the framework of university autonomy, it could take the form of one (1) article published in an journal indexed in WOS or Scopus in the discipline. This thesis must be individual.

**Research project for a master's degree:**

Work that studies a physical or social phenomenon within a branch of knowledge, based on a specialized approach. It entails a well-delimited presentation of the subject to be analyzed. The activities to be conducted in relation to the work include a review of current literature, a methodology for analyzing the information gathered, and presentation of the results. This may be an individual or group project, and it requires a defense.

Students who complete their studies in master's degree programs will have a timeframe within which to submit and defend their thesis (Thesis in Institutional Format or Thesis in Scientific Article Format) or research project. This timeframe is governed by internal regulations.

Students who do not defend their thesis or research projects for a master's degree in the established timeframe cannot obtain said degree and will only have program-completer status. In addition, students who do not receive a passing grade on three (3) defenses cannot obtain a master's degree, as established in internal regulations.

**Doctoral Degrees**

**Academic Requirements:**

1. Have a master's degree.
2. Have passed all the courses on the doctoral curriculum, with at least sixty-four (64) credits.
3. Knowledge of the English language and another foreign or native language, according to the requirements established by the USIL Graduate School in internal regulations.
4. Have a passing grade on the defense of the doctoral thesis before a jury, according to the grades established in section 18 of the regulations.
5. Have given the USIL Graduate School a bound copy and a digital version of the approved doctoral thesis, as established in internal regulations.

**Administrative Requirements:**

1. Have no documents pending submission for their file.
2. Have no materials outstanding or pending payments to the USIL Graduate School.

**Options for Obtaining a Doctoral Degree Thesis for a doctoral degree:**

Thesis it is a research project with the highest level of academic rigorousness, adhering to high methodological and scientific standards, original in its objectives, proposals, development, and results, with the purpose of contributing new theoretical and applied knowledge in the area or discipline. It must be prepared individually and defended before a jury of specialists on the subject with a doctoral degree. In addition to qualified academics from the same institution, the jury may be made up of renowned professors from other universities in the country or abroad, if so established in internal regulations. Within the framework of the university's academic autonomy, it may be taken into account that the doctoral candidate has published articles prior to the defense of his/her thesis, and/or a thesis may take the form of publication of three articles in indexed journals in WoS or Scopus.

Students who complete their studies in doctoral programs will have a timeframe within which they can submit and defend their doctoral thesis. This timeframe is established in internal regulations.

Students who do not defend their thesis for a doctoral degree within the term referred to in the aforementioned regulations, cannot obtain said degree and will only have program-completer status. In addition, students who do not receive a passing grade on three (3) defenses cannot obtain a doctoral degree.

**Second Specialization Degree**

For a second specialization title, a student must meet the following requirements:

1. Have a licentiate or an equivalent professional title.
2. Have passed all their courses, with at least forty (40) credits earned over at least two (2) semesters.
3. Have a passing grade on a thesis or an academic work.

## STUDENT AFFAIRS

### Undergraduate and Working Adult Undergraduate Programs

### Office of the Academic Experience Assistant Manager

This department includes the different academic services available to students as part of the teaching-learning process. Its main functions include:

- Planning of academic semesters
- Supervise the formalities involved in obtaining academic documents for students.

### Academic Operations

- Manage the evaluation process for midterm and final evaluations.
- Manage qualification records.
- Management of the registration of the academic processes of the students such as:
- Course cancellations, period cancellations, definitive cancellations.
- Program transfers.
- Validations, curricular changes
- Changes in student status (active, graduated, completer, expelled, etc).

#### Updating of Contact Information

**Through infosil (student intranet):** Students can update their data online through INFOSIL. This procedure is explained in the Procedures Guide, which students are informed of upon enrolling in the university.

**Through a request from the student (manual):** Students may also request that their contact information be updated through Student Services. For this purpose, the student should send an electronic mail message to atencionlumno@usil.edu.pe, indicating the data to be updated and attaching a copy of his/her valid National Identity Document (DNI).

https://infosil.sil.edu.pe/alumno/tramites/GuiaDetalle.aspx?cmanual=83

#### Issuance of Student ID Cards

The university announces the timetable for the issuance of student ID cards on the dates determined by the Department of Student Experience.

**Launch of the id card issuance process:** The Department of Student Experience informs the students of the terms and conditions of the procedure:

- Schedule
- Requirements
- Instructions for the request

Communication with students is through official university channels: electronic mail and INFOSIL.

**Receipt of requests:** Students complete a request form and pay the corresponding fee.

**Processing of requests:** The Academic Services department processes requests and makes arrangement with SUNEDU for the issuance of student ID cards for all applicants who meet the requirements.

**Delivery:** Students are notified of the issuance of student ID cards and given instructions for delivery by the Department of Student Experience.

**Reference:** Student ID Card Process

https://filesmatriculausil.s3.amazonaws.com/USIL-Guia-Carne-Universitario-2022-2.pdf
https://infosil.sil.edu.pe/alumno/tramites/GuiaDetalle.aspx?cmanual=837

**Students' Academic Information**

**Through infosil (student intranet):** Students have the option of seeing their academic information through INFOSIL/Resumen Académico /Récord Académico (INFOSIL/Academic Summary/Academic Record).

**Through a request from the student (for a fee):** Students also have the option of requesting the document (academic information) through INFOSIL/Trámites / Documentarios/ Constancia de Segmento Académico (INFOSIL/Procedures/Documents/ Academic Information).

This procedure is explained in the Procedures Guide, which students are inform|ed of upon enrolling in the university.

https://infosil.sil.edu.pe/alumno/tramites/GuiaDetalle.aspx?cmanual=520

## Graduate School Programs

## Student Services

This is the office in charge of improving students and graduates' experience related to responses to questions, document requests and procedures by telephone or electronic mail.

Functions

- Attend and resolve all inquiries and requirements through the respective platforms.
- Manage requests for documentary procedures such as evidence, certificates, among others.
- Manage requests for procedures such as re-admissions, reinstatements, course corrections, withdrawals, certificates and certificates.
- Attend and resolve claims and complaints (complaints book, Indecopi, university ombudsman's office).
- Communicate by e-mail about the beginning of enrollment of continuing students and other information of interest.
- Work together with the other departments involved in the incidents that occur with the students for the prompt decision making and resolution of the cases.
- Management for the automatization of internal processes to improve the customer service experience.
- Manage the quality of services.
- Generate student retention in coordination with internal department.
- Infosil platform training for new students.
- Management of university ID cards.

**Channels of attention of the Post Graduate Student Service Department**

- Mail: atencionalumnoepg@usil.edu.pe
- WhatsApp: 994189227
- Office hours: Monday to Friday: 10:00am - 08:00pm - Saturdays: 09:00am - 01:00pm
- Office: Counter de Atención al Alumno EPG, Building A 2nd floor - Campus 2 - Gran Almirante Miguel Grau. Address: Av. la Fontana 750 - la Molina

## Office of the Academic Experience Assistant Manager

This is the office in charge of issuing official documents for the Graduate School, as well as validating students and graduates' academic status through Graduate School Student Services.

The average time for the management of documents is 07 working days from the date of completion of the process by submitting the application form for certificates and EPG documents.

**Additional information:**

https://usil.edu.pe/postgrado/experiencia-epg/servicios-alumno/atencion-alumno

**USIL Graduate** School Procedural Guidelines**:**

https://infosil.sil.edu.pe/alumno/tramites/guia.aspx

**Email:** atencionalumnoepg@USIL.edu.pe

**Phone:** 51833330 option 1

**WhatsApp:** 994189227

**Business Hours:** Monday to Friday: 10:00 a.m. - 08:00 p.m. Saturdays: 08:00 a.m. - 01:00 p.m.

## Alumni

The mission of the Office of Employability and Alumni is to provide relevant employability tools for connecting prestigious domestic and international companies with professionals with a global perspective.

The Alumni area's objective is to develop strategies and mechanisms that contribute to students and graduates' job placement by strengthening ties with employers, consolidating employability skills and following up on graduates.

Mission: We provide information on global job opportunities and strengthen the loyalty and academic continuity of our educational community through innovative strategies such as employability programs, talks and/or recruiting processes with companies, the Alumni portal, the Job Board, national and international graduate meetings, academic events, etc.

### EMPLOYABILITY PROGRAMS

### Employability Advising

We prepare students and graduates to boost their careers with our exclusive Resume Advising and LinkedIn Advising services.

In an increasingly competitive working environment, effective presentation of one's experience, recognitions and skills is key to standing out.

- **Resume Workshop**

  Your resume is your letter of introduction, and in our Resume Workshop, we make sure every word counts. We will talk about your academic and/or work record, highlighting your achievements in an impactful way and communicating your potential effectively.

- **LinkedIn Workshop**

  LinkedIn is your online calling card. Recruiters and employers look for attractive, up-to-date profiles.

Our LinkedIn workshop is centered on optimizing your profile as a tool for attracting professional opportunities.

### USIL Talent Week

USIL Talent Week is a platform where students and graduates can find and create job opportunities, as well as establish strategic relationships with outstanding professionals to expand their networks of contacts. Every interaction is an opportunity to build a lasting relationship.

During USIL Talent Week, conferences are held in collaboration with leading companies in the domestic and international job markets for the purpose of strengthening students and graduates' soft and technical skills to enhance their employability.

**Program: Professional Development Working Adult Undergraduate Program**

Program geared toward students in the Working Adult Undergraduate Program, the purpose of which is to provide tools for strengthening employability through workshops led by specialists who guide them in building key skills for their employability.

Students develop skills to position their profiles strategically and personalize their approach according to their objectives.

**Employer Branding Talks and On-campus Recruiting**

Domestic and international companies present their value proposition with the objective of attracting and retaining talent, detailing their organizational structure and fields of action available to students and graduates. Participants have the opportunity to cultivate networking skills and familiarize themselves with the different roles in their area of specialization, as well as learn how to prepare themselves to fulfill them effectively. They can also participate in the selection processes companies offer at the national and international level.

**Graduate Support Center**

The Employability Program offered through the Support Center was specially designed as a comprehensive job placement guide for Standard Undergraduate and Working Adult Undergraduate Programs graduates who are unemployed.

This program explores the most effective tactics for standing out in the highly competitive global job market, from optimizing your resume to taking advantage of professional platforms such as LinkedIn.

Essential tools are provided for managing the process of seeking employment with confidence and a well-defined strategy.

**Employability Without Limits**

Employability Without Limits is an initiative of the Office of Employability and Alumni, in which leaders from different industries share their knowledge and experience through interviews.

**ALUMNI PORTAL**

This is a platform where students and graduates can find events and services of the Office of Employability and Alumni, such as Employability Advising, the USIL Job Board, graduation ceremonies, the USIL alumni community, USIL Talent Week and different employability programs. Information on the paperwork for validating internships, letters of introduction and internship agreements can also be found in the portal.

Alumni portal: https://portalalumni.usil.pe/

**Process of validating internships**

> One of the requirements to obtain a bachelor's degree is to complete a minimum number of hours in some form of training.
>
> The Employability and Alumni area will assist you in completing this process and guide you in the validation of internships in a streamlined, dynamic portal that will help you fulfill this requirement.
>
> For further information, go ton: https://portalalumni.usil.pe/

## JOB BOARD

Space where students and graduates have an unlimited, free-of-charge opportunity to apply for in-person and online job openings that coincide with the demands and needs of the market.

To access the job board, go to: https://portalalumni.usil.pe/

### Alumni Networking

The "Networking Alumni" platform was designed for the purpose of strengthening ties between graduates and the diverse opportunities awaiting them in their professional lives.

Graduway: https://alumni.usil.edu.pe/

### USIL Graduation

The graduation ceremony represents the culmination of years of effort, dedication and enrichment. It is a time to recognize and celebrate academic achievement, marking the start of a promising future full of opportunities.

The Employability and Alumni area extends an exclusive invitation to the graduation ceremony, along with special details about the event.

### Alumni Meeting

This event geared toward graduates included different activities aimed at building loyalty, enhancing the public image of USIL graduates and providing a space for networking, in order to increase their identification with their alma mater.

### Communication

Information channel: https://alumni.usil.edu.pe/

Student Services email address: serviciosalumni@usil.edu.pe

Graduation: alumni@usil.edu.pe

In-person service: Av. La Fontana 750, Campus 1 - La Molina (Student Services area)

Social networks:

Facebook: https://www.facebook.com/AlumniUSIL/

Instagram: https://www.instagram.com/alumni.usil/

Graduway: https://alumni.usil.edu.pe/

LinkedIn: www.linkedin.com/in/alumni-usil

## USIL Style

USIL Style (Modo USIL) is the DNA of our university culture. It comprises the university life of students as they follow a program of study and promotes healthy, sustainable habits for the overall health of the members of our USIL community.

The USIL Style offers a range of services centered around five key areas: physical well-being, emotional well-being, spiritual well-being, personal development, and art and culture as drivers of well-being, all of which are integrated into every academic program.

The services of USIL Style are led by specialized professionals who plan, organize and oversee them.

### Healthy Eating

This is the area in charge of health promotion through talks and workshops with subject matter based on scientific evidence. Their purpose is to foster and disseminate healthy habits, encouraging a varied, well-balanced diet. In addition, it provides a nutritional guidance service with personalized advice.

Location: 3rd floor, Building D and 2nd floor, Building G, Fernando Belaunde Terry Campus

Hours: Monday to Friday 9:00 a.m. - 6:00 p.m.

Email: modousil@usil.edu.pe

### Psychology Department

This department is responsible for developing initiatives aimed at preventing mental health issues and promoting mental well-being among students and staff in the USIL community, fostering their ability to adapt and cope, as well as their personal and social development, with the goal of safeguarding the mental health of the entire USIL community.

We offer a comprehensive service, placing emphasis on the psychological needs of our students and employees so that they can reach a state of internal balance through coping strategies, enabling them to interact harmoniously with the world around them for a better quality of life and overall wellbeing. Through personalized psychological guidance, psychological evaluation at the request of internal areas, talks, workshops and psychoeducational material, the importance of mental health and what we can do to care for it are promoted.

Location: 3rd floor, Building D and 2nd floor, Building G, Fernando Belaunde Terry Campus
Hours: Monday to Friday 9:00 a.m. - 6:00 p.m.
Telephone: 317-1000, extension 3700
Email: servicepsicologia@usil.edu.pe

### Tutoring

The Tutoring Service aims to contribute to the adaptation process, the strengthening of academic performance and the development of the students' university life project. To this end, it provides psycho-pedagogical and academic support through programs and services that reinforce their academic and personal competencies. Among the services offered are the Welcome and Induction to our new students, the Psycho-pedagogical and Academic Support, which are carried out during each academic term to guide and support students in their comprehensive development.

Location: 3rd floor, Building D and 2nd floor, Building G, Fernando Belaunde Terry Campus.

Office hours: Monday to Friday from 9:00 a.m. to 6:00 p.m.

Telephone: 317-1000, extension 3369.

Mail: tutoriusil@usil.edu.pe

## Student Welfare

This area contributes to students' education by encouraging their continuation at the university through programs geared toward finding solutions to socioeconomic problems they may face.

It also facilitates access to services for caring for students' overall welfare, making personal accident insurance available to them. Detailed information on this insurance (policy, procedure in case of an accident, affiliated clinics, and coverage) can be found at INFOSIL/Bienestar Estudiantil/Documentos de interés.

Every semester, Comprehensive Health Week is held, with free services of health specialists, in addition to talks and workshops scheduled throughout the week.

Student Welfare also has the Community of Benefits program, through which partnerships are established with different establishments and companies that offer their services or products at an exclusive price for students of the USIL Education Corporation. The catalog of benefits can be found at INFOSIL/Bienestar Estudiantil/Documentos de interés.

Location: 2nd floor, Building G, Fernando Belaunde Terry Campus

Hours: Monday to Friday 9:00 a.m. - 6:00 p.m.

Email: bienestar@usil.edu.pe; bienestar_cpel@usil.edu.pe

## Scholarships

### Standard Undergraduate

USIL makes available the directive that regulates the organization, administration and application of the procedure for granting educational benefits.

Students must comply with the requirements established to obtain the economic benefit requested. In the case of the economic benefit for Academic Excellence, it is granted automatically. In other cases, the benefit is evaluated at the student's request.

The scholarship is a temporary, partial or full financial aid granted to students enrolled in an academic period who request it and who have optimal academic performance or present difficulties to cover their tuition payments. It applies to students who have completed at least one regular academic period and who do not belong to subsidized programs, in regular undergraduate university courses at Universidad San Ignacio de Loyola, hereinafter USIL.

For the socioeconomic evaluation, the identification of the financial responsible is the father and/or mother or legal guardian in charge of paying the University's study costs and this information must have been registered by the student in the personal data form in the admission process.

In the case of students with more than one regular academic period who are applying for a scholarship, the approval of the Scholarship and Recategorization Committee is required.

The awarding of the scholarship is notified through a letter sent from the Student Welfare account to the institutional e-mail of the beneficiary student.

**Coverage:** The scholarship or recategorization granted is personal and non-transferable, i.e., it only applies to the person requesting it and does not extend to third parties.

The student may not have more than one benefit granted in the same regular academic period. In this sense, the assigned benefits are not cumulative and are exclusive of the previous one. The economic benefit only covers payment installments; therefore, the student must pay the tuition fee.

The benefit granted does not cover other expenses such as: books, transportation, lodging, insurance, food, etc., or other payments that the student has to make to USIL for special services (such as late exams, certificates, certificates, etc.). All scholarships apply for regular terms, not for summer courses.

**Effective date:** The benefit granted is renewed every academic period, after evaluation and verification of compliance with the established requirements.

**Scholarship Modality:** Students with more than one regular academic period.

| Modality | General information |
|---|---|
| Financial Scholarships | • Granted to students who demonstrate financial difficulty to cover their payment fees and who do not have current benefits (scholarships and/or discounts).<br>• Scholarship subject to socio-economic evaluation process.<br>• It applies only after the end of the second period studied at USIL and is granted from the second installment of the period in which the scholarship was requested. For renewal, if you meet the requirements, the scholarship applies from the first installment.<br>• The financial scholarship process begins with the publication of the schedule in the Academic Calendar, which includes each stage of the process. The deadlines indicated in the calendar are fixed; therefore, late submission of the corresponding application will not be accepted.<br>• The scholarship is valid for two (2) consecutive academic periods. However, the renewal of the scholarship will be evaluated at the end of the first period and is conditioned to the fulfillment of the corresponding requirements.<br>• At the end of the second academic period, the student may make a new application, if needed, for up to one more consecutive period. |
| Orphanage | • Granted to the student due to the death of the parent, legal guardian or person in charge of the student's education (previously declared to USIL and registered in the data sheet submitted to the Admissions department).<br>• Scholarship subject to socio-economic evaluation process.<br>• It will be applied on the basis of Law N° 23585 and D.S. N° 026-83-ED that regulate this economic benefit. The percentage of scholarship granted will be applied from the moment the student supports his/her economic situation and is approved by the Scholarship and Recategorization Committee, it is not retroactive.<br>• The evaluation to grant the scholarship will be made as long as the death of the financially responsible person occurred while the student was actively enrolled at the time of the loss. The application may be submitted up until the beginning of the following academic term after the passing has occurred.<br>• A grace period is granted for the fulfillment of the requirements. This period is considered the first term of the scholarship's application.<br>• Benefits already granted will be re-evaluated annually to verify their current economic situation. |
| Academic Excellence | • Are awarded to students who placed first or second place in the various formats (on-campus, hybrid, and distance learning) of each degree program during the immediately preceding regular academic term, in accordance with the scholarship allocation outlined in the table in Annex No. 01 of Directive DB-USIL-026.<br>• If a student does not enroll for the corresponding term, they will automatically lose the benefit. Students who are currently under disciplinary sanction during the evaluation period are not eligible for a scholarship.<br>• The office of the academic Vice-President is responsible for awarding the scholarship, based on information provided by the Office of Academic Operations, which verifies compliance with the |

| Modality | General information |
|---|---|
| | requirements set forth in section 7.1 of the directive.<br>• The financial aid will be applied starting with the first installment of the corresponding academic term. The student must pay the tuition fees in order for the aid to take effect. |

Hours of operation: Monday to Friday from 9:00 a.m. to 6:00 p.m.

Telephone: 317-1000, ext. 3031 - 3032.

Undergraduate Mail: bienestar@usil.edu.pe

**Art**

We hold extracurricular artistic and cultural activities to contribute to students' comprehensive education through an experience based on knowledge and appreciation of art as a form of cultural expression and driver of wellbeing.

Among our main activities, folk dancing, Afro-Peruvian dancing, marinera, drama, chorus, and guitar workshops stand out. We also have a Peruvian dance troupe, a "tuna" (men's musical group) and a symphonic orchestra.

Location: 2nd floor, Building G, Fernando Belaunde Terry Campus.

Hours: Monday to Frid|ay 9:00 a.m. – 6:00 p.m.

Check schedules and openings for workshops and activities at: arteculturaydeporte@usil.edu.pe

**Cultura**

This area promotes cultural spaces geared toward cultivating a spirit of reflection, analysis, critical thinking, and knowledge by holding talks, conferences and debates of academic, social, cultural and philosophical interest.

Some of the activities are a book club, a novel club, Friday recitals, and a creative narration workshop.

Location: 2nd floor, Building G, Fernando Belaunde Terry Campus

Hours: Monday to Friday 9:00 a.m. – 6:00 p.m.

Check schedules and openings| for workshops and activities at: arteculturaydeporte@usil.edu.pe

**Office of the Chaplain**

At USIL, we share the Catholic faith with our entire university family through different activities to support their spiritual growth, for the purpose of cultivating a solid foundation of faith among the students and employees.

The services provided by the Office of the Chaplain on a regular basis are daily Mass, Eucharistic adoration, confession, spiritual counseling, opportunities for volunteering, movies where the cost of a ticket is the donation of an essential item for those in need, confirmation program, catechism classes, training on human values, sacramental catch-up, praying the rosary, Zoom conferences, and spiritual retreats, among other religious activities.

Location: Admiral Migual Grau Campus – next to the chapel

Hours: Monday to Friday 9:00 a.m. - 6:00 p.m.

Telephone: 317-1000, extension 3814

Email: capellania@usil.edu.pe

**Sports and Physical Activity**

This area fosters overall health through physical activity as a healthy habit, holding talks and workshops, as well as promoting active breaks and sports in the USIL community.

It also offers training, articles of interest, informative material on social networks, celebrations on commemorative days and different spaces for interaction where our community is reminded of the importance of regular physical activity and how they can complement it with their studies and/or work.

It promotes participation in sports by organizing workshops and events, as well as by encouraging joining our teams for interuniversity competition, strengthening the cohesion and welfare of the USIL community and motivating optimum performance.

Location: 2nd floor, Building G, Fernando Belaunde Terry Campus.

Hours: Monday to Friday 9:00 a.m. - 6:00 p.m.

Email: deportesusil@usil.edu.pe

**“USIL Alert” Information Platform**

This platform provides information to the entire USIL community about the different strategies for maintaining good health, with recommendations by specialists regarding healthy eating habits, physical activity, and mental health, in addition to scientific articles and national and world news.

Please visit Alerta Usil

## Tutoring for Undergraduate and Working Adult Undergraduate Programs

This service promotes interaction between tutor and student for the purpose of formulating strategies that contribute to a student's academic performance, adaptation and development of a plan for his/her university life through early identification of risk factors that may interfere in his/her learning and satisfactory academic progress.

### SAP Tutoring

This is the personalized psychopedagogical counseling and support process for students who are at academic risk, for the purpose of improving their performance and contributing to their satisfactory academic progress (SAP) and plans for their ethical university life based on learning strategies that foster adaptation to the university system.

### Orientation Program

Orientation seeks incoming students' adaptation to the university and higher education through workshops and activities geared toward the ide|ntification of academic and administrative processes and institutional work dynamics, as well as autonomous learning.

### Academic Advising Program

This program consists of sessions to reinforce knowledge of specific subjects in which students are having difficulty. Individual or group sessions are held, depending on the hours offered by advisors and selected by the students.

### My Profile Program

This program aims to learn the status of incoming students through a psychotechnical evaluation for the purpose of designing actions to facilitate their adaptation to academic life.

### Educational Inclusion Program

Through this program, psychopedogical support and guidance is provided in relation to the educational needs of students who have some type of disability, involving all the education agents and establishing the necessary mechanisms for their application.

### Attitude Improvement Program

The objective of this program is to raise the awareness of students involved in disciplinary proceedings, for the purpose of identifying the behaviors and attitudes that led a student to commit an offense, so that learning standards and patterns of conduct will foster taking responsibility in his/her academic life and having respect for himself/herself and others, thereby avoiding similar conduct in the future.

Location: 3rd floor, Building D, Fernando Belaunde Terry Campus

Hours: Monday to Friday 9:00 a.m. - 6:00 p.m.

Email: tutoriausil@usil.edu.pe

## Satisfactory Academic Progress (SAP) Process – Graduate School

**Satisfactory Academic Progress (SAP)** is a service geared toward students enrolled in graduate programs at **Universidad San Ignacio de Loyola (USIL)**. Its objective is to ensure **academic follow-up, tutoring and support** for students to improve their performance and facilitate their progress in the program of study, pursuant to **Guideline DB-EPG-028 – Academic Follow-up and Student Support V.2**.

1. **Monitoring and Academic Follow-up:** Follow-up takes place through **continuous monitoring**, which includes the review of students' submission of assignments in **Canvas**, monitoring of grades, and instructor feedback through **SpeedGrader**. In addition, periodic meetings are held between **tutors, students and course instructors** to analyze academic performance and establish improvement strategies.

2. Identification of Students at Risk and Intervention Actions: Detection mechanisms are used to identify students at risk based on criteria such as failure to turn in assignments, failing grades or absences. In these cases, early warnings and follow-up strategies are activated, including:

- **Academic notifications and reminders** sent via WhatsApp and email.
- **Monitoring of attendance and performance** through ERP and INFOSIL.
- **Personalized advising** to improve academic performance.
- **Specific interventions in critical cases**, including notification of **academic suspension** according to the Graduate School Academic Regulations.

3. Documentation, Evaluation and Feedback: Students' progress is documented through attendance reports, grades, and follow-up on activities on platforms such as Canvas and ERP-SAP Management. In addition, evaluation and feedback sessions are held with faculty and students at different times in the academic cycle (start, middle and end of the course). These actions seek to optimize the teaching methodology and ensure effective learning. With this approach, SAP ensures comprehensive academic follow-up, promoting students' uninterrupted studies and success in their graduate programs.

## Library

### Usil Library System

The USIL Library System is a dynamic space for the integration of physical and digital resources for learning and research, which contributes to fulfilling the University's mission. Therefore, we manage information in order to develop information skills in our users.

### Off-Campus Services and Resources:

Consult them at any time and from any place, thanks to its remote access.

- Virtual Library: Service that allows access to academic databases and virtual books, inside and outside the USIL headquarters, through the INFOSIL platform, VIRTUAL LIBRARY option.
- Online Catalog: It is a tool that allows the user to consult the availability of the entire physical collection of the Library System, from any location through the INFOSIL platform, option VIRTUAL LIBRARY.
- Virtual Reference: Service that provides help and guidance to the user on how to search for information, access databases, cite sources, apply APA norms and more, by contacting biblioteca@usil.edu.pe or calling 317-1000 extension 3279 or through the online chat of your INFOSIL.
- Information Search Allows the user to have professional advice in the search for quality information and documents for the development of their classes or research.
- Institutional Repository: Specialized digital platform that houses theses, projects, academic publications and all the intellectual production generated by the members of the USIL community as a result of their academic and research activities.
- Personalized advice on information sources: Allows the user to count on the support of a librarian during the elaboration of your thesis or research.
- Virtual Workshops: Aimed at the entire USIL Community, on database management, bibliographic managers, APA format and various updating topics, for the efficient and effective use of our own and external information resources.
- Activities and cultural outreach: Book presentations, lectures, poetry recitals, current affairs and various creative, literary and technological workshops.

### On-Campus Services and Resources:

Available only in the physical facilities of the USIL Libraries.

- Spaces and areas: Study environments according to your needs (Reading rooms and group study rooms).
- Physical collection: Books (academic, scientific, fiction), periodicals and audiovisual materials, for consultation in the reading room and/or loan.
- Home lending - Book Bank: Modality that allows the loan of books during the entire academic year.
- Interlibrary Loan: Requests the loan of materials from external libraries with which the Library System has collaboration agreements.

- Training: Inductions at the beginning of each academic period, guided tours, personalized thesis and research advising, workshops on data management and APA standards, and classroom training for faculty who wish to improve their students' information-seeking skills have been incorporated.

**Note: The guidelines and responsibilities for the management of book loans by students, as well as the execution of training, are detailed in the respective library procedures.**

## Academic Programs

## College of Architecture

## Architecture and Urban Planning

**Duration of Program: 212 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's degree in Architecture and Urban Planning**

**Professional Title: Architect**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The program of studies of Architecture and Urban Planning of San Ignacio de Loyola University has as its academic objective(s):

- The Architecture and Urban Planning program will enable to train professionals with the ability to create, manage, build and sell real estate, urban and territorial products according to demand, with a vision of the future and with research capacity.
- The Architecture and Urban Planning program will train professionals who will lead the development of society, the city and the territory with a global vision according to the national and international context.
- The Architecture and Urban Planning program will train professionals who seek the transformation of society, cities and territory with ethical conduct, commitment and social responsibility through an approach based on sustainability.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Design and Innovation** |
|---|
| L1: Includes architectural, urban, and territorial development in the new national and international context along with the problems associated with them, in addition to developing speed of response and achieving product diversity. |
| L2: Proposes and designs architectural, urban, and territorial products in accordance with the national context, the territory, society, and the city, achieving architectural quality. |
| L3: Designs new products according to demand, directing construction processes with the use of technology, in search of industrialization, and with multidisciplinary teams for the development of mega-investment projects, improving the quality of life of society. |
| **PLO2: Forward-looking vision** |
| L1: Identifies architectural, urban, and territorial entrepreneurship initiatives, investigating construction processes of projects to propose products. |

| |
|---|
| L2: Creates architectural, urban, and territorial entrepreneurship initiatives, researching construction processes and analyzing the national and international environment with a forward-looking vision. |
| L3: Designs and directs architectural, urban, and territorial development by analyzing the national and international environment with a prospective and innovative vision, integrating society, the city, and the territory, in such a way that the projects contribute to the country in economic, social, and environmental aspects. |
| **PLO3: Business Management in Architecture** |
| L1: identifies business management tools to manage your architectural projects, considering the needs of society. |
| L2: Applies business management tools to assess feasibility, risks and optimize the use of resources in architectural, urban, and territorial development. |
| L3: Uses business management tools to assess feasibility, risks and optimize the use of resources in architectural, urban, and territorial development, which encourage urban investments and promote industrialization, with ethics and social responsibility. |
| **PLO4: Expression and Synthesis of Projects** |
| L1: Applies graphic and oral communication tools for the development of architectural, urban, and territorial projects. |
| L2: Diagram urban and territorial architectural projects with analog and digital tools for their development and sustenance. |
| L3: Synthesizes project information to promote architectural, urban, and territorial products in global markets. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Architecture and Urban Planning**

## Business

**Duration of Program: 200 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's degree in Business**

**Professional Title: Licentiate in Business**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The academic objectives of the Universidad San Ignacio de Loyola Business program are the following:

- Manage organizational processes and strategic resources in dynamic, global and digital contexts to improve a company's operating efficiency and sustainability, with ethical principles and social responsibility.
- Design and implement innovative business strategies based on analysis of the environment and foresight to identify and take advantage of competitive markets, thereby contributing to company growth.
- Lead multidisciplinary teams in complex organizational environments, using communication and negotiation skills and critical thinking to ensure the achievement of strategic objectives, fostering a collaborative and motivating organizational climate.
- Formulate control and continuous improvement systems, integrating digital tools and regulatory criteria to ensure adherence to organizational goals and standards, with objectivity and professional responsibility.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Planning** |
|---|
| L1: Organizes business plans in a basic manner to determine objectives aligned with the company goals, considering the fundamental principles of strategic and operational planning and achieving feasible indicators in the short term, taking into account their impact on society and the organization, with relevance and responsibility. |
| L2: Applies strategic and operational planning methodologies, analyzing data that makes it possible to identify trends and patterns in the business environment to anticipate potential risks or opportunities for improvement, demonstrating the organization's commitment to ethics and its sustainable vision. |
| L3: Oversees strategic and operational planning processes at the organizational level or that of complex projects, considering multiple variables, scenarios and impacts to improve the organization's performance comprehensively and sustainably. |
| **PLO2: Organization** |
| L1: Constructs basic organizational structures and functional process flows that respond to operating unit objectives, considering the principles of efficiency, functional clarity and adaptation to the environment. |

| |
|---|
| L2: Implements functional organizational structures in line with strategic objectives and internal processes, using management tools, performance indicators and financial analysis to improve companies' operating efficiency in changing environments, adhering to ethical and sustainability criteria. |
| L3: Manages organizational models, articulating corporate strategies, managerial information systems and analysis of the environment to transform business structures, promoting ethics and sustainable development. |
| **PLO3: Management** |
| L1: Applies fundamental management and leadership concepts to coordinate basic tasks, working with a team, proposing initial solutions to simple organizational problems, and communicating instructions with clarity, responsibility and collaboration. |
| L2: Proposes operational solutions to somewhat complex problems, applying knowledge of management and leadership to execute organizational actions in defined contexts, coordinating and distributing tasks among work teams, and promoting proactivity and diligence. |
| L3: Formulates management strategies to lead functional areas and business projects, ensuring operating efficiency and the achievement of organizational objectives in complex and changing contexts, through evidence-based decision making, collaborative leadership and alignment with the principles of sustainability and social responsibility. |
| **PLO4: Control** |
| L1: Interprets basic financial reports, applying procedures and tools to monitor organizational processes, ensuring adherence to established objectives and regulations, with a comprehensive, ethical vision. |
| L2: Evaluates organizational processes using management information systems, considering short and medium-term goals, identifying risks and proposing corrective measures objectively and responsibly. |
| L3: Proposes actions for improvement, based on performance results and considering the internal and external context to optimize operating efficiency, reduce risks and achieve strategic goals, according to ethical and regulatory standards. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

## International Business

**Duration of Program: 200 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in International Business**

**Professional Title: Licentiate** in International Business

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

### Academic Objectives

The academic objectives of the Universidad San Ignacio de Loyola International Business program are the following:

- To shape professionals capable of designing operational and strategic solutions in international trade and international business, integrating regulations, technological innovation and global standards to ensure efficient, competitive processes in changing environments.
- To shape professionals with competencies to formulate sustainable internationalization strategies based on market intelligence and knowledge of regulations, considering sustainability, the use of emerging technologies and the cultural dynamics of the international environment.
- To shape professionals with the skills to manage international logistical operations with a comprehensive approach, optimizing distribution and traceability with digital tools and information systems that meet the needs of the global market.
- To shape professionals with commercial leadership to oversee financial and international investment projects, using analytical tools for making strategic decisions, considering risks, opportunities and feasibility in multicultural scenarios.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Operativity of International Trade** |
|---|
| L1: Applies foreign trade regulations and technical and commercial procedures related to operativity and customs and port regulations, according to trade agreements, ensuring legal compliance, operating efficiency and competitiveness. |
| L2: Analyzes regulations and procedures in relation to foreign trade to solve practical cases involving customs and port regulations and trade agreements related to merchandise in real contexts. |
| L3: Designs comprehensive strategies for international trade processes to optimize their operativity, incorporating the innovative and technological factor in the international sector, considering trends in the global environment and international regulations in force. |
| **PLO2: Global Trade Strategies and Technological Innovation** |
| L1: Applies international market research procedures, making use of the main international databases to identify trade opportunities in the import and export sector. |
| L2: Develops market profiles and international business prospection reports, using commercial intelligence and considering a sustainable approach, according to the technical requirements of international trade. |

| |
|---|
| L3: Designs global trade strategies for potential products with an innovative approach, making use of artificial intelligence in international market research. |
| **PLO3: International Logistics and Emerging Technologies** |
| L1: Applies basic international logistics and supply chain management processes from planning through execution, considering technical and regulatory requirements for access to international markets in product traceability. |
| L2: Designs international physical distribution strategies and the supply chain according to the requirements of the international customer and market conditions, optimizing costs and time. |
| L3: Prepares projects for different multimodal, international, physical distribution processes, introducing the application of emerging technologies for greater efficiency and product traceability. |
| **PLO4: Strategic Leadership in International Business** |
| L1: Uses financial, banking, economic and accounting tools appropriately for the purpose of assessing trade projects involving products, services and international investment, identifying opportunities and managing financial risks. |
| L2: Designs investment projects to manage products, services and international investment for the purpose of assessing economic and financial feasibility in an international context, making use of advanced financial analysis techniques. |
| L3: Evaluates the execution of strategic and financial projects with an international approach in the areas of goods, services and investment, implementing management processes to ensure the achievement of commercial objectives with a sustainable approach. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

### Academic Objectives

The study program of INTERNATIONAL BUSINESS ADMINISTRATION of the Universidad San Ignacio de Loyola has as its academic objective(s):

- To train professionals capable of opening new markets anywhere in the world, managing and leading foreign trade projects in order to generate satisfaction and value in users, customers and the company, in local and global environments; with ethics and long-term social responsibility.

### Program Learning Outcomes (PLO) by Level

| |
|---|
| **PLO1: New Markets** |
| L1: Recognizes the basic concepts of Market Research and Global Marketing, taking into account the collection and analysis of information, with regard to the world of business and the international market, carried out in a systematic way according to approaches and paradigms. |
| L2: Applies market development strategies using Market Research and Global Marketing concepts to support product entry into international markets. |
| L3: Develops market studies to diversify foreign trade towards new potential markets, generating value with optimal supply chain processes, using the regulatory framework of international free trade and customs agreements. |
| **PLO2: Investment Opportunities** |
| L1: Identify accounting, economic, and financial tools, taking into account economic models that are based on variables or phenomena that jointly affect the economic and financial situation of a country. |
| L2: Analyzes global economic and financial tools to propose investment projects that venture into new markets in an international environment. |
| L3: Proposes investment opportunities using financial, economic, and accounting tools to apply them to international projects. |
| **PLO3: Import/Export Strategy** |
| L1: Identify foreign trade regulations and international customs terms following foreign trade regulations to apply them in the planning of import/export strategies. |
| L2: Uses multilateral and bilateral trade agreements to enter new global markets, following the guidelines specified and negotiated in international trade agreements. |
| L3: Plans the company's import/export strategy using customs regulations and multinational international trade agreements in order to take the best economic and financial advantages that global markets can offer. |

| PLO4: Business Plan |
| --- |
| L1: Recognize economic, cultural, political, and legal differences according to International Business theory to understand the behavior of potential customers. |
| L2: Interprets the economic, cultural, political, and legal aspects considered in the business plan to develop the products or services to be offered in the international market, according to the preferences of the end consumer. |
| L3: Construct the business plan using the economic, cultural, political, and legal variables of the countries in which the company is interested in generating business to develop them in the international market. |

**Internships for Undergraduate Programs for Working Adults**

## College of Education

## Early Childhood Education

**Duration of Program: 201 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Early Childhood Education**

**Professional Title: Licentiate in Early Childhood Education**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The Early Childhood Education Academic Program of San Ignacio de Loyola University responds to the particular needs of early childhood from 0 to 6 years of age, who at this stage obtain the fundamental bases of their personality. In this sense, the biological, physiological, psychological and social knowledge of the infant is important for the faculty member in guiding the educational process based on ethics and values. Therefore, the academic objective of the Early Childhood Education Academic Program is that the Early Childhood Education Graduate knows the pedagogical, management, technology and research fundamentals to improve the teaching-learning process and the quality of children's education in educational institutions.

### Program Learning Outcomes (PLO) by Level

| |
|---|
| **PLO1: Methodology and Didactics** |
| L1: Understands the aspects of early stimulation, as well as linguistic and artistic development so that they can develop in their immediate environment. |
| L2: Analyzes linguistic, mathematical, artistic and bodily manifestations as fundamental aspects for the cognitive, affective and psychomotor development of children. |
| L3: Establishes relationships between early psychomotor stimulation, artistic and linguistic expression as basic scientific exercises to organize it through didactic strategies in the curricular areas of early education. |
| **PLO2: Educational Sense** |
| L1: Understands the theoretical, historical, and psychological framework as a scientific educational study. |
| L2: Applies cognitive thinking, affective progress, and people's manifestation to understand their evolutionary development. |
| L3: Understands the scientific rigor of theory, history and psychology applied to the educational field in order to establish the fundamental orientations of the educational sense in teachers and students. |
| **PLO3: Pedagogical Strategies** |
| L1: Identify the pedagogical foundations that underpin the proposals and strategies with reference to the national curriculum. |
| L2: Designs and develops teaching-learning strategies using didactic materials for |

| |
|---|
| application and evaluation in the development of classes. |
| L3: Systematizes proposals for designs, strategies, materials and curricular evaluation to establish projects for the integration and development of classes. |
| **PLO4: Teaching Identity** |
| L1: Promotes the development of the teacher's identity to support his/her line of action as a future teacher. |
| L2: Applies effectively and efficiently what has been developed in his/her identity for the improvement of teaching. |
| L3: Perform efficiently in the development of teaching and its development in its teaching identity for the good learning of students. |
| **PLO5: Educational Management** |
| L1: Acquire basic fundamental knowledge of management, economics, marketing, and law. |
| L2: Relates the basic concepts of educational management to the mastery of the administrative process in the Education Sector. |
| L3: Establishes relationships between the conceptions of administration, economics, marketing and legal aspects as basic foundations for the development of good educational management to provide a good service to all subjects of education. |
| **PLO6: Educational Research** |
| L1: Understand the scope of educational research in the professional life of teachers. |
| L2: Design research projects considering all their elements in their presentation. |
| L3: Elaborates the research project, demonstrating consistency, especially in the theoretical framework, methodological design and validation of the research instruments. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Early Childhood Education**

## Education - Art and Humanities Specialization

**Duration of Program: 200 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Education - Art and Humanities Specialization**

**Professional Title: Licentiate in Education - Art and Humanities Specialization**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The Academic Program of Education - Art and Humanities Specialization of San Ignacio de Loyola University is aimed at professionals with a Bachelor's Degree in programs related to Education and/or professionals graduated from Higher Technological and Pedagogical Institutes, National Higher Schools of Art, both public and private. It provides quality pedagogical training that leads to a Bachelor's Degree in Education and, subsequently, to a Bachelor's Degree in Education with a major in Literature and Humanities.

In this sense, the professional graduate of the Academic Program of Education with Specialization in Literature and Humanities knows the pedagogical, management, technology and research fundamentals and applies them to improve teaching-learning and the quality of the educational institutions in which he/she works.

### Program Learning Outcomes (PLO) by Level

| |
|---|
| **PLO1: Environmental Leadership** |
| L1: Identify the elements that allow the relationship between man and his culture with nature, basing it on theoretical bases. |
| L2: Analyzes the relationship between man and nature and the influence of cultures on the care of the environment, integrating the different theoretical positions that strengthen the care of the environment and the ethical position. |
| L3: Effectively communicates the good relationship that must exist between respect for man and nature and different cultures, from an ethical position and with a sense of leadership. |
| **PLO 2: Pedagogical Management** |
| L1: Identify the theoretical aspects, historical facts and psychological theories that strengthen educational actions. |
| L2: Analyzes the theoretical proposal, historical facts and psychological theories oriented to the educational field that strengthen educational actions in schools. |
| L3: Understands the scientific rigor of theory, history and psychology applied to the educational field in order to establish the fundamental orientations of the educational sense in teachers and students. |
| **PLO 3: Curriculum Management** |
| L1: Identify the curricular designs, strategies, materials and evaluation to support the integration projects developed in the specialty of Letters and Humanities. |

| |
|---|
| L2: Analyzes the designs, strategies, materials and curricular evaluation to strengthen the development of classes in the specialty of Letters and Humanities. |
| L3: Systematizes proposals for designs, strategies, materials and curricular evaluation to establish projects for the integration and development of classes in the specialty of Letters and Humanities. |
| **PLO 4: Educational Management** |
| L1: Inquires about the designs of educational plans and projects for the good management of an educational institution, based on the legal and theoretical framework of school management. |
| L2: Analyzes proposals for the design of educational plans and projects for the good management of an educational institution, considering the standards and quality criteria that favor good management. |
| L3: Directs the design of educational plans and projects based on legal aspects for good management and a good quality educational service. |
| **PLO 5: Formative Research** |
| L1: Know the structures to be developed in the research project to deepen the scientific and methodological knowledge of pedagogical research. |
| L2: Analyzes the theoretical foundations that facilitate the design of the research project to contribute to the transformation of educational contexts. |
| L3: Elaborates the research project in his/her specialty, demonstrating consistency, especially in the theoretical framework, methodological design and validation of the research instruments. |
| **PLO 6: Computer Didactics** |
| L1: Identify the teaching-learning processes specific to their specialty, considering the context and the computer tools applied to education. |
| L2: Analyzes the teaching-learning processes of their specialty, making use of computer tools and curricular diversification |
| L3: Develop teaching-learning processes through computer science, taking into account the subject and the age of the students. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Duration of Program: 200 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Education - Science and Technology Specialization**

**Professional Title: Licentiate in Education - Science and Technology Specialization**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The Academic Program of Education - Science and Technology Specialization of San Ignacio de Loyola University is aimed at professionals with a Bachelor's Degree in programs related to Education and/or professionals graduated from Higher Technological and Pedagogical Institutes, National Higher Schools of Art, both public and private. It provides quality pedagogical training that leads to a Bachelor's Degree in Education and, subsequently, to a Bachelor's Degree in Education with Specialization in Science and Technology.

In this sense, the professional graduated from the Academic Program of Education with Specialization in Science and Technology knows the pedagogical, management, technology and research fundamentals and applies them to improve teaching-learning and the quality of the educational institutions in which he/she works.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Environmental Leadership** |
|---|
| L1: Identify the elements that allow the relationship between man and his culture with nature, basing it on theoretical bases. |
| L2: Analyzes the relationship between man and nature and the influence of cultures on the care of the environment, integrating the different theoretical positions that strengthen the care of the environment and the ethical position. |
| L3: Effectively communicates the good relationship that must exist between respect for man and nature and different cultures, from an ethical position and with a sense of leadership. |
| **PLO2: Pedagogical Management** |
| L1: Identify the theoretical aspects, historical facts and psychological theories that strengthen educational actions. |
| L2: Analyzes the theoretical proposal, historical facts and psychological theories oriented to the educational field that strengthen educational actions in schools. |
| L3: Includes the scientific rigor of theory, history and psychology applied to the educational field in order to establish the fundamental orientations of the educational sense in teachers and students. |
| **PLO3: Curriculum Management** |
| L1: Identify the designs, strategies, materials and curricular evaluation to support the integration projects that are developed in the specialty of Science and Technology. |

| |
|---|
| L2: Analyzes the designs, strategies, materials and curricular evaluation to strengthen the development of Science and Technology classes. |
| L3: Systematizes proposals for designs, strategies, materials and curricular evaluation to establish projects for the integration and development of classes in the specialty of Science and Technology. |
| **PLO4: Educational Management** |
| L1: Inquire about the designs of educational plans and projects supported by the legal framework that facilitates the service of educational quality. |
| L2: Analyzes proposals for the design of educational plans and projects, considering the standards that favor good management and educational quality. |
| L3: Directs the design of educational plans and projects based on legal aspects for good management and a good quality educational service. |
| **PLO5: Formative Research** |
| L1: Know the structures to be developed in the research project, in order to deepen the scientific and methodological knowledge of pedagogical research. |
| L2: Analyze the theoretical foundations that facilitate the design of the research project, which allow contributing to the transformation of educational contexts. |
| L3: Elaborates the research project in his/her specialty, demonstrating consistency, especially in the theoretical framework, methodological design and validation of the research instruments. |
| **PLO6: Computer Didactics** |
| L1: Identify the teaching-learning processes proposed for the Science and Technology specialty, considering the context and computer tools applied to education. |
| L2: Analyzes the teaching-learning processes of Science and Technology using computer tools and curricular diversification |
| L3: Develop teaching-learning processes through computer science, taking into account the subject and the age of the students. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Education - Science and Technology Specialization**

| CYCLE | COURSE NUMBER | COURSE TITLE | COURSE TYPE | TOTAL COURSE CREDIT/ CLOCK HOURS |
|---|---|---|---|---|
| 1 | COM51013 | ORAL AND WRITTEN COMMUNICATION (COMUNICACIÓN ORAL Y ESCRITA) | General Education | 4 |
| | EDG52038 | INSTRUCTIONAL DESIGNS (DISEÑOS INSTRUCCIONALES) | General Education | 3 |

## Secondary Education - English Specialization

**Duration of Program: 200 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Secondary Education - English Specialization**

**Professional Title: Licentiate** in Secondary Education - English Specialization

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The Academic Program of Secondary Education - English Specialization at San Ignacio de Loyola University responds to the challenge of recovering the place of pedagogy to lay the foundations of innovative proposals in management; as well as consolidate the use of educational technology and research oriented to the specialty of English with the objective of improving the teaching-learning processes and the quality of educational institutions. In this sense, its academic objective is to train professionals with a solid foundation in the fields of literature, humanities, science and educational technology. Therefore, the Bachelor in Secondary Education at USIL, as a teacher, has a deep knowledge of the purposes, contents and teaching approach of his or her specialty.

### Program Learning Outcomes (PLO) by Level

| |
|---|
| **PLO1: Educational guidance** |
| L1: Establishes the fundamental orientations of the educational sense in teachers and students. |
| L2: Conceives educational observation at the level of theory, history and psychology to establish the basic orientations that allow evolutionary development. |
| L3: Understands the scientific rigor of theory, history and psychology applied to the educational field in order to establish the fundamental orientations of the educational sense in teachers and students. |
| **PLO2: Development of educational management** |
| L1: Develop some basic principles of educational management to provide an adequate educational service. |
| L2: Promotes the formation of a set of organized processes that allow the areas of educational management to achieve their objectives and goals. |
| L3: Establishes relationships between the concepts of administration, economics, marketing and legal aspects as basic foundations for the development of good educational management. |
| **PLO3: Development, teaching and learning** |
| L1: Promotes the development of the teacher's identity to increase student learning. |
| L2: Effectively improves teacher education in order to improve the quality of education. |
| L3: Perform efficiently in the development of teaching and its development in its teaching identity for the good learning of students. |

| PLO4: Educational Research |
|---|
| L1: Implements the theoretical framework of the research project for the validation of the possible instruments to be applied. |
| L2: Carries out research projects based on the methodological and theoretical field to support creditable products |
| L3: Elaborates the research project, demonstrating consistency, especially in the theoretical framework, methodological design and validation of the research instruments. |
| **PLO5: Comprehension and expression of the English language** |
| L1: Uses the use of ICT for the process of systematization of the teaching-learning process. |
| L2: Understands and develops critical thinking in a comprehensive way of the English language as a second language, perfecting certain fundamental aspects such as the phonetic and lexical field. |
| L3: Explains and critiques in a holistic way the English language as a second language, according to the phonetic, lexical and semantic aspects using ICT to systematize it didactically in the teaching-learning process. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

## College of Engineering

## Agro-industrial Engineering

**Duration of Program: 206 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Agro-industrial Engineering**

**Professional Title: Agro**-Industrial Engineer

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The study program of AGRO-INDUSTRIAL ENGINEERING at San Ignacio de Loyola University has as its academic objective(s):

- The academic program trains professionals capable of designing, developing and optimizing agro- industrial processes for the conservation of raw materials of agricultural, livestock, fishery origin, applying knowledge of physiology and post-harvest technology, prioritizing quality and safety.
- The academic program trains professionals capable of leading multidisciplinary agroindustrial engineering projects, under an open innovation approach, in the business environment, universities, research centers in Peru and the world.
- The academic program trains professionals capable of designing new agroindustrial plants and manages them efficiently, considering resources and processes, applying industry 4.0 technologies.
- The academic program trains professionals capable of researching, developing, innovating new products and valorizing by-products, under a circular economy approach; promoting cooperative practices in an environment of social and environmental responsibility and ethical conduct.
- The academic program trains professionals capable of using engineering tools and applications for the automation of processes, introducing and creating technology to increase their useful life, also economically evaluates production processes to develop new applications in the agro-industrial field and produce on a large scale.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Engineering Knowledge** |
|---|
| L1: Identify knowledge of agro-industrial engineering and other related disciplines that can be applied in solving problems, meeting the requirements of the environment. |
| L2: Understands the knowledge of agro-industrial engineering and other related disciplines that can be applied in the solution of problems, complying with the requirements of their environment. |
| L3: Applies knowledge of agro-industrial engineering and other related disciplines in solving problems, complying with the requirements of the environment. |

| |
|---|
| **PLO2: Solving Agro-industrial Engineering Problems** |
| L1: Identify products, packaging or processes that allow solving complex problems in agro-industrial engineering and other relevant disciplines in the program's domain, managing to satisfy their requirements. |
| L2: Designs products, packaging or processes based on research that allow solving complex problems of agro-industrial engineering and other relevant disciplines in the domain of the program, managing to satisfy their requirements. |
| L3: Develops products, packaging or processes based on research that allow solving complex problems of agro-industrial engineering and other relevant disciplines in the domain of the program, managing to satisfy their requirements. |
| **PLO3: Use of modern tools in Agro-industrial Engineering** |
| L1: Recognizes the need to select, adapt, create, and apply modern techniques, resources, and tools for the practice of agro-industrial engineering, understanding their scope and limitations in problem solving. |
| L2: Selects, adapts modern techniques, resources and tools for the practice of agro-industrial engineering, understanding their scope and limitations in problem solving. |
| L3: Creates, applies modern techniques, resources and tools for the practice of agro-industrial engineering, understanding their scope and limitations in problem solving. |
| **PLO4: Participation and Leadership** |
| L1: Identifies his/her role in agro-industrial projects, as an individual, member or leader of diverse teams for the solution of agro-industrial engineering problems, committing to ethics, professional responsibilities and standards of professional practice. |
| L2: Participates in agro-industrial projects, as an individual, member, or leader of diverse teams for the solution of agro-industrial engineering problems, committing to ethics, professional responsibilities, and standards of professional practice. |
| L3: Values your participation in agro-industrial projects, as an individual, member, or leader of diverse teams for the solution of agro-industrial engineering problems, committing to ethics, professional responsibilities, and standards of professional practice. |
| **PLO5: Continuous Learning in Agro-industrial Engineering** |
| L1: Recognises the need to develop lifelong autonomous learning in order to cope with technological changes in agro-industrial engineering, which will allow them to achieve continuous academic and professional development. |
| L2: Has the ability to develop permanent autonomous learning to face technological changes in agro-industrial engineering, which allows them to achieve continuous academic and professional development. |
| L3: Evaluates the implications of developing permanent autonomous learning to face technological changes in agro-industrial engineering, which allows them to achieve continuous academic and professional development. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

## Business and Systems Engineering

**Duration of Program: 201 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Business and Systems Engineering**

**Professional Title: Business and Systems Engineering**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The study program of BUSINESS AND SYSTEMS ENGINEERING of the Universidad San Ignacio de Loyola has as its academic objective(s):

- To train professionals trained to manage, administer and create technological proposals that generate new innovative business models optimizing the processes of organizations.

### Program Learning Outcomes (PLO) by Level

| |
|---|
| **PLO1: Information Systems Planning** |
| L1: Identify existing information systems by comparing them to the company's mission, to find opportunities for improvement. |
| L2: Structure information systems using planning methodologies to implement opportunities for improvement. |
| L3: Plan information and collaboration systems, generating strategies for the organization to achieve its objectives. |
| **PLO2: IT Business Design and Implementation** |
| L1: Describe existing business processes, using process diagramming techniques, to get a view of the current business. |
| L2: Organizes business processes using information technology applications to propose measurable improvements in these processes. |
| L3: Design effective business processes with the use of information technology applications for national and international organizations. |
| **PLO3: IT Project Management** |
| L1: Describe the business processes in a project, using process diagramming techniques, to get a vision of the project. |
| L2: Integrates information technology projects using the PMI methodology, to ensure that the projects are executed within the stipulated timeframe. |
| L3: Manages information technology projects, aligning them with the organization's strategy, to achieve the proposed goals. |
| **PLO4: Guide and supervise equipment** |
| L1: Describes theories related to the management and leadership of work teams, environmental management, and social responsibility; following the current models of scientific and academic research, to have an overview. |

| |
|---|
| L2: Organize human capital by applying environmental management and social responsibility models to generate sustainable businesses. |
| L3: Guides and supervises high-performance teams, promoting good practices, for the achievement of corporate objectives. |

**Internships for Undergraduate Programs for Working Adults**

Students are exempt of this requirement due to the nature of the program.

**Curriculum: Business and Systems Engineering**

| CYCLE | COURSE NUMBER | COURSE TITLE | COURSE TYPE | TOTAL COURSE CREDIT/ CLOCK HOURS |
|---|---|---|---|---|
| 1 | CMO41003 | ORAL AND WRITTEN COMMUNICATION (COMUNICACIÓN ORAL Y ESCRITA) | General Education | 5 |
| | SCG41015 | NATIONAL REALITY (REALIDAD NACIONAL) | General Education | 4 |
| | MAT42029 | BASIC MATHEMATICS (MATEMÁTICA BÁSICA) | General Education | 5 |
| | SFW42000 | GENERAL TOPICS OF COMPUTER SCIENCE (TÓPICOS GENERALES DE LA CIENCIA DE LA COMPUTACIÓN) | General Education | 5 |
| | ENG42040 | ENGLISH I (ENGLISH I) | General Education | 5 |
| 2 | FIS41015 | BASIC PHYSICS (FÍSICA BÁSICA) | General Education | 5 |
| | PIF51011 | FUNDAMENTALS OF SOFTWARE DEVELOPMENT (FUNDAMENTOS DEL DESARROLLO DEL SOFTWARE) | Core/Required | 5 |
| | MAT53002 | MATHEMATICS FOR ENGINEERING (MATEMÁTICA APLICADA A LA INGENIERÍA) | Core/Required | 5 |
| | ETM41010 | PHILOSOPHY AND ETHICS (FILOSOFÍA Y ÉTICA) | General Education | 3 |
| | ENG42041 | ENGLISH II (ENGLISH II) | General Education | 5 |
| 3 | EST42007 | DESCRIPTIVE STATISTICS AND STATISTICAL INFERENCE (ESTADÍSTICA DESCRIPTIVA E INFERENCIAL) | General Education | 5 |
| | RSO41000 | LEADERSHIP AND SUSTAINABILITY (LIDERAZGO Y SOSTENIBILIDAD) | General Education | 3 |
| | MAR52016 | INTRODUCTION TO MARKETING (INTRODUCCIÓN AL MARKETING) | Core/Required | 3 |
| | ENG42042 | ENGLISH III (ENGLISH III) | Core/Required | 5 |
| | CEG42011 | INTRODUCTION TO BUSINESS (INTRODUCCIÓN EMPRESARIAL) | Core/Required | 3 |
| 4 | ECO51027 | BASIC ECONOMICS (ECONOMÍA BÁSICA) | Core/Required | 3 |
| | PIF51010 | FUNDAMENTALS OF NETWORKING AND COMMUNICATION (FUNDAMENTOS DE REDES Y COMUNICACIÓN) | Core/Required | 5 |
| | INV41053 | RESEARCH METHODOLOGY (METODOLOGÍA DE LA INVESTIGACIÓN) | General Education | 5 |
| | ENG42043 | ENGLISH IV (ENGLISH IV) | Core/Required | 5 |
| 5 | IIN52037 | SYSTEMS PROCESS ENGINEERING (INGENIERÍA DE PROCESOS DE SISTEMAS) | Core/Required | 5 |

| CYCLE | COURSE NUMBER | COURSE TITLE | COURSE TYPE | TOTAL COURSE CREDIT/ CLOCK HOURS |
|---|---|---|---|---|
| | IIS51014 | DATABASES (BASE DE DATOS) | Core/Required | 5 |
| | GES52020 | MANAGERIAL SKILLS (HABILIDADES GERENCIALES) | General Education | 5 |
| | CGE51008 | ACCOUNTING (CONTABILIDAD GENERAL) | Core/Required | 5 |
| 6 | FIN52023 | FINANCE (FINANZAS) | Core/Required | 5 |
| | IIN43003 | OPERATIONS RESEARCH I (INVESTIGACIÓN DE OPERACIONES I) | Core/Required | 3 |
| | PIF41007 | OBJECT-ORIENTED SOFTWARE DEVELOPMENT (TÓPICOS DE DESARROLLO DE SOFTWARE ORIENTADO A OBJETOS) | Core/Required | 5 |
| | PIF51009 | BUSINESS PROCESS MANAGEMENT (BUSINESS PROCESS MANAGEMENT) | Core/Required | 5 |
| 7 | IIN51016 | KNOWLEDGE MANAGEMENT (GESTIÓN DEL CONOCIMIENTO) | Core/Required | 4 |
| | PIF51013 | TOPICS IN SOFTWARE ENGINEERING (TÓPICOS DE INGENIERÍA DE SOFTWARE) | Core/Required | 5 |
| | PIF51014 | TOPICS OF TELEPROCESS (TÓPICOS DE TELEPROCESOS) | Core/Required | 5 |
| | | ELECTIVE 1 (ELECTIVO 1) | Elective | 5 |
| 8 | MAR55008 | BUSINESS INTELLIGENCE AND DATA ANALYTICS (BUSINESS INTELLIGENCE Y ANALÍTICA DE DATOS) | Core/Required | 4 |
| | PIF51012 | SIMULATION SYSTEMS (SIMULACIÓN DE SISTEMAS) | Core/Required | 5 |
| | GES66025 | APPLICATION MANAGEMENT (APLICACIONES DE GESTIÓN EMPRESARIAL) | Core/Required | 5 |
| | | ELECTIVE 2 (ELECTIVO 2) | Elective | 5 |
| 9 | IIN62025 | ENGINEERING PROJECT ASSESSMENT (EVALUACIÓN DE PROYECTOS DE INGENIERÍA) | Core/Required | 4 |
| | GES66026 | IT MANAGEMENT (GERENCIA DE TI) | Core/Required | 5 |
| | INV61060 | THESIS SEMINAR I (SEMINARIO DE TESIS I) | Core/Required | 4 |
| | | ELECTIVE 3 (ELECTIVO 3) | Elective | 5 |
| 10 | IIN62024 | SOFTWARE QUALITY (CALIDAD DE SOFTWARE) | Core/Required | 4 |
| | INV61061 | THESIS SEMINAR II (SEMINARIO DE TESIS II) | Core/Required | 4 |
| | IIN62027 | CAPSTONE PROJECT FOR ENGINEERING (PROYECTO INTEGRADOR PARA INGENIERÍA) | Core/Required | 10 |
| | | ELECTIVE 4 (ELECTIVO 4) | Elective | 5 |

## Business Engineering

**Duration of Program: 205 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Business Engineering**

**Professional Title: Business Engineer**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic objectives

The academic objective(s) of the BUSINESS ENGINEERING program at San Ignacio de Loyola University is (are):

- To train professionals with the competencies to perform effectively in the creation and integral management of companies in a globalized world.
- To train professionals with a strategic vision aligned to business model innovation and process transformation.
- To train professionals capable of managing projects using information technologies and data analytics.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Solving Complex Problems in Engineering** |
|---|
| L1: Identifies complex engineering problems by applying principles of engineering, science, and mathematics to meet a societal need. |
| L2: Formulates complex engineering problems by applying principles of engineering, science, and mathematics, including data analytics to meet a societal need. |
| L3: Solve complex engineering problems by applying principles of engineering, science, and mathematics, including data analytics, simulation, and modeling to meet a societal need. |
| **PLO2: Experimentation and Design in Business Engineering** |
| L1: Proposes an initial enterprise engineering design to produce solutions that meet specific needs taking into account public health, safety, and welfare. |
| L2: Executes enterprise engineering design to produce solutions that meet specific needs taking into account public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors. |
| L3: Applies enterprise engineering design to produce solutions that meet specific needs taking into account public health, safety and welfare, as well as global, cultural, social, environmental and economic factors, considering international standards and management systems. |
| **PLO3: Use of modern tools and continuous learning in business engineering.** |
| L1: Identifies new business engineering tools and proposes basic solutions for the optimization of resources within a microsystem, taking into account the nature of the context. |
| L2: Applies new business engineering tools and proposes continuous improvement solutions |

| |
|---|
| for the optimization of resources within a medium-sized system, using appropriate learning strategies and information technology resources. |
| L3: Evaluates new business engineering tools and proposes continuous improvement solutions for the optimization of resources within a macro system, using appropriate learning strategies and information technology resources. |
| **PLO4: Enterprise Project Management** |
| L1: Identify the factors of an enterprise engineering project for problem solving, taking into account constraints and variables. |
| L2: Formulates the Project based on the good practices of the PMBOK in its fully updated version, taking into account the constraints and variables to optimize the solution of the problem. |
| L3: Manages enterprise engineering projects by clearly articulating costs, execution time, utility, and project deliverable attributes to optimize problem solving. |
| **PLO5: Participation and Leadership in Business Engineering** |
| L1: Participates in teamwork by assuming roles and tasks to contribute to the solution of problems related to business engineering. |
| L2: Demonstrates your ability to work in a team whose members together provide leadership, creating a collaborative and inclusive environment, setting goals, planning tasks, and meeting short-, medium-, and long-term objectives. |
| L3: Effectively lead work teams within a multidisciplinary context to plan tasks and meet objectives in innovation processes, creating a collaborative and inclusive environment. |
| **PLO6: Data analysis for decision-making** |
| L1: Identifies the elements needed to bridge the gap between societal needs and the accessibility of analytical models and tools for decision-making. |
| L2: Apply the necessary elements to bridge the gap between the needs of society and the accessibility of analytical models and tools by taking advantage of the opportunity to use data to improve decision-making, establishing workflows and interdependence of elements within a business process. |
| L3: Assesses the elements needed to bridge the gap between societal needs and the accessibility of analytical models and tools by seizing the opportunity to use data to improve decision-making and applies analytics to the business sector. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Business Engineer**

| CYCLE | COURSE NUMBER | COURSE TITLE | COURSE TYPE | TOTAL COURSE CREDIT/ CLOCK HOURS |
|---|---|---|---|---|
| 1 | IIS52043 | FUNDAMENTALS OF DIGITAL COMPETENCIES (FUNDAMENTOS EN COMPETENCIAS DIGITALES) | General Education | 3 |

## Civil Engineering

**Duration of Program: 208 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Civil Engineering**

**Professional Title: Civil** Engineer

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic objectives

The academic objective(s) of the CIVIL ENGINEERING program at San Ignacio de Loyola University is (are):

- To train competent professionals to evaluate, design and materialize civil engineering projects, within the current regulatory framework.
- To train professionals capable of executing civil engineering projects using or developing specialized and efficient technologies, applying the most recent international standards, and with a marked sense of productivity and sustainability.
- To train professionals who perform competently within the current legal framework, considering the impact of their decisions on society and the environment. Ensure compliance with occupational health and safety standards and the regulations of the profession.
- To train professionals capable of effectively communicating their ideas to work teams and clients, leading and promoting scenarios of entrepreneurship and research with a critical and demanding sense regarding the need for education and continuous improvement in their professional practice under ethical standards.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Complex Problems** |
|---|
| L1: Identifies complex engineering problems in order to provide effective solutions by applying principles of engineering, science, and mathematics. |
| L2: Identifies and formulates complex engineering problems in order to implement effective solutions by applying principles of engineering, science, and mathematics in the local context. |
| L3: Solves complex engineering problems by applying principles of engineering, science, and mathematics in the local and international context. |
| **PLO2: Engineering Design** |
| L1: Understands engineering design to identify solutions that meet specific needs taking into account public health, as well as global, cultural, and social factors. |
| L2: Analyzes engineering design to propose solutions that meet specific needs taking into account public health, safety and well-being, as well as global, cultural, social, and environmental factors. |
| L3: Applies engineering design to produce solutions that meet specific needs taking into account public health, safety, and welfare, as well as global, cultural, social, environmental, |

| |
|---|
| and economic factors. |
| **PLO3: Effective Communication in Civil Engineering Projects** |
| L1: Understands technical reports in a basic way in order to explain technical aspects of the project to a diverse audience, considering the norms and rules of oral and written communication. |
| L2: Prepares technical reports at the executive level in order to explain technical aspects of the project to a diverse audience considering the norms and rules of oral and written communication. |
| L3: Prepares and socializes complex technical reports in order to explain technical aspects of the project to a diverse audience, considering the norms and rules of oral and written communication. |
| **PLO4: Ethical Responsibilities** |
| L1: Recognizes ethical and professional responsibilities in engineering situations and makes informed judgments, which consider the impact of some of the engineering solutions in global and societal contexts. |
| L2: Analyzes ethical and professional responsibilities in engineering situations and makes informed judgments, which consider the various impact of engineering solutions in global, environmental, and social contexts. |
| L3: Assumes ethical and professional responsibilities in engineering situations and makes informed judgments, which consider the impact of engineering solutions in global, economic, environmental, and social contexts. |
| **PLO5: Teamwork in Civil Engineering projects** |
| L1: Understands the roles of teamwork and promotes a collaborative and inclusive environment, setting goals, planning tasks, and meeting objectives. |
| L2: Participate appropriately in a team whose members together provide leadership, create a collaborative and inclusive environment, set goals, plan tasks, and accomplish objectives. |
| L3: Lead effectively in a team whose members create a collaborative and inclusive environment, set goals, plan tasks, and meet objectives. |
| **PLO6: Experimentation** |
| L1: Includes the experimentation of real cases in order to guarantee the quality of processes, through the analysis and interpretation of data, in addition to the issuance of engineering judgments to obtain basic conclusions. |
| L2: Participates in the experimentation of real cases in order to guarantee the quality of the processes, through the analysis and interpretation of data, in addition to the issuance of engineering judgments to obtain basic conclusions. |
| L3: Directs the experimentation of real cases in order to guarantee the quality of the processes, through the analysis and interpretation of data, in addition to the issuance of engineering judgments to obtain basic conclusions. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Civil Engineering**

## Environmental Engineering

**Duration of Program: 210 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Environmental Engineering**

**Professional Title: Environmental Engineer**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an authorized member of the corresponding Professional College.

### Academic objectives

The study program of ENVIRONMENTAL ENGINEERING at San Ignacio de Loyola University has as its academic objective(s):

- The graduate is a professional trained to plan, manage and evaluate programs and projects linked to the sustainable management of natural resources, the management of industrial and service processes in relation to environmental impact.
- The graduate is a professional with the ability to quantitatively and qualitatively evaluate and mitigate environmental problems using clean technologies, achieving best practices in the prevention of water, atmospheric and soil pollution.
- The graduate is an entrepreneurial professional, capable of facing the new challenges of globalization. The program seeks that the graduate manages in a strategic and preventive way, taking into account the fundamentals of social responsibility and development, having a deep knowledge of the national and international reality.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Solve complex problems** |
|---|
| L1: Identifies complex engineering problems by applying principles of engineering, science, and mathematics. to assess environmental impacts |
| L2: Formulates complex engineering problems by applying principles of engineering, science, and mathematics. to assess environmental impacts |
| L3: Solves complex engineering problems by applying principles of engineering, science, and mathematics. to assess environmental impacts |
| **PLO2: Engineering Design** |
| L1: Understands engineering design to identify solutions that meet specific needs taking into account public health, safety, and well-being, as well as global, cultural, social, environmental, and economic factors. |
| L2: Describes engineering design to propose solutions that meet specific needs taking into account public health, safety and welfare, as well as global, cultural, social, environmental and economic factors. |
| L3: Applies engineering design to produce solutions that meet specific needs taking into account public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors. |

| |
|---|
| **PLO3: Communicate effectively** |
| L1: Understands the normative and theoretical foundations that underpin environmental impact studies to solve problems in the social context and start project operations. |
| L2: Analyzes the normative and theoretical foundations that underpin environmental impact studies to solve problems in the social context and start project operations. |
| L3: Applies the normative and theoretical foundations that underpin environmental impact studies to solve problems in the social context and start project operations. |
| **PLO4: Ethical Responsibilities** |
| L1: Identifies ethical and professional responsibilities in engineering situations and makes informed judgments to determine the impact of engineering in global, economic, environmental, and social contexts. |
| L2: Analyzes ethical and professional responsibilities in engineering situations and makes informed judgments to determine the impact of engineering in global, economic, environmental, and social contexts. |
| L3: Assesses ethical and professional responsibilities in engineering situations and makes informed judgments to determine the impact of engineering in global, economic, environmental, and social contexts. |
| **PLO5: Running on a computer** |
| L1: Understands resources and tools for environmental engineering, taking into account the theoretical foundations of citizen participation and social conflicts, to lead teams that create a collaborative and inclusive environment. |
| L2: Apply resources and tools for environmental engineering, taking into account the theoretical foundations of citizen participation and social conflicts, to lead teams that create a collaborative and inclusive environment. |
| L3: Creates resources and tools for environmental engineering, taking into account the theoretical foundations of citizen participation and social conflicts, to lead teams that create a collaborative and inclusive environment. |
| **PLO6: Develop and carry out experimentation** |
| L1: Identifies his/her participation in experimental processes, as an individual, member or leader of diverse teams for the solution of environmental engineering problems, committing to ethics, professional responsibilities and standards of professional practice. |
| L2: Participates in experimental processes, as an individual, member or leader of diverse teams for the solution of environmental engineering problems, committing to ethics, professional responsibilities and standards of professional practice. |
| L3: Values your participation in experimental processes, as an individual, member, or leader of diverse teams for the solution of environmental engineering problems, committing to ethics, professional responsibilities, and standards of professional practice. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Environmental Engineering**

## Food Industry Engineering

**Duration of Program: 206 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Food Industry Engineering**

**Professional Title: Food Industry Engineer**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic objectives

The academic objective(s) of the FOOD INDUSTRY ENGINEERING program at San Ignacio de Loyola University is (are) to train professionals capable of developing and optimizing industrial processes of food transformation, using conventional thermal and non-thermal technologies, as well as biotechnology, prioritizing quality and safety:

- The academic program trains professionals capable of developing and optimizing industrial processes of food transformation, using conventional thermal and non-thermal technologies, in addition, to biotechnology, prioritizing quality and safety.
- The academic program trains professionals capable of leading multidisciplinary projects in food engineering, under an open innovation approach, i.e. in the business environment, universities, research centers in Peru and the world.
- The academic program trains professionals capable of managing companies efficiently, innovating in the development of new products, optimizing their sensory and nutritional quality, safety, shelf life, packaging and convenience of use.
- The academic program trains professionals capable of researching, developing and innovating new food products and packaging, under a focus on food of the future, promoting cooperative practices in an environment of social and environmental responsibility and ethical conduct.
- The academic program trains professionals capable of using engineering tools, computational simulation and economic evaluation of production processes to develop new applications for the food industry and produce on a large scale.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Engineering Knowledge** |
|---|
| L1: Identifies knowledge of food engineering and other related disciplines that can be applied in solving problems, meeting the requirements of the environment. |
| L2: Understands knowledge of food engineering and other related disciplines that can be applied in solving problems, meeting the requirements of their environment. |
| L3: Applies knowledge of food engineering and other related disciplines in problem solving, complying with the requirements of the environment. |
| **PLO2: Solving Engineering Problems in Food Industries** |
| L1: Identify products, packaging or processes that allow solving complex engineering problems in food industries and other relevant disciplines in the domain of the program, managing to |

| |
|---|
| satisfy their requirements. |
| L2: Design products, packaging or processes based on research that allow solving complex engineering problems in food industries and other relevant disciplines in the domain of the program, managing to satisfy their requirements. |
| L3: Develops products, packaging or processes based on research that allow solving complex engineering problems in food industries and other relevant disciplines in the domain of the program, managing to satisfy their requirements. |
| **PLO3: Use of modern tools in food industry engineering** |
| L1: Recognizes the need to select, adapt, create, and apply modern techniques, resources, and tools for the practice of Engineering in Food Industries, understanding their scope and limitations in problem solving. |
| L2: Selects, adapts modern techniques, resources and tools for the practice of Engineering in Food Industries, understanding their scope and limitations in problem solving. |
| L3: Creates, applies modern techniques, resources and tools for the practice of Engineering in Food Industries, understanding their scope and limitations in problem solving. |
| **PLO4: Participation and Leadership** |
| L1: Identifies his/her role in food industry projects, as an individual, member, or leader of diverse teams for the solution of Food Industry Engineering problems, committing to ethics, professional responsibilities, and standards of professional practice. |
| L2: Participates in food industry projects, as an individual, member, or leader of diverse teams for the solution of Food Industry Engineering problems, committing to ethics, professional responsibilities, and standards of professional practice. |
| L3: Values your participation in food industry projects, as an individual, member, or leader of diverse teams for the solution of Food Industry Engineering problems, committing to ethics, professional responsibilities, and standards of professional practice. |
| **PLO5: Continuous Learning in Engineering in Food Industries** |
| L1: Recognises the need to develop lifelong autonomous learning to face technological changes in Food Industry Engineering, which allows them to achieve continuous academic and professional development. |
| L2: Has the ability to develop permanent autonomous learning to face technological changes in engineering in food industries, which allows them to achieve continuous academic and professional development. |
| L3: Evaluates the implications of developing permanent autonomous learning to face technological changes in Food Industry Engineering, which allows them to achieve continuous academic and professional development. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

## Industrial and Commercial Engineering

**Duration of Program: 206 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Industrial and Commercial Engineering**

**Professional Title: Industrial and Commercial Engineer**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos1.0 5.2022.pdf

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic objectives

The Industrial and Commercial Engineering program of the Universidad San Ignacio de Loyola has as its academic objective(s):

- To train leading and innovative professionals with decision-making capacity in the financial, administrative, productive and operations business management environment who employ, with global vision, business management tools oriented to satisfy present and future demands of society.
- To train professionals who promote and commit themselves to good practices in industrial safety and environmental management to minimize occupational risks and environmental impact.
- To train professionals who build cooperative practices in their teamwork and effective communication in their environment with a conduct based on ethical behavior committed to a culture of entrepreneurship, social responsibility and industrial sustainability in compliance with the objectives of sustainable development.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Solving Complex Problems in Engineering** |
|---|
| L1: Identifies complex engineering problems by applying principles of engineering, science, and mathematics to meet a societal need. |
| L2: Formulates complex engineering problems by applying principles of engineering, science, and mathematics, including data analytics to meet a societal need. |
| L3: Solve complex engineering problems by applying principles of engineering, science, and mathematics, including data analytics, simulation, and modeling to meet a societal need. |
| **PLO2: Engineering Experimentation and Design** |
| L1: Proposes an engineering design to produce solutions that meet specific needs taking into account public health, safety, and welfare. |
| L2: Executes engineering design to produce solutions that meet specific needs taking into account public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors. |
| L3: Applies engineering design to produce solutions that meet specific needs taking into account public health, safety and welfare, as well as global, cultural, social, environmental and economic factors, considering international standards and management systems. |

| |
|---|
| **PLO3: Use of modern tools and continuous learning in engineering.** |
| L1: Learn about new engineering tools and propose continuous improvement solutions for the optimization of resources within an organization, taking into account the nature of the context. |
| L2: Evaluates new engineering tools and proposes continuous improvement solutions for the optimization of resources within an organization, using appropriate learning strategies and information technology resources. |
| L3: Applies new engineering tools and proposes continuous improvement solutions for the optimization of resources within an organization, using appropriate learning strategies and information technology resources. |
| **PLO4: Industrial Assessment on Circular Economy** |
| L1: Knows ethical and professional responsibilities in engineering situations and issues reports, which must consider the impact of engineering solutions in global, economic, environmental and social contexts. |
| L2: Understands ethical and professional responsibilities in engineering situations and makes informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and social contexts. It includes sectoral regulatory aspects and management systems. |
| L3: Applies ethical and professional responsibilities in engineering situations and makes informed judgments, evaluating circular economies through a systems approach with analysis of methodologies and policies at the national level. |
| **PLO5: Participation and Leadership in Engineering** |
| L1: Seeks to function effectively in a team whose members together provide leadership by creating a collaborative and inclusive environment to plan tasks and meet objectives in innovation processes, creating a collaborative and inclusive environment. |
| L2: Demonstrates your ability to work in a team whose members together provide leadership, creating a collaborative and inclusive environment, to set goals, plan tasks, and meet short-, medium, and long-term objectives. |
| L3: Effectively lead work teams within a multidisciplinary context to plan tasks and meet objectives in innovation processes, creating a collaborative and inclusive environment. |
| **PLO6: Data analysis for decision-making** |
| L1: Recognises the elements needed to bridge the gap between societal needs and the accessibility of analytical models and tools by seizing the opportunity to use data to improve decision-making in the industrial and commercial sector. |
| L2: Employs the necessary elements to bridge the gap between the needs of society and the accessibility of analytical models and tools by taking advantage of the opportunity to use data to improve decision-making, establishing workflows and interdependence of elements within an industrial and commercial process. |
| L3: Assesses the elements needed to bridge the gap between societal needs and the accessibility of analytical models and tools by seizing the opportunity to use data to improve decision-making and applies analytics to the industrial and commercial sector. |

### Internships

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Industrial and Commercial Engineering**

## Industrial Engineering

**Duration of Program: 201 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Industrial Engineering**

**Professional Title: Industrial Engineer**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic objectives

The Industrial Engineering program at San Ignacio de Loyola University has the following academic objective(s):

- To train professional leaders in corporate management and prepared for assertive decision making with the ability to manage the processes and operations of the organization.
- To prepare professionals for the design and evaluation of integrated systems oriented to the optimization of work methods.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Process Efficiency** |
|---|
| L1: Recognizes the processes of an organization, identifying those used in the production and marketing of goods and services, in order to have a comprehensive vision of the company. |
| L2: Analyzes the processes used in the production and marketing of goods and services, using the planning methodology, to implement opportunities for improvement. |
| L3: Plans and organizes the processes of production and marketing of goods and services, in order to obtain efficiency and effectiveness, so that the organization achieves its objectives. |
| **PLO2: Production Operations** |
| L1: Identify the company's production operations using industrial engineering tools to have a comprehensive view of processes and understand how they work. |
| L2: Organizes the company's production operations using industrial engineering tools, to improve the company's productivity in the domestic and international market. |
| L3: Executes and monitors the company's production operations using resources efficiently to conserve the environment and the interests of the society where it operates. |
| **PLO3: Project Management** |
| L1: Identify the activities that are executed in the projects taking into account the stages of the life cycle of a project as well as the time and costs budgeted, to know the global scope of each project of the company. |
| L2: Analyzes the company's project activities using current project management and control techniques in order to generate a higher level of certainty in the implementation of projects. |
| L3: Manages the company's projects, aligning them with organizational strategies, to achieve the proposed goals and increase its level of competitiveness. |

### Internships for Undergraduate Programs for Working Adults

Students are exempt of this requirement due to the nature of the program.

**Curriculum: Industrial Engineering**

| CYCLE | COURSE NUMBER | COURSE TITLE | COURSE TYPE | TOTAL COURSE CREDIT/ CLOCK HOURS |

## Information Systems Engineering

**Duration of Program: 210 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Information Systems Engineering**

**Professional Title: Information Systems Engineer**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos1.0 5.2022.pdf

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic objectives

The study program of Information Systems Engineering at San Ignacio de Loyola University has as its academic objective(s):

- To train professionals with the skills and competencies required to implement an Information System in a Business Management environment with application in various sectors such as: mass consumption, health, transportation, construction, agriculture, environment, telecommunications, entertainment, among others, in public or private Institutions, profit or non-profit, in a globalized world, connected to the Internet.

### Program Learning Outcomes (PLO) by Level

| **PLO1. Knowledge of Information Systems** |
|---|
| L1: Identifies information systems within a business management environment, production sectors or scientific research. |
| L2: Analyzes information systems within a business management environment, production sectors or scientific research. |
| L3: Evaluates information systems within a business management environment, production sectors or scientific research. |
| **PLO2. Troubleshooting** |
| L1: Identifies the appropriate information systems requirements for the design of comprehensive solutions in a global context. |
| L2: Analyzes the appropriate information systems requirements for the design and construction of comprehensive solutions in a global context. |
| L3: Assesses the appropriate information systems requirements for the design, construction and implementation of comprehensive solutions in a global context. |
| **PLO3. Impact of Information Systems** |
| L1: Recognises the impact of information technologies on the sustainability of the environment, people, organisations and society. |
| L2: Analyses the impact of information technologies on the sustainability of the environment, people, organisations and society. |
| L3: Evaluates the impact of information technologies on the sustainability of the environment, people, organizations and society. |

| **PLO4. Use of Modern Tools** |
|---|
| L1: Identify entrepreneurship proposals based on information technologies that generate value for the user, organizations or society. |
| L2: Analyzes entrepreneurship proposals based on information technologies that generate value for the user, organizations or society. |
| L3: Design and evaluate entrepreneurship proposals based on information technologies that generate value for the user, organizations or society. |
| **PLO5. Participation & Leadership** |
| L1: Identifies the need for lifelong professional development in order to address it in the broader context of technological change. |
| L2: Analyzes lifelong professional development and the ability to address it in the broader context of technological change. |
| L3: Values lifelong professional development and the ability to address it in the broader context of technological change. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Information Systems Engineering**

| CYCLE | COURSE NUMBER | COURSE TITLE | COURSE TYPE | TOTAL, COURSE CREDIT/ CLOCK HOURS |
|---|---|---|---|---|
| 1 | SFW52042 | FUNDAMENTALS OF PROGRAMMING (FUNDAMENTOS DE PROGRAMACIÓN) | Core/Required | 3 |

## Mechatronics Engineering

**Duration of Program: 208 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Mechatronics Engineering**

**Professional Title: Mechatronics Engineer**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic objectives

The Mechatronic Engineering program at San Ignacio de Loyola University has as its academic objective(s):

- The Mechatronics Engineering program trains competent professionals who identify problems in the technological field, and propose technological solutions, to make improvements in industry and society.
- The Mechatronics Engineering program trains competent professionals who design and implement automatic systems of medium complexity considering technological, economic, social, cultural and environmental factors.
- The Mechatronics Engineering program trains competent professionals who identify and select the components involved in the automatic control loop, instrumentation and industrial control.
- The Mechatronics Engineering program trains competent professionals capable of leading work teams focusing on the fulfillment of objectives.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Analysis and Problem Solving LEVEL OF THE OUTCOME** |
|---|
| L1: Understands engineering problems by identifying their local and global impact, proposing possible solutions at an initial engineering level. |
| L2: Analyzes advanced engineering problems, identifies their local and global impact, and defines the appropriate mechatronic requirements for their solution. |
| L3: Analyzes and solves advanced engineering problems, identifying their local and global impact, and defining appropriate mechatronic requirements to be used in the development of a mechatronic system that provides the desired solution. |
| **PLO2: Multidisciplinary Teamwork in Engineering** |
| L1: Identify the main roles of multidisciplinary teamwork, to contribute to the solution of engineering problems. |
| L2: Participates effectively in multidisciplinary teams to meet a common goal by communicating effectively with diverse audiences. |
| L3: Effectively leads multidisciplinary work teams to meet a common goal by communicating effectively with diverse audiences and performing effectively. |

| PLO3: Professional Ethics |
|---|
| L1: Correctly identifies the professional, ethical, legal, and safety implications for performing professionally. |
| L2: Has a good understanding of professional, ethical, legal and safety implications, with the ability to apply ethical principles and commit to professional ethics and engineering responsibilities. |
| L3: Correctly assumes the professional, ethical, legal, safety and social implications of the profession, with the ability to apply ethical principles and commit to professional ethics and the responsibilities and standards of engineering practice. |
| **PLO4: Mathematical Modeling** |
| L1: Recognizes the mathematical underpinnings for the design of mechatronic systems so that they demonstrate an understanding of the advantages and disadvantages involved in design choices, but cannot yet be transformed into technological ventures. |
| L2: Understand the mathematical fundamentals for the design of mechatronic systems, automation and control, so that they demonstrate an understanding of the advantages and disadvantages involved in design choices and that can be transformed into technological ventures. |
| L3: Applies mathematical fundamentals, algorithmic principles, and modeling theory to the design of mechatronic systems, automation, and control, so that they demonstrate an understanding of the advantages and disadvantages involved in design choices and that can be transformed into technological ventures. |
| **PLO5: Development of mechatronic systems** |
| L1: Identify research principles in the area of mechatronic engineering with levels of local competitiveness, to apply them in the development of basic mechatronic systems. |
| L2: Understands the principles of research in the area of mechatronic engineering to apply them in the development of advanced mechatronic systems, taking into account the levels of international competitiveness. |
| L3: Develops research principles in the area of mechatronic engineering, for the development of advanced mechatronic systems, putting technology at the service of human beings. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

## Software Engineering

**Duration of Program: 209 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Software Engineering**

**Professional Title: Software Engineer**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic objectives

The academic objective(s) of the SOFTWARE ENGINEERING program at San Ignacio de Loyola University is (are) the following:

- To train professionals with the required competencies and skills of Engineering to undertake and manage projects based on Software development in an environment of research and innovation at a multisectorial level being socially responsible, committed to their country, with professional ethics and that allows them to lead global projects with multidisciplinary teams.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Requirements Management** |
|---|
| L1: Defines the customer's needs and identifies software requirements to generate innovative solutions by optimizing technological resources, human capital, cost and time. |
| L2: Analyzes the needs of the client and the environment and identifies the software requirements to generate innovative solutions optimizing technological resources, human capital, cost and time. |
| L3: Evaluates the needs of the client and the environment and identifies the software requirements to generate comprehensive and innovative solutions optimizing technological resources, human capital, cost and time. |
| **PLO2: Solution Development** |
| L1: Recognizes research topics, methodologies, techniques and best practices of Software Engineering for the construction of solutions based on the Software life cycle. |
| L2: Defines research topics, methodologies, techniques and best practices of Software Engineering for the construction of solutions based on the Software life cycle. |
| L3: Apply research topics, methodologies, techniques and best practices of Software Engineering to build solutions based on the Software life cycle. |
| **PLO3: Teamwork** |
| L1: Participates in multidisciplinary work teams in global environments in order to ensure the quality of software, configurations, regulations and metrics. |
| L2: Cooperate in multidisciplinary work teams in global environments in order to ensure software quality, applying standards, configurations, regulations and metrics. |

| |
|---|
| L3: Leads projects in multidisciplinary teams in global environments in order to ensure software quality, applying standards, configurations, regulations and metrics. |
| **PLO4: Development under standards and good practices** |
| L1: Applies software solutions in accordance with information security standards and policies in one or more application domains, being socially responsible and demonstrating professional ethics. |
| L2: Analyzes software solutions according to information security standards and policies in one or more application domains, being socially responsible and demonstrating professional ethics. |
| L3: Design software solutions in accordance with information security standards and policies in one or more application domains, being socially responsible and demonstrating professional ethics. |
| **PLO5: Professional Development** |
| L1: Identifies the need for lifelong professional development in order to address it in the broader context of technological change. |
| L2: Analyzes lifelong professional development and the ability to address it in the broader context of technological change. |
| L3: Values lifelong professional development and the ability to address it in the broader context of technological change. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Software Engineering**

## Data Science

**Duration of Program: 215 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Data Science**

**Professional Title: Data Science Engineer**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic objectives

- OA1: The Data Science program trains professionals capable of performing the acquisition, cleaning and exploratory, predictive and prescriptive analysis of data in order to generate significant knowledge that responds to the needs of the different sectors of the industry.
- OA2: The Data Science program trains professionals capable of investigating and providing solutions to complex problems that in a context of high uncertainty allow predictive modeling, optimization of decision making and reduce the impact of variability in business environments and the public sector.
- OA3: The Data Science program trains professionals capable of innovatively improving processes in organizations of different productive sectors, based on the application of methodologies and tools for the generation of data models, based on mathematics and computer science.
- OA4: The Data Science program trains professionals capable of applying methodologies and tools for the development of data processing models, securing and protecting data when generating, analyzing and disseminating them, according to appropriate ethical value judgments.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Data Science Skills** |
|---|
| L1: Identify knowledge of data science and other related disciplines that can be applied in problem solving, meeting the requirements of the environment. |
| L2: Understands knowledge of data science and other related disciplines that can be applied in solving problems, meeting the requirements of their environment. |
| L3: Applies knowledge of data science and other related disciplines in problem solving, complying with the requirements of the environment. |
| **PLO2: Data Science Troubleshooting** |
| L1: Identify systems, components, or processes that allow solving complex problems in data science and other relevant disciplines in the program's domain, meeting their requirements. |
| L2: Designs systems, components, or processes based on research to solve complex problems in data science and other relevant disciplines in the program's domain, meeting their requirements. |

| |
|---|
| L3: Develops systems, components, or processes based on research to solve complex problems in data science and other relevant disciplines in the program's domain, meeting their requirements. |
| **PLO3: Use of Modern Tools in Data Science** |
| L1: Recognizes the need to select, adapt, create, and apply modern techniques, resources, and tools to the practice of data science, understanding their scope and limitations in problem solving. |
| L2: Selects, adapts modern techniques, resources, and tools for data science practice, understanding their scope and limitations in problem solving. |
| L3: Creates, applies modern techniques, resources, and tools to data science practice, understanding its scope and limitations in problem solving. |
| **PLO4: Participation and Leadership** |
| L1: Identifies your role in data science projects, as an individual, member, or leader of diverse teams for solving data science problems, committing to ethics, professional responsibilities, and standards of professional practice. |
| L2: Participates in data science projects, as an individual, member, or leader of diverse teams for the solution of data science problems, committing to ethics, professional responsibilities, and standards of professional practice. |
| L3: Values your participation in data science projects, as an individual, member, or leader of diverse teams for data science problem solving, committing to ethics, professional responsibilities, and standards of professional practice. |
| **PLO5: Continuous Learning in Data Science** |
| L1: Recognises the need to develop lifelong autonomous learning to cope with technological changes in data science, which allows them to achieve continuous academic development. |
| L2: Has the ability to develop lifelong autonomous learning to face technological changes in data science, which allows them to achieve continuous academic development. |
| L3: Evaluates the implications of developing lifelong autonomous learning to face technological changes in data science, which allows them to achieve continuous academic development. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

## College of Hospitality Management, Tourism and Gastronomy

## Culinary Arts

**Duration of Program: 201 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Culinary Arts**

**Professional Title: Licentiate in Culinary Arts**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

### Academic Objectives

The academic objective(s) of the Culinary Art study program at San Ignacio de Loyola University is (are):

- To train highly technical professionals with international standards to profitably manage a food production establishment, satisfying the requirements of the target public in quality, health and nutrition.
- To train professionals capable of leading, motivating and guiding their collaborators with ethical and moral values.
- To train professionals capable of accessing global job offers thanks to their bilingual training associated with creating and managing events, menus and professional consulting.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Management of culinary techniques** |
|---|
| L1: Recognizes the basic tools and inputs to be used and theoretical-methodological aspects of food health and hygiene and basic notions of nutritional balance. |
| L2: Makes pertinent use of tools and supplies under international standards of food health and hygiene and nutritional balance. |
| L3: Develops and applies culinary techniques in the creation of alternatives for the gastronomic offer, considering high health and nutritional standards. |
| **PLO2: Leadership in the Culinary Field** |
| L1: Identify the processes in food production considering the mission and vision of the organization in which it works. |
| L2: Design diversified processes in food production, involving the entire organization. |
| L3: Directs the food production department of the company in which he/she works or the business he/she undertakes, based on professional ethics and social responsibility. |
| **PLO3: Culinary creativity and innovation** |
| L1: Identifies and expresses basic sensory practices using the organoleptic senses to obtain pertinent notions in the recognition of elements and their potential use. |
| L2: Applies intermediate-level sensory practices using the organoleptic senses to encourage their creativity in the testing and development of novel gastronomic proposals. |
| L3: Create sensory experiences in the customer using the organoleptic senses to generate |

| |
|---|
| new taste trends according to current and future preferences of the sector. |
| **PLO4: Optimization in the production of culinary businesses** |
| L1: Locate and name the different areas of food production and their respective functions to recognize them in the real field for efficient management in the future. |
| L2: Relevant programming of the food production area to maintain an adequate and optimal order in accordance with the requirements of the gastronomic business. |
| L3: Manages and improves the productivity of a food production area through the evaluation and control of supplies to optimize the use of resources in both inputs and equipment in favor of higher profit margins of the business, according to its guidelines. |
| **PLO5: Networking in the culinary sector** |
| L1: Interprets, understands, and applies knowledge in the creation of strategic alliances, basing proposals for culinary concepts to keep them in mind to conceptualize ideas for the future, in which this dynamic is useful. |
| L2: Interprets, understands, and applies the knowledge acquired in the creation of strategic alliances, basing proposals of culinary concepts to be able to apply them in the future in the labor field, contributing to their range of professional possibilities. |
| L3: Proposes strategic alliances based on proposals for innovative culinary concepts, with ideas that together serve as the axis to continue the evolution of the gastronomic sector. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Culinary Arts**

## Tourism Administration

**Duration of Program: 203 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Tourism Administration**

**Professional Title: Licentiate in Tourism Administration**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The Academic Program in Tourism Management at USIL has as its academic objective to train professionals capable of creating and managing sustainable tourism businesses and projects, with expertise in planning and destination management, as well as the development of competitive and innovative tourism products and services.

### Program Learning Outcomes (PLO) by Level

| |
|---|
| **PLO1: Management of tourism companies and services** |
| L1: Recognizes the basic concepts and processes of administration applied to tourism services considering local and national development. |
| L2: Organizes the necessary resources for the innovative management of tourism companies and services, considering the quality standards of services. |
| L3: Manages tourism companies and services with high quality standards for private and public organizations at the national and international level. |
| **PLO2: Management of sustainable tourism projects** |
| L1: Recognizes the tourism potential of destinations, considering the new and changing needs of tourism demand. |
| L2: Explain the advantages of applying sustainability criteria to develop tourism projects considering the Sustainable Development Goals. |
| L3: Develops and manages innovative and competitive tourism projects that guarantee the sustainability of the tourism sector and that meet the expectations of a certain segment of current or potential demand, applying tourism planning tools and having the ability to present and support them in a clear and professional manner. |
| **PLO3: Strategic design of tourism plans** |
| L1: Recognizes the logic, procedures, necessity, and usefulness of tourism planning, to achieve local development and design a market strategy, considering the national and international context. |
| L2: Explains the stages of tourism planning, for a correct formulation of tourism projects that allow the local development of tourist destinations, considering international management models. |
| L3: Design and implement strategic, tactical, and operational tourism marketing plans with a forward-looking vision of the sector for the national and international context. |

| |
|---|
| **PLO4: Development of management strategies for the tourism sector** |
| L1: Identifies the heritage values of tourism resources that are likely to attract tourist flows, considering local and national development. |
| L2: Explains how a tourist destination should be consolidated and developed, considering a clear diagnosis and analysis of its potential. |
| L3: Develops and implements tourism destination management strategies that contribute to the use and conservation of tourism heritage, local development, and sustainability in tourism. |
| **PLO5: Bilingual proficiency in sustaining tourism projects** |
| L1: Identify the various management models for the optimal development of tourist destinations, considering the resources and demands of the global market. |
| L2: Structure coherent, effective, and contextualized tourism proposals to promote tourism projects considering the national and international context. |
| L3: Proposes and argues tourism proposals, with bilingual proficiency, in national and international forums. |
| **PLO6: Development of consultancy projects for the tourism sector.** |
| L1: Identify the needs for improvement in companies and organizations to develop a tourism diagnosis at a local, national, and international level. |
| L2: Uses notions of planning, management, and marketing to recognize processes and identify shortcomings in the development and management of tourism companies and organizations. |
| L3: Develops consulting projects in which it uses planning, management, and marketing tools to help private and public tourism organizations at the national and international level in the most efficient and effective way possible. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Tourism Administration**

## College of Health Sciences

## Nutrition and Dietetics

**Duration of Program: 220 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Nutrition and Dietetics**

**Professional Title: Licentiate in Nutrition and Dietetics**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

For professional practice, whether in public and/or private entities, as well as for the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The Nutrition and Dietetics program of study at San Ignacio de Loyola University has as its academic objective(s):

- OB1. Design and implement health promotion and prevention programs to promote the adoption of healthy lifestyles in the population and prevent nutritional food problems, contributing to sustainable development.
- OB2. Optimize and carry out the process of nutritional care in healthy and sick individuals in the different stages of the life cycle, seeking to improve their health and nutritional status.
- OB3. Research and innovate food products and services according to new scientific and technological advances, participating with multidisciplinary teams at national and international level.
- OB4. Manage and design business projects and services in food and nutrition, seeking to improve the quality of life of the population served.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Public Nutrition** |
|---|
| L1: Identifies problems related to the food-nutritional situation and recognises tools for the development of social projects that positively modify it. |
| L2: Formula for alternative solutions to food-nutritional problems related to prevention and health promotion to improve nutritional status and social development at the individual and/or population level. |
| L3: Designs and executes health promotion and prevention programs, in addition to food-nutritional problems, with social responsibility, guiding individuals and populations in the adoption of healthy lifestyles, with cultural relevance and effective communication, integrating in multi and interdisciplinary teams, national and international, seeking to contribute to the sustainable development and better quality of life of the populations |
| **PLO 2: Clinical and Sports Nutrition** |
| L1: Understands the bases of physiological, chemical-biological processes and the nutritional value of foods for their adequate use in the nutritional requirement of healthy and sick people |

| |
|---|
| and athletes. |
| L2: Develops the process of nutritional care in healthy and sick individuals in the different stages of the life cycle and in athletes, demonstrating ethical behavior and empathetic treatment, achieving an optimal state of health and nutrition. |
| L3: Manages the process of nutritional care in healthy and sick individuals in the different stages of the life cycle and in athletes, to prevent, recover, maintain an optimal nutritional status and achieve the best performance, demonstrating ethical procedure, empathetic treatment, effective communication and based on scientific evidence. |
| **PLO3: Food and Research** |
| L1: identifies the tools for searching for information and scientific communication on food, nutrition, and health to formulate research, as well as knowing the nutritional composition of foods and the factors associated with their safety. |
| L2: Design research projects related to food, nutrition, or health, applying the scientific method with ethics and responsibility, integrating multidisciplinary teams to contribute to people's well-being |
| L3: Researches and innovates food products and services according to new scientific and technological advances, participating together with national and international multidisciplinary teams to contribute to providing healthy alternatives that improve people's quality of life and health. |
| **PLO4: Nutrition Management** |
| L1: Identifies the management tools necessary for the design of economically viable enterprises related to production and services in food and nutrition. |
| L2: Analyzes the concepts and administrative tools of planning, organization, communication, and control that allow the rational use of financial, material, and human resources. |
| L3: Manages and designs business projects and services in food and nutrition, seeking the best quality of life for the population served, with efficiency and responsibility, considering cultural, social and economic patterns under national and international quality standards. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

## Physical Education and Sports Science

**Duration of Program: 207 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Physical Education and Sports Science**

**Professional Title: Licentiate in Physical Education and Sports Science**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

### Academic Objectives

The academic program of Physical Education and Sports Science of the Universidad San Ignacio de Loyola is oriented to consolidate professionals with a high sense of social commitment, with ethical, humanistic, scientific and technological principles that allow them to design, organize, implement and evaluate work programs that respond to the needs of prevention and access to health in its bio-psycho- social dimension, the strengthening of the national sports system and the institutional and commercial management of sport, through: the promotion, dissemination and massification of physical sports activities, the organization and administration of institutions for the selection, detection and training of talent at the sports level and the strategic planning of local, regional, national and international sports management.

### Program Learning Outcomes (PLO) by Level

| |
|---|
| **PLO1: Promotion of Healthy Physical Activity** |
| L1: Know the basic principles of the sciences applied to physical activity and sport and the physical, psychological and social benefits of the systematic practice of physical sports and recreational activities |
| L2: Uses strategies and methodologies for the monitoring and control of physical activity respecting the anatomical, physiological, and biomechanical principles of the different fields of physical activity and sport. |
| L3: Develops projects in the area of physical activity and health, to contribute to forming lasting habits in the systematic practice of physical sports and recreational activities and to promote the benefits of healthy eating to improve the quality of life. |
| **PLO2: Educational intervention through Physical Activity and Sport** |
| L1: Describes the basic fundamentals of physical activity and sport for the psychomotor development of the human being, using the recreational and recreational component of sport and physical activity as tools. |
| L2: Master the technical and tactical aspects of individual and team sports for the measurement and evaluation of sports physical development. |
| L3: Plans a healthy lifestyle among the country's population through regular, massive practice and values of sport, physical education and recreation, for training and talent detection within the framework of the conception of sport as part of the national development strategy. |
| **PLO3: Resource Management in Physical Activity and Sport** |
| L1: Know the structure and organization of the sports system at local, regional and national level, and the use, maintenance and hygiene of sports spaces and equipment |

| |
|---|
| L2: Proposes marketing strategies in the field of sports for the administration and management of sports entities. |
| L3: Plan methods and procedures in the management and administrative area of the material, technological and human components of sports companies and organizations. |
| **PLO4: Sports Training Planning** |
| L1: Describes the basic fundamentals of physical preparation and recognises the methodology of sports training for beginner and level sport. |
| L2: Proposes strategies for the planning of sports training and carries out methods of measurement and evaluation of physical development |
| L3: Develops methodology and processes for planning, control and evaluation of physical preparation in different areas of application in order to optimize sports performance. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Medicine**

**Professional Title: Medical Degree**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

For professional practice and the signing of official documents, it is required to be an active member of the *Colegio Médico del Perú* CMP * *(*Peruvian College of Physicians)

To register as a Surgeon, you must meet the requirements of the Medical College and Professional Ability (Peruvian College of Physicians) *

- Have the professional title of surgeon issued, (or this title plus registration with SUNEDU, for cases of foreigners or studies carried out abroad).
- Prove having passed the Examen Nacional de Medicina (ENAM) ** (National Quiz of Medicine).
- The minimum passing grade is 11 (eleven) on the vigesimal scale.
- Current judicial certificate of not having a criminal record.
- Simple copy of the DNI.
- Complete forms granted by the CMP (Peruvian College of Physicians).
- Two passport photos.
- Receipt of deposit for tuition fees.

### Academic objectives

The study program of MEDICINE of the Universidad San Ignacio de Loyola has as its academic objective(s):

To train professionals in human medicine to contribute to meet the health needs of the Peruvian population, in correspondence with state policies and international commitments of the country, developing their skills for comprehensive care, promoting health, preventing, diagnosing and treating disease, rehabilitating the population with deep humanism and ethics , evidencing professionalism, leadership, competitiveness, entrepreneurship, innovative spirit and research, commitment to sustainable development of the country and social responsibility; that deploy their potential to perform effectively in the institutions of the Peruvian health system and in the field of international health.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Medical Clinical Function** |
| --- |
| L1: Recognizes the levels of structural organization of the human body and the basic vital processes in different body systems to identify the state of homeostasis and feedback systems in state of health and disease according to current scientific knowledge. |

| |
|---|
| L2: Understands the structure and function of the human organism in a state of disease with the capacity for analysis and synthesis, integrating diagnostic and therapeutic elements with clinical reasoning for the resolution of problems in accordance with local and international clinical practice guidelines. |
| L3: Carries out clinical and surgical practice with professional and ethical efficiency through diagnosis, recovery, and rehabilitation of the person's health in the face of the presence of damage or disease, taking into account the epidemiological profile of the population, the socio-sanitary conditions and determinants of health. |
| **PLO2: Role in prevention and public health** |
| L1: Identifies the factors that determine the health of a population as a fundamental basis for health promotion and prevention in accordance with historical evolution and international concepts of public health. |
| L2: Applies and integrates concepts of public health and preventive medicine to establish prevention strategies at the individual and community levels according to established levels of prevention. |
| L3: Provides comprehensive, promotional and preventive health care, focused on the context of the family and community, acting on the determinants of health with the participation of the health team at the levels of government and civil society in general, prioritizing the search for the well-being of the patient and the community as the first objective. |
| **PLO3: Role in health promotion and education** |
| L1: Identifies the factors that promote healthy lifestyles, social, economic, environmental and personal factors that favor health in order to protect and increase it at the individual and collective level in accordance with current national health policies and international guidelines. |
| L2: Demonstrates skills in interpersonal relationships, as well as adequate oral and written communication, recognizing diversity and multiculturalism in order to promote health at the individual and collective levels in accordance with current national health policies and international guidelines. |
| L3: Provides training to professional and technical personnel of first-level public, social security and private health institutions, and health education programs of public and private institutions not linked to the health sector, as well as to patients, the community and the general population seeking the provision of highly qualified patient care. |
| **PLO4: Role in health management and entrepreneurship** |
| L1: Describes and recognizes the levels of organization of the health system in Peru and the levels of care in accordance with the general guidelines for its organization established by the Ministry of Health. |
| L2: Acquire skills in management, leadership and direction of organizational activities and resources, under the model of excellence of the European Foundation for Quality Management (EFQM) in health that contribute to an improvement of the health system. |
| L3: Manages first-level health services or public, social security, private and non-governmental networks, depending on the epidemiological profile and cultural preferences of the population, in stable and disaster situations, valuing teamwork and quality of care within the framework of national, sectoral, regional and local policies in force for an efficient management of health resources. |
| **PLO5: Role in Research** |
| L1: Identifies the fundamentals and essential characteristics of the scientific method in |

| |
|---|
| research, taking into account the quantitative and qualitative approaches to scientific research, as a basis for obtaining sources of scientific information. |
| L2: Uses different sources of scientific information to perform an analysis of evidence that helps in problem solving and decision-making by applying the methodology of Evidence-Based Medicine. |
| L3: Applies the science that underpins medical action with systematic rigor, seeking the best evidence and respect for bioethical principles, contributing to the solution of health problems for the benefit of society. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Medicine**

| CYCLE | COURSE NUMBER | COURSE TITLE | COURSE TYPE | TOTAL, COURSE CREDIT/CLOCK HOURS |
|---|---|---|---|---|
| 1 | MEH51003 | COMPREHENSIVE HEALTH CARE (ATENCIÓN INTEGRAL) | General Education | 3 |
| | PSI53016 | HUMAN DEVELOPMENT (DESARROLLO HUMANO) | General Education | 4 |

## Psychology

**Duration of Program: 223 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Psychology**

**Professional Title: Licentiate in Psychology**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The academic objective(s) of the Psychology program at San Ignacio de Loyola University is (are) the following:

- Develop competencies for the assessment, intervention and understanding of psychological processes and human behavior.
- To apply scientific knowledge and using valid procedures and techniques, in order to contribute to the permanent improvement of the quality of life, human development and social development of our country.
- Promote research based on the scientific method to solve current problems related to psychology.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Psychological Communication** |
|---|
| L1: Understands and produces written and oral psychological texts and discourses, demonstrating mastery of the dimensions of language, at phonological, syntactic, semantic and pragmatic levels, in their mother tongue. |
| L2: Understands and produces psychological texts and written discourses, demonstrating mastery of the dimensions of verbal and non-verbal language, in their mother tongue and in English. |
| L3: Manages the variables involved in the process of effective psychological communication, expressing the terms orally and in writing, both in their mother tongue and in English. |
| **PLO2: Psychological Conceptual Bases** |
| L1: Identifies the conceptual foundations of psychology as a science and relates them to theoretical approaches and their contributions to the discipline. |
| L2: Uses definitions linked to the theoretical approaches of psychology and relates them to different casuistry, proposing guiding strategies for the resolution of mental health problems. |
| L3: Reflects, analyzes, and understands the epistemological, theoretical, and conceptual bases of psychology; considering them as guiding pillars in the resolution of problems in their professional practice |
| **PLO3: Psychological Assessment and Diagnosis** |
| L1: Identify the evaluative and intervention processes related to different psychological phenomena, considering valid procedures and ethical principles specific to the discipline. |

| |
|---|
| L2: Evaluates and elaborates diagnostic assumptions about different psychological phenomena, considering valid procedures and ethical principles specific to the discipline. |
| L3: Evaluates, intervenes, explains and predicts the different psychological phenomena within their professional work, considering valid procedures and ethical principles of the discipline. |
| **PLO4: Psychological Research** |
| L1: Identifies research problems related to psychology, searches for and analyzes scientific information to substantiate them, recognizes the different methods for obtaining knowledge and the relevant analysis techniques for addressing them, respecting ethical standards. |
| L2: Interprets the results of psychological research based on empirical evidence and logical reasoning, applying valid research methods and analyzing the current state of knowledge, respecting ethical norms with responsibility and commitment to science. |
| L3: Poses and solves relevant research problems within the discipline of psychology based on the analysis of the current state of knowledge, addresses them using pertinent and valid methods for their resolution and shares their findings with the scientific community, following national and international ethical and communication standards. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Psychology**

## College of Communication

## Communications

**Duration of Program: 202 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Communications**

**Professional Title: Licentiate in Communications**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The Academic Communications Program has the academic objective of training professionals who evaluate and identify diverse communication scenarios in the public and private spheres, propose innovative communication strategies and plans that meet the present and future needs of these scenarios, and lead the development of effective communication products in a highly competitive and globalized world.

### Program Learning Outcomes (PLO) by Level

| |
|---|
| **PLO1: Development of communication products** |
| L1: Identify the different processes and means of communication, as well as their languages, products, and techniques. |
| L2: Develops communication products of an intermediate level of complexity, applying languages and techniques from different media and fulfilling specific roles. |
| L3: Develops communication products by applying languages and techniques from different media and fulfilling diverse roles in work teams. |
| **PLO2: Campaign Planning** |
| L1: Identify different social groups and their characteristics, as well as the various strategies used to address them. |
| L2: Carry out communication campaigns of an intermediate level of complexity, identifying their stages and results. |
| L3: Plan communication campaigns that respond effectively and creatively to the needs of different social groups. |
| **PLO3: Research with interdisciplinary methodologies** |
| L1: Know and identify the various theoretical frameworks applied to the evaluation of communication processes |
| L2: Evaluates communication processes in their different contexts based on theoretical frameworks, categories, and tools from humanistic disciplines. |
| L3: Develops research work in the field of Communications based on established theoretical frameworks and applying interdisciplinary methodologies. |

### Internships

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Communications**

## Communication and Advertising

**Duration of Program: 200 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Communication and Advertising**

**Professional Title: Licentiate in Communication and Advertising**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The academic objective(s) of the Communication and Advertising study program at San Ignacio de Loyola University is (are):

- To train professionals who wish to venture into and/or expand their knowledge in business communications in both the public and private spheres, by designing strategies, innovative communication and advertising plans that meet present needs, as well as those of the future. Without neglecting the digital component and research in communications.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Development of communication products** |
|---|
| L1: Identify the different processes and means of communication, as well as their languages, products, and techniques in order to build a logical and persuasive message to the public, taking into account the characteristics of each one. |
| L2: Develops communication and advertising products of an intermediate level of complexity in order to reach the right audience, applying languages and techniques from different media, and fulfilling specific roles. |
| L3: Develops communication and advertising products to achieve specific communication objectives, applying languages and techniques from different media and fulfilling diverse roles in work teams. |
| **PLO2: Campaign Planning** |
| L1: Identifies the various strategies (models, systems, tools, media plans) to address the various social groups using the theoretical foundations of communication. |
| L2: Carry out high-impact creative strategies and integrate them into the general advertising strategy in order to make them effective and appropriate through the correct use of resources, languages, and styles, identifying the stages and results of the planning process. |
| L3: Design and develop communication and advertising campaigns with the aim of generating profitability and creatively responding to the needs of different social groups. |
| **PLO3: Internal and external communication** |
| L1: Identify procedures and management techniques in internal and external communication to be able to manage the identity and image in any institution, taking into account the different roles and audiences. |
| L2: Solve corporate communication problems in a strategic and planned way in any context |

| |
|---|
| and sector to generate good communication and reputation taking into account the context, internal and external audiences, and tone of message to be developed. |
| L3: Develops communication and advertising management strategies to help meet the objectives of the strategic plan of the company or institution, taking into account the various stakeholders. |

**Internships for Working Adult Undergraduate Programs**

Students are exempt of this requirement due to the nature of the program.

**Curriculum: Communication and Advertising**

## College of Arts and Humanities

## Art and Design

**Duration of Program: 200 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Art and Design**

**Professional Title: Licentiate in Art and Design**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The study program of ART AND DESIGN at San Ignacio de Loyola University has the following academic objective(s):

- To train socially responsible designers capable of proposing solutions to various problems through innovative and creative proposals, using the resources at their disposal including technology and being able to solve various situations specific to their professional program.
- To form a professional of visual communication researcher by nature that uses various multidisciplinary tools to study, analyze and understand the various situations that he/she will face, proposing solutions from the point of view of design using technology and traditional methods.
- He is a human professional, sensitive to the various situations he will face in order to propose ethical solutions aimed at improving the quality of life and the search for the common good in a harmonious combination, concerned about the environment and sustainable development.
- He is a holistic professional, with a global view of the situation to be solved in order to then make various proposals for solutions specifically considering the diversification of the target audience such as culture, idiosyncrasy, identity, among others.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Creative and Innovative Design** |
|---|
| L1: Design solutions for simple problems in a creative and innovative way by carrying out an investigation of the problem, analysis of the data, requirement of the actors, conceptual proposal, and formalization of the design using all the information obtained, using various techniques and methods of design. |
| L2: Designs solutions for medium-complexity problems in a creative and innovative way by carrying out an investigation of the problem, analysis of the data, requirement of the actors, conceptual proposal, and formalization of the design using all the information obtained, using various techniques and methods of design. |
| L3: Designs solutions to complex problems in a creative and innovative way by conducting research of the problem, data analysis, stakeholder requirements, conceptual proposal, and |

| |
|---|
| formalization of the design using all the information obtained, using various techniques and methods of design. |
| **PLO 2: Research in Design with Ethical and Environmental Responsibility** |
| L1: Recognizes the theories, methods, and techniques of scientific research under ethical and environmental principles to meet the needs of the target audience. |
| L2: Creates creative and innovative designs taking into account the theories, methods and techniques of scientific research under ethical and environmental principles to meet the needs of the target audience. |
| L3: Creates creative and innovative designs taking into account the theories, methods and techniques of scientific research and arts-based research under ethical and environmental principles to meet the needs of the target audience. |
| **PLO 3: Relevant Visual Communication** |
| L1: Design a pertinent visual communication, using images according to the characteristics of the actors to be addressed so that they can feel identified and included in the communication. |
| L2: Design a pertinent visual communication, including the use of discourses and images according to the characteristics of the actors to be addressed so that they can feel identified and included in the communication, generating agency and becoming a target audience by taking action on the information received. |
| L3: Design a pertinent and efficient visual communication, including the construction of discourses and images according to the characteristics of the actors to be addressed so that they can feel identified and included in the communication, generating agency and becoming a target audience by taking action with respect to the information received. |
| **PLO4: Design Management** |
| L1: Organizes interdisciplinary groups to develop basic design projects, having the ability to organize a working group that includes various specialties oriented to the solution of problems and achieve the proposed communicational objectives. |
| L2: Organizes interdisciplinary groups to develop intermediate design projects, having the ability to organize a working group that includes various specialties oriented to the solution of problems and achieve the proposed communicational objectives. |
| L3: Manages interdisciplinary groups to develop complex design projects, having the ability to organize, select and lead a working group that includes various specialties aimed at solving problems and achieving the proposed communication objectives. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

**Curriculum: Art and Design**

## Music

**Duration of Program: 204 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree**1F[2]**: Bachelor's Degree in Music**

**Professional Title: Licentiate in Music**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for professional practice in public entities, it is required to have obtained the Professional Title.

### Academic Objectives

The Music Studies Program at San Ignacio de Loyola University has as its academic objective to train leading musicians with the ability to perform in a global and culturally diverse environment, developing their own musical style, creating musical ventures, projects in the music and entertainment industry, record productions, using new technologies and applying administrative science in a comprehensive and socially responsible manner.

### Program Learning Outcomes (PLO) by Level

| |
|---|
| **PLO1: Performance** |
| L1: Experience what it means to be in front of an audience playing their musical instrument for their stage development |
| L2: Gradually strengthens their artistic presence with interpretative demands in different scenic spaces to develop in a particular way |
| L3: Develops various techniques in the domain of the instrument for musical performance with high quality standards. |
| **PLO2: Artistic sensibility** |
| L1: Plays a musical instrument and knows music theory for its application in compositions. |
| L2: Broadens their musical knowledge in order to project specific emotions for the performance and composition process. |
| L3: Connects constructively with your emotions and those of your audience within the process of composing and performing music for various media and scenarios. |
| **PLO3: Handling audio technology** |
| L1: Understands a basic overview of the workings of the entertainment industry and its roles in generating new music. |
| L2: Get to know various equipment with specialized hardware and software and learn how to use them for different music productions. |
| L3: Produces music in various fields and media based on musical and electronic equipment of varying levels of complexity to disseminate it in the music industry. |
| **PLO4: Use of digital tools** |
| L1: Learn about virtual tools such as digital audio stations and specialized software for music |

[2] The Bachelor's degree is essential for work with the State, especially, related to music Teaching

| |
|---|
| production at an elementary level. |
| L2: Handles new technologies, music notation programs and digital audio stations regardless of musical style for diverse audiences. |
| L3: Applies new technologies, specialized hardware and software, and the internet in management, production and promotion to develop musical projects in different media. |
| **PLO5: Music Teaching** |
| L1: Acquires competencies through the development of projects that provide answers to real-life problems for the development of their musical life skills. |
| L2: Applies teaching-learning techniques for the academic training of students in the development of their musical skills as performers, composers and managers. |
| L3: Perform a master class applying various methods for the development of musical skills as a performer, composer and manager. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

## Law

**Duration of Program: 213 credits or 10 semesters**

**Method of Delivery: Hybrid**

**Academic Degree: Bachelor's Degree in Law**

**Professional Title: Lawyer**

In order to obtain the professional degree of the program, it is mandatory to first obtain the academic degree of bachelor and then the approval of a thesis or work of professional proficiency.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The academic objectives of the USIL Law program are the following:

- To shape professionals with critical thinking, legal reasoning, and the ability to interpret, reason and argue to solve legal problems, with a global and corporate approach to law.
- To shape professionals with a commitment to justice, social awareness, a sense of service and ethical virtues, who foster the resolution of problems assertively, effectively and with relationships of trust.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Critical Conception of Law** |
|---|
| L1: Interprets simple legal situations based on the regulations in force, distinguishing legal criteria from different interpretive proposals within the framework of the legal system. |
| L2: Judges complex legal situations considering the general principles of law for the purpose of evaluating their legality and coherence within the legal system. |
| L3: Supports legal solutions, integrating regulations, principles and constitutional values, based on human dignity, material justice and the nature of the case, contributing to just and sustainable decisions in the constitutional state. |
| **PLO2: Prudential Determination of Law** |
| L1: Relates regulations, institutions and principles of the legal system to concrete legal situations, establishing initial correspondence to understand their applicability in basic legal categories. |
| L2: Identifies legally relevant facts to classify them correctly, including them in a category of legal facts or acts, following an adequate theory of proof. |
| L3: Deliberates based on regulations, principles and institutions, integrating facts and law with prudential reasoning to determine fair and reasoned solutions in concrete cases. |
| **PLO3: Persuasive Legal Argument** |
| L1: Formulates structured prima facie legal arguments, using logical legal reasoning and legal categories, with formal correctness and clarity in written and oral expression. |
| L2: Supports legal positions in real or simulated disputes, employing discursive strategies, rules of argument and communication techniques to influence different actors of the legal system. |

| |
|---|
| L3: Rigorously and coherently defends complex legal positions before specialized audiences, integrating legal reasoning, constitutional principles and substantial justice criteria, for the purpose of persuading in deliberative, legal or regulatory contexts. |
| **PLO4: Ethical Virtues in Legal Practice** |
| L1: Recognizes ethical principles, professional virtues and deontological norms of legal practice, explaining their significance and value for a lawyer's personal and professional training. |
| L2: Demonstrates ethical conduct based on the study, analysis and resolution of ethical dilemmas in the profession, integrating moral virtues and deontological norms in his/her decisions and actions. |
| L3: Leads in the promotion of an ethical legal culture, taking public and professional positions coherent with the virtues of a lawyer: respect for human dignity and the requirements of the constitutional rule of law. |

**Internships**

Students must complete a minimum of six hundred (600) hours in any formative mode, which have to be related to the program of origin. These practices can be done in two periods of three hundred (300) hours each.

## Master's Degree in Business Sciences - Project Management

**Duration of Program: 48 credits 14 months:**

**Method of Delivery: Hybrid**

**Graduate Degree: Master's Degree in Business Sciences - Project Management**

In order to obtain the academic degree of master, it is mandatory to obtain the academic degree of bachelor, to have passed all the courses specified in the study plan, to have knowledge of a foreign language and to have a passing grade in the presentation of the Thesis or Research Paper before a Jury.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The Master's Degree in Business Sciences - Project Management is a specialized graduate program that aims to develop in the participants a strategic vision of organizational project management, aligning these to the long-term objectives of the company based on the principles and recommendations of the Project Management Institute - PMI. In addition, it develops and/or strengthens the competencies and skills that allow them to manage the execution of business projects of various types. The participant understands and applies the fundamentals of project management in its conceptualization, execution and control stages, recognizes and develops the interpersonal skills required by the Project Manager and is able to organize a project office and propose program and portfolio management models through it.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Project Management** |
|---|
| Develop best practices for planning, implementing, executing, monitoring, and delivering projects by meeting the needs and expectations of project stakeholders by applying the best practices proposed by the PMI. |
| **PLO2: Portfolio Management** |
| Establish best practices for selecting and executing the portfolio of projects aligned with the strategic objectives of the organization, providing them with the necessary resources to complete them in a timely manner, complementing this process with the development of the interpersonal competencies required for the development of the project. |

**Duration of Program: 48 credits 2 years**

**Method of Delivery: Hybrid**

**Graduate Degree: Master's Degree in Marketing and Commercial Management**

In order to obtain the academic degree of master, it is mandatory to obtain the academic degree of bachelor, to have passed all the courses specified in the study plan, to have knowledge of a foreign language and to have a passing grade in the presentation of the Thesis or Research Paper before a Jury.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The objectives of the Master's Degree in Marketing and Commercial Management program are the following:

- To provide an in-depth knowledge of the different organizations, understanding their nature, composition, management modes and processes, size, sector of activity and typology (public, private, non-profit, etc.); as well as the trends and changes in the environments in which they operate.
- To bring marketing closer to the student from a managerial perspective through the exploration of marketing problems, the formulation of strategies and real decision making.
- To provide the necessary knowledge to design, develop and carry out market research as a support tool to obtain information.
- To correctly develop the commercial and corporate communication function.
- To formulate and analyze strategies and implement marketing plans in national and international environments.
- To know and carry out, adequately, sales forecasts.
- Successfully carry out promotional and relationship marketing activities.
- Implement and put into practice sales plans and control their fulfillment.
- Provide the knowledge and skills necessary to organize a sales network.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Critical Thinking** |
|---|
| Integrate knowledge and face the complexity of formulating judgments based on information in the field of marketing that includes reflections on the social and ethical responsibilities linked to the application of their knowledge and judgments. |
| **PLO2: Decision Making** |
| Solving problems in new or little-known environments within broader (or multidisciplinary) contexts, related to their area of study, based on the knowledge acquired. Likewise, through the management skills acquired, they will allow you to solve problems in the real business world. |
| **PLO3: Effective Communication** |

| |
|---|
| Be able to communicate to specialized and non-specialized audiences in the area of marketing, the conclusions, knowledge, and reasons for their points of view in a clear and unambiguous way. |
| **PLO4: Strategic Organization** |
| Ability to organize, plan, and manage a small and medium-sized business or organization, understanding its competitive and institutional location and identifying its strengths and weaknesses. |
| **PLO5: Leadership** |
| Lead, organize and direct marketing or sales teams based on the skills developed and knowledge achieved. |
| **PLO6: Social and Commercial Responsibility** |
| Understands the ethical and social responsibilities of marketing management in organizations and society, as well as in commercial and sales action. |
| **PLO7: Autonomous Development** |
| Learning skills that will enable them to continue studying and researching in a self-sufficient manner. |

## Master's Degree in Nutrition - Management and Innovation

**Duration of Program: 48 credits 2 years**

**Method of Delivery: Hybrid**

**Graduate Degree: Master's Degree in Nutrition - Management and Innovation**

In order to obtain the academic degree of master, it is mandatory to obtain the academic degree of bachelor, to have passed all the courses specified in the study plan, to have knowledge of a foreign language and to have a passing grade in the presentation of the Thesis or Research Paper before a Jury.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The objectives of the Master's Degree in Nutrition - Management and Innovation program are the following:

- To shape professionals specializing in scientific research related to nutrition, promoting healthy eating in a context of social responsibility and ethics.
- To shape professionals specializing in nutrition consulting who work as members of multidisciplinary teams to solve problems and make effective decisions.
- To shape professionals with extensive knowledge of nutrition science and its practical application in the development of food products and services that meet market needs and promote healthy habits.
- To shape professionals specializing in the management of a food company according to business administration concepts to generate value in the nutrition market.
- To shape professionals with managerial skills in the field of nutrition, training them to run businesses related to diet and health.
- To shape professionals who foster innovation and entrepreneurship in the nutrition sector, preparing students to create and manage initiatives that improve the food supply.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Research** |
|---|
| Conduct research using the scientific method, structured frameworks and/or models to ensure the relevance and sustainability of the results at the global level. |
| **PLO2: Management of Nutritional Consulting and Healthy Eating** |
| Advise national and international companies and institutions through strategic plans in the areas of food production, economics and commercialization to foster healthy lifestyles, participating in multidisciplinary teams. |
| **PLO3: Innovation and Entrepreneurship in Nutrition** |
| Apply practical methodologies and technological tools to foster creativity, boost business management and ensure optimal performance in the identification of opportunities and the implementation of effective solutions in the food industry. |
| **PLO4: Strategic Management in Food Companies** |

Manage the operations of food companies and create value through sustainable, responsible practices that benefit consumers as well as society to ensure the sustainability and competitiveness of a food business.

## Graduate School Doctoral Programs

## Doctoral Degree of Business Administration

**Duration of Program: 64 credits 36 months**

**Method of Delivery: Hybrid**

**Academic Degree: Doctoral Degree of Business Administration**

In order to obtain the academic degree of Doctor, it is mandatory to obtain the academic degree of Master, to have passed all the courses specified in the doctoral curriculum, to have knowledge of English and another foreign language or native language and to have a passing grade in the presentation of the doctoral thesis before a jury.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The Doctoral Degree of Business Administration with mention in Strategic Management will have the following objectives:

- To train professionals to generate scientific knowledge, through the development of new theoretical-practical approaches.
- To train teachers of high academic level and scientific rigor committed to the development of organizations and the country.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Business Management** |
|---|
| Recognize the administrative foundations and technical concepts that underpin business management and on which it is based for the creation of knowledge, through research in indexed databases, adopting a multidisciplinary approach and promoting the publication of scientific products aimed at the socialization of issues inherent to business management. |
| **PLO2: Critical Thinking and Innovation** |
| Critically analyzes the existing scientific literature and its own research results, with the purpose of promoting innovative projects or knowledge in the business field, considering the scientific research method, research approaches and technology. |
| **PLO3: Development of research projects** |
| Master's the theoretical and practical knowledge of administrative sciences, as well as the skills to identify problems, design research and analyze data in a rigorous, systematic, bias-free manner and in accordance with a methodological approach, which will allow the efficient development of a thesis work, which in addition to being a final degree requirement, It is a contribution to the field of study. |
| **PLO4: Knowledge transfer** |
| Use interpersonal skills effectively to transfer the knowledge acquired during doctoral training and that generated as a researcher, demonstrating teaching ability, as well as to adapt to different national and international audiences, contributing significantly to the field of study of business sciences and the society in which he operates. |

## Doctoral Degree of Nutrition

**Duration of Program: 64 credits 3 years**

**Method of Delivery: Hybrid**

**Academic Degree: Doctoral Degree of Nutrition**

In order to obtain the academic degree of Doctor, it is mandatory to obtain the academic degree of Master, to have passed all the courses specified in the doctoral curriculum, to have knowledge of English and another foreign language or native language and to have a passing grade in the presentation of the doctoral thesis before a jury.

More information at: https://usil.edu.pe/transparencia/estatutos-reglamentos

Only for the professional exercise in public entities and the subscription of official documents, it is required to be an active member of the corresponding Professional College.

### Academic Objectives

The objectives of the Universidad San Ignacio de Loyola Graduate School Doctor of Nutrition program are the following:

- To shape professionals who are able to conduct research and prepare teams to meet the challenges of food and nutrition science, as well as nutrition and its relation to health.
- To shape professionals whose research can contribute to the development of new food products that are safe and healthy and promote optimal diets at the different stages of people's lives.
- To shape professionals who foster the creation of innovative research projects that encompass knowledge from different disciplines, enabling them to develop effective solutions to problems arising in the field of food and nutrition.
- To shape professionals who assess existing food products and propose improvements, taking an innovative approach that responds to market needs and health standards, thereby contributing to the development of safer, sustainable food solutions.
- To shape professionals who assess the impact of nutritional interventions using adequate methodologies, enabling students to make decisions based on the effectiveness and sustainability of their proposals in the field of public health.
- To shape professionals who can make a critical analysis of scientific literature on nutrition, evaluating the validity and applicability of the findings in academic and practical contexts.

### Program Learning Outcomes (PLO) by Level

| **PLO1: Research** |
|---|
| Research problems faced by the country and the world to contribute to R+D+i and human welfare, developing a line of research and publishing the results in media recognized by the scientific community. |
| **PLO2: Nutrition Policies and Programs** |
| Manage nutrition policies and programs based on scientific evidence that are geared toward promoting health and preventing malnutrition in diverse populations. |
| **PLO3: Molecular and Technological Development in Nutrition** |
| Conduct and apply research on the molecular and functional aspect of nutrients, as well as technological innovation that optimizes the quality and functionality of foods to contribute to |

| |
|---|
| knowledge of nutrition and improvement in health. |
| **PLO4: Education and Effective Communication in Nutrition** |
| Design and implement education and communication strategies and new trends that promote healthy eating habits and improve people's knowledge of nutrition, integrating aspects of clinical and sports nutrition. |

**Curriculum: Doctoral Degree of Nutrition**

| CYCLE | COURSE NUMBER | COURSE TITLE | COURSE TYPE | TOTAL COURSE CREDIT/ CLOCK HOURS |
|---|---|---|---|---|
| 1 | NUH81033 | FOOD POLICY AND PUBLIC HEALTH (POLÍTICAS ALIMENTARIAS Y SALUD PÚBLICA) | Core/Required | 2 |

(*) Final amounts will depend on the percentage of credit earned upon admission.
(**) Course prices may increase over time.
(***) The Integrative Project course is equivalent to two courses for all purposes (including financial).

**Notes:**

1. The total payment indicated above has been calculated based on 10 regular study periods, with full-time enrollment and no failed courses. It does not include the cost of tuition.
2. The fees apply to distance learning and blended learning programs.
3. Licensed study programs not included in this list have not been offered in the 2026-1 admission process.
4. Fees paid after the due date will be subject to a late payment interest rate of 0.011%, within the established legal limits, applicable from the day after the due date. They will also be subject to an administrative collection fee of S/.40.00 applicable to payments made fifteen (15) calendar days after the due date.

**UNIVERSIDAD SAN IGNACIO DE LOYOLA**

# Graduate Fees 2026-01

## 1. Application Fee [(a)]

| Programs | Amount |
|---|---|
| Master's Degree in Education | S/. 150.00 |
| Second Specialization | S/. 150.00 |
| Other programs | S/. 250.00 |

## 2. Registration per Semester [(a)]

| Programs | Amount |
|---|---|
| Master's Degree in Education | S/. 150.00 |
| Second Specialization | S/. 150.00 |
| Doctoral Degree of Education | S/. 250.00 |
| Other programs | S/. 350.00 |

## 3. Tuition for Master's Degree Programs [(b) (c) (d)]

| Programs | Installment | N° Installment | N° Semesters | Cost |
|---|---|---|---|---|
| Master's Degree in Business Administration – Executive MBA (Semi-presential modality with double degree) | S/. 2,500.00 | 20 | 5 | S/. 50,000.00 |
| Master's Degree in Business Administration – Executive MBA (Hybrid) | S/. 2,100.00 | 20 | 5 | S/. 42,000.00 |
| Master's Degree in Business Sciences - Financial Management (Hybrid) | S/. 1,728.57 | 14 | 5 | S/. 24,200.00 |
| Master's Degree in Business Sciences - Project Management (Hybrid) | S/. 1,728.57 | 14 | 5 | S/. 24,200.00 |
| Master's Degree in Marketing and Commercial Management | S/. 2,175.00 | 20 | 5 | S/. 43,500.00 |
| Master's Degree in Education - Higher Education (Hybrid) | S/. 857.14 | 14 | 2 | S/. 12,000.00 |
| Master's Degree in Education - Education Management (Hybrid) | S/. 857.14 | 14 | 2 | S/. 12,000.00 |
| Master's Degree in Public Administration | S/. 2,142.86 | 14 | 5 | S/. 30,000.00 |

(a) Amounts not subject to refund

(b) Payments made after the due date shall be subject to a late payment interest rate of 0.011%, within the established legal limits. Likewise, all payments made fifteen (15) calendar days after the due date will be subject to a collection fee of S/. 40.00 (PEN) for administrative expenses, which is necessary to cover the costs incurred by the delay in meeting payment obligations and is applicable only to those students who have overdue debt.

(c) Students who pay all program fees before the start of the program will receive this discount percentage on the total cost of the program, excluding tuition fees.

(d) All refunds will be made after deducting administrative costs of S/. 170.00.

| Programs | Installment | N° Installment | N° Semesters | Cost |
|---|---|---|---|---|
| Master's Degree in Nutrition Management | S/. 1,571.43 | 14 | 4 | S/. 22,000.00 |
| Master's Degree in Business Law | S/. 2,000.00 | 20 | 4 | S/. 40,000.00 |
| Second Specialization in School Administration with Pedagogical Leadership | S/. 900.00 | 12 | 3 | S/. 10,800.00 |

**4. Tuition for Doctoral Degree Programs[b] [c] [d]**

| Programs | Installment | N° Installment | N° Semesters | Cost |
|---|---|---|---|---|
| Doctor of Business Administration | S/. 1,837.50 | 36 | 6 | S/. 66,150.00 |
| Doctor of Education | S/. 1,000.00 | 30 | 6 | S/. 30,000.00 |
| Doctor of the Science of the Law | S/. 1,069.44 | 36 | 6 | S/. 38,500.00 |
| Doctoral Degree of Nutrition | S/. 1,055.56 | 36 | 6 | S/. 38,000.00 |

**5. Processing Fees [a]**

5.1 Certificates, Letters of Certification and Other Documents

| Concept | Amount |
|---|---|
| Transcripts | S/. 100.00 |
| Certificate of Enrollment | S/. 35.00 |
| Letter of Certification of Equivalency Chart (Master's and Doctoral degree programs) | S/. 20.00 |
| Letter of Certification of Weighted Grade Point Average | S/. 35.00 |
| Certificate of Class Rank | S/. 35.00 |
| Certificate of Curriculum Completion | S/. 100.00 |
| Certificate of Curricular Progress | S/. 15.00 |
| Certificate of Diploma Pending Issuance | S/. 50.00 |
| Thesis Defense Certificate | S/. 50.00 |
| Grade Report | S/. 50.00 |
| Certificate of non-indebtedness | S/. 15.00 |
| Certificate of Indebtedness | S/. 15.00 |
| Certificate of budget payments | S/. 20.00 |
| Authentication of Graduate School documents | S/. 50.00 |
| Printout of individual syllabi (all courses) | S/. 10.00 |
| Letter of Introduction | S/. 10.00 |

(a) Amounts not subject to refund.

(b) Payments made after the due date shall be subject to a late payment interest rate of 0.011%, within the established legal limits. Likewise, all payments made fifteen (15) calendar days after the due date will be subject to a collection fee of S/. 40.00 (PEN) for administrative expenses, which is necessary to cover the costs incurred by the delay in meeting payment obligations and is applicable only to those students who have overdue debt.

(c) Students who pay all program fees before the start of the program will receive this discount percentage on the total cost of the program, excluding tuition fees.

(d) All refunds will be made after deducting administrative costs of S/. 170.00.

(b) (c) (d)

5.2 Diplomas for degrees and thesis defense

| Concept | Amount |
|---|---|
| Master's or doctoral degree diploma (all programs except Education) | S/. 1,200.00 |
| Master's degree diploma (master's degree in education) | S/. 1,500.00 |
| Doctor's degree diploma (all programs except Education) | S/. 1,500.00 |
| Doctor's degree diploma (Education) | S/. 1,800.00 |
| Thesis Defense Fee - Master's degrees (Except Education Program) | S/. 1,800.00 |
| Thesis Defense (Master's Degree in Education) | S/. 450.00 |
| Thesis Defense Fee - Doctoral Programs (Excluding Education) | S/. 2,000.00 |
| Thesis Defense (Doctor of Education) | S/. 800.00 |
| Defense, Title, and Certificate | S/. 350.00 |
| Second Defense | S/. 1,200.00 |
| Third Defense | S/. 1,440.00 |

5.3 Duplicates and Digital Certificates

| Concept | Amount |
|---|---|
| Duplicate diploma | S/. 200.00 |
| Duplicate of diploma for a degree (lost or damaged) | S/. 200.00 |
| Duplicate of Graduate School ID | S/. 50.00 |
| Duplicate of in-house certificate | S/. 50.00 |
| Duplicate of in-house letter of certification | S/. 50.00 |
| Digital copy of master's or doctoral degree diploma * | S/. 50.00 |

***Note:***

** This digital procedure can be accessed after paying for the issuance of the physical degree certificate.*

5.4 Fees for Other Procedures

| Concept | Amount |
|---|---|
| Issuance of university ID | S/. 17.70 |
| Program Readmission (starting with the 2016-02 semester) | S/. 100.00 |
| Readmission with Internal Transfer – change of course delivery method | S/. 100.00 |
| Regjstration Reservation | S/. 100.00 |
| Course Withdrawal | S/. 100.00 |
| Semester Withdrawal | S/. 200.00 |
| English Placement Exam | S/. 150.00 |
| Proficiency Exam (Portuguese and Italian) | S/. 150.00 |
| Proficiency Exam for Native Languages (Quechua) | S/. 200.00 |
| Program Reincorporation (prior to 2016-02, following evaluation and approval by the Academic Director) | S/. 500.00 |

(a) Amounts not subject to refund.

(b) Payments made after the due date shall be subject to a late payment interest rate of 0.011%, within the established legal limits. Likewise, all payments made fifteen (15) calendar days after the due date will be subject to a collection fee of S/. 40.00 (PEN) for administrative

expenses, which is necessary to cover the costs incurred by the delay in meeting payment obligations and is applicable only to those students who have overdue debt.

(c) Students who pay all program fees before the start of the program will receive this discount percentage on the total cost of the program, excluding tuition fees.

(d) All refunds will be made after deducting administrative costs of S/. 170.00.

| Concept | Amount |
|---|---|
| Program Reincorporation with Internal Transfer – change of course delivery method | S/. 500.00 |
| Course retake | S/. 1,200.00 (courses up to 1.5 credits) |
| | S/. 800.00 (doctoral courses) |
| | S/. 2,400.00 (courses of 2 credits or more) |
| | S/. 540.00 (second specialization courses) |
| | S/. 800.00 (Master's courses in Public Administration SP up to 1.5 credits) |
| | S/. 1,250.00 (Master's courses in Public Administration SP of 2 credits or more) |
| | S/.1,250.00 (Master's courses in Public Administration SP of 2 credits or more) |
| | S/. 750.00 (Master's courses in Education Management) |
| | S/. 750.00 (Master's courses in Higher Education) |
| Change of concentration (only for master's degree in business sciences) | S/. 170.00 |

(a) Amounts not subject to refund.

| NAME | SUMMARY | COURSE TAUGHT |
|---|---|---|
| **ABAD NEYRA, SUE ANNA** | Magíster - Universidad Internacional de la Rioja - Máster Universitario en Comunicación e Identidad Corporativa<br>Bachiller - Universidad de Lima - Bachiller en Ciencias Administrativas | MKA52011 - ADVERTISING AND PROMOTION (PUBLICIDAD Y PROMOCIÓN) |
| **ABAD PEREZ, CESAR** | Magíster - Universitat de Barcelona - Título Oficial de Máster Universitario en Planificación Territorial y Gestión Ambiental<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Geógrafo<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Ciencias Sociales Especialidad Geografía | ICV61046 - DISASTER RISK MANAGEMENT (GESTIÓN DE RIESGOS DE DESASTRES) |
| **ABAL MEJIA, JHONATAN** | Magíster - Universidad Alas Peruanas - Maestro en Administración y Dirección de Empresas<br>Título Profesional - Universidad Alas Peruanas - Título Profesional de Ingeniero de Sistemas e Informática<br>Bachiller - Universidad Alas Peruanas - Bachiller en Ingeniería de Sistemas e Informática | SFW52042 - FUNDAMENTALS OF PROGRAMMING (FUNDAMENTOS DE PROGRAMACIÓN), SFW52080 - OBJECT-ORIENTED PROGRAMMING I (PROGRAMACIÓN ORIENTADA A OBJETOS I), SFW52081 - OBJECT-ORIENTED PROGRAMMING I (PROGRAMACIÓN ORIENTADA A OBJETOS I) |
| **ABARCA DEL CARPIO, JORGE ENRIQUE** | Título Profesional - Academia Diplomática del Perú Javier Pérez de Cuéllar - Título de Licenciado en Relaciones Internacionales | RIN61006 - INTERNATIONAL POLITICS OF THE MIDDLE EAST (LA POLÍTICA INTERNACIONAL DEL MEDIO ORIENTE) |
| **ABARCA MONTERO, VERONICA** | Magíster - Universidad Femenina del Sagrado Corazón - Maestra en Psicología con mención en Diagnóstico e Intervención Psicoeducativa<br>Título Profesional - Universidad Femenina del Sagrado Corazón - Título Profesional de Licenciada en Educación Inicial<br>Bachiller - Universidad Femenina del Sagrado Corazón - Bachiller en Educación | EIC61053 - INTERMEDIATE INTERNSHIP (PRÁCTICA PRE-PROFESIONAL INTERMEDIA) |
| **ACERBI MEDICINA, FABRIZIO AMADEO PAOLO** | Magíster - Universidad Autónoma de Barcelona - Título Oficial de Máster Universitario de en Gestión Deportiva<br>Bachiller - Universidad de Lima - Bachiller en Comunicación | ADP61001 - PHYSICAL ACTIVITY AND SPORTS EVENT MANAGEMENT (GESTIÓN DE EVENTOS Y ACTIVIDADES FÍSICAS Y DEPORTIVAS) |
| **ACEVEDO ESPINOLA, ROMAN CARLOS** | Título Profesional - Universidad Nacional Federico Villarreal - Título de Licenciado en Nutrición<br>Bachiller - Universidad Nacional Federico Villarreal - Grado de Bachiller en Nutrición | NUH51036 - BIOCHEMISTRY APPLIED TO NUTRITION (BIOQUÍMICA APLICADA A LA NUTRICIÓN) |
| **ACEVEDO LAOS, VICTOR MANUEL** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Ingeniería Civil con mención en Estructuras Sismorresistentes<br>Título Profesional - Pontificia Universidad Católica del Perú - Título de Ingeniero Civil<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Ciencias con mención en Ingeniería Civil | DCP51003 - STRUCTURES 2 (ESTRUCTURAS 2), DCP51004 - STRUCTURES 1 (ESTRUCTURAS 1), ECC61003 - REINFORCED CONCRETE DESIGN (DISEÑO EN CONCRETO ARMADO) |
| **ACHA PACHECO, JOSE CARLOS BENJAMIN** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Economía con Mención en Gestión Empresarial<br>Título Profesional - Escuela Naval del Perú - Título Profesional de Licenciado en Ciencias Marítimas Navales<br>Bachiller - Escuela Naval del Perú - Bachiller en Ciencias Marítimo Navales | INV81187 - THESIS SEMINAR I (SEMINARIO DE TESIS I ), INV81248 - RESEARCH METHODOLOGY (METODOLOGÍA DE LA INVESTIGACIÓN), INV81265 - THESIS SEMINAR II (SEMINARIO DE TESIS II) |
| **ACHIC ALARCON, FRED SOLIO** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Ingeniería Mecatrónica<br>Título Profesional - Pontificia Universidad Católica del Perú - Título Profesional de Ingeniero Electrónico<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Ciencias con Mención en Ingeniería Electrónica | IMC61009 - POWER ELECTRONICS (ELECTRÓNICA DE POTENCIA), IMC61016 - ANALOG ELECTRONICS AND ELECTRICAL MACHINES (ELECTRÓNICA ANALÓGICA Y MÁQUINAS ELÉCTRICAS) |
| **ACO CAVENAGO, ESTRELLA FATIMA PASQUITA** | Magíster - Universidad de Alcalá - Título Propio de Máster en Alta Dirección Empresarial<br>Título Profesional - Universidad San Ignacio de Loyola - Título Profesional de Licenciado en Administración en Turismo<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Administración en Turismo | GES52018 - CREATIVITY AND INNOVATION: DESIGN THINKING (CREATIVIDAD E INNOVACIÓN: DESIGN THINKING) |
| **ACOSTA SALAZAR, ISABEL JOSEFINA** | Magíster - Universidad César Vallejo - Maestra en Psicología Educativa<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Licenciada en Educación Secundaria / Especialidad: Idioma Inglés<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Educación | ENG42092 - ENGLISH V (ENGLISH V) |
| **ACOSTA YPARRAGUIRRE, EDUARDO MARTIN** | Doctor - Universidad Nacional de Piura - Doctor en Derecho y Ciencias Políticas<br>Magíster - Universidad Privada Antenor Orrego - Maestro en Derecho con mención en Derecho Civil Empresarial<br>Título Profesional - Universidad Nacional de Trujillo - Título Profesional de Abogado<br>Bachiller - Universidad Nacional de Trujillo - Bachiller en Derecho y Ciencias Políticas | DER52032 - FUNDAMENTALS OF ROMAN LAW (FUNDAMENTOS DEL DERECHO ROMANO), DER64038 - CONSTITUTIONAL LAW (DERECHO CONSTITUCIONAL (TEORÍA DE LA CONST. Y LOS DER.F.)) |

| NAME | SUMMARY | COURSE TAUGHT |
|---|---|---|
| **ACUÑA VALENCIA, HUMBERTO CESAR** | Magíster - Universidad de Lima - Magíster en Administración de Negocios<br>Título Profesional - Universidad de Lima - Título Profesional de Licenciado en Comunicación<br>Bachiller - Universidad de Lima - Bachiller en Comunicación | DRH85013 - ORGANIZATIONAL BEHAVIOR AND THE INDIVIDUAL (COMPORTAMIENTO ORGANIZACIONAL Y EL INDIVIDUO), MKA87016 - GLOBAL MARKET RESEARCH (INVESTIGACIÓN GLOBAL DE MERCADOS) |
| **AGUERO AGUILAR, SILVIA DORIS** | Magíster - Universidad Nacional Agraria La Molina - Magíster Scientiae en Suelos<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional Biólogo con mención en Botánica<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Ciencias Biológicas | CMA51022 - EDAPHOLOGY (EDAFOLOGÍA), CMA51024 - ECOTOXICOLOGY (ECOTOXICOLOGÍA), CMA61020 - SOIL CONTAMINATION (CONTAMINACIÓN DE SUELOS), MCB51001 - GENERAL MICROBIOLOGY (MICROBIOLOGÍA GENERAL) |
| **AGUERO SOTO, VICTOR ARMANDO** | Magíster - Universidad Europea de Madrid - Título Oficial de Máster Universitario en Entrenamiento y Nutrición Deportiva<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Licenciado en Nutrición<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Nutrición | BCH51001 - BIOCHEMISTRY APPLIED TO PHYSICAL ACTIVITY AND SPORTS (BIOQUÍMICA APLICADA A LA ACTIVIDAD FÍSICA Y EL DEPORTE), NHU61001 - SPORTS NUTRITION (NUTRICIÓN DEPORTIVA), NUH51041 - EXERCISE PHYSIOLOGY (EXERCISE PHYSIOLOGY) |
| **AGUILAR ALOSILLA, KAREN GISELL** | Magíster - Universidad Católica de Trujillo Benedicto XVI - Maestra en Investigación y Docencia Universitaria<br>Magíster - Universidad de San Martín de Porres - Maestra en Gestión Estratégica de la Calidad y Auditoría Médica<br>Segunda Especialidad - Universidad Nacional Mayor de San Marcos - Título de Segunda Especialidad en Medicina Interna<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Médico Cirujano<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Medicina | MEH51075 - SPECIALTIES I (ESPECIALIDADES I) |
| **AGUILAR MEZA, CLAUDIA ROXANA** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Administración Estratégica de Empresas<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Ingeniero Industrial<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Ingeniería Industrial | GES52022 - MANAGERIAL SKILLS (HABILIDADES GERENCIALES) |
| **AGUILAR PONCE, EMMA DORIS** | Doctor - Universidad Nacional Mayor de San Marcos - Doctora en Literatura Peruana y Latinoamericana<br>Magíster - Pontificia Universidad Católica del Perú - Magíster en Literatura Hispanoamericana<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Licenciado en Educación Especialidad: Lenguaje<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Educación<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Lingüística | COM42038 - LANGUAGE AND COMMUNICATION I (LENGUAJE Y COMUNICACIÓN I) |
| **AGUIRRE NUÑEZ, MARIO** | Doctor - Universidad Nacional Agraria La Molina - Doctoris Philosophiae en Recursos Hídricos<br>Magíster - Universidad Alas Peruanas - Maestro en Administración y Dirección de Empresas<br>Título Profesional - Universidad Nacional de San Antonio Abad del Cusco - Título de Ingeniero Civil<br>Bachiller - Universidad Nacional de San Antonio Abad del Cusco - Bachiller en Ingeniería Civil | ICV51038 - HYDROLOGY (HIDROLOGÍA) |
| **AGURTO GONZALES, CARLOS ANTONIO** | Doctor - Università degli Studi di Torino - Título di Dottore di Ricerca in Diritto, Persona e Mercato<br>Magíster - Universitá Di Bologna - Laurea Magistrale in Science Internasionali e Diplomatiche<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Abogado<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Derecho | DER84040 - COMPARATIVE CIVIL LAW (DERECHO CIVIL COMPARADO) |
| **ALANYA BELTRAN, JOEL ELVYS** | Doctor - Universidad César Vallejo - Doctor en Educación<br>Magíster - Universidad Internacional de La Rioja en México - Título de Maestría en Tecnología Educativa y Competencias Digitales<br>Magíster - Universitat Abat Oliba CEU - Título Oficial de Máster Universitario en Gestión y Comunicación de Entidades Sociales y Solidarias<br>Magíster - Universidad César Vallejo - Maestro en Docencia Universitaria<br>Segunda Especialidad - Universidad César Vallejo - Título de Segunda Especialidad en Políticas Educativas y Gestión Pública<br>Título Profesional - Pontificia Universidad Católica del Perú - Título de Ingeniero Electrónico<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Ciencias con mención en Ingeniería Electrónica | API51001 - INFORMATION TECHNOLOGY IN EDUCATION (INFORMÁTICA APLICADA A LA EDUCACIÓN), EDG62028 - LEARNING ASSESSMENT STRATEGIES (ESTRATEGIAS DE EVALUACIÓN DE LOS APRENDIZAJES), EIC61039 - PLANNING LESSONS AND ACTIVITIES (PLANIFICACIÓN DE CLASES Y ACTIVIDADES), ESE61017 - SYSTEMATIZATION OF INFORMATION (SISTEMATIZACIÓN DE LA INFORMACIÓN), GES67063 - CAPSTONE PROJECT (PROYECTO INTEGRADOR), INV61054 - RESEARCH PROJECT REPORT AND DEFENSE (INFORME Y SUSTENTACIÓN DEL PROYECTO DE INVESTIGACIÓN) |

| **MAGUIÑA VIZCARRA, JOSE EDUARDO** | Doctor - Universidad César Vallejo - Doctor en Educación<br>Magíster - Universidad César Vallejo - Magíster en Gestión Pública<br>Magíster - Universidad César Vallejo - Magíster en Psicología Educativa<br>Magíster - Facultad de Teología Pontificia y Civil de Lima - Magíster en Educación mención en Gestión y Administración de los Centros Educativos<br>Título Profesional - Universidad Marcelino Champagnat - Título de Licenciado en Educación en la Especialidad de Lengua y Literatura y Ciencias Religiosas<br>Bachiller - Universidad Marcelino Champagnat - Bachiller en Educación | INV81149 - SEM.THESIS III: METHODOLOGICAL DESIGN AND DEVELOPMENT OF RESEARCH INSTRUMENTS (SEM.TESIS III:DISEÑO METODOLÓGICO Y ELABORACIÓN DE INSTRUMENTOS DE INVESTIGACIÓN.), INV81150 - SEM.THESIS IV: APPLICATION OF INSTRUMENTS AND SYSTEMATIZATION OF RESULTS (SEM.TESIS IV:APLICACIÓN DE INSTRUMENTOS Y SISTEMATIZACIÓN DE RESULTADOS.) |
| **MAGUIÑO VENEROS, MIGUEL HUGO** | Magíster - Universidad Nacional Mayor de San Marcos - Magíster en Literatura Peruana y Latinoamericana<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Licenciado en Literatura<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Literatura | CMO41004 - ORAL AND WRITTEN COMMUNICATION (COMUNICACIÓN ORAL Y ESCRITA) |
| **MALAGA ARCE, LITTA YORKA** | Doctor - Universidad Nacional Federico Villarreal - Doctora en Administración<br>Magíster - Universidad César Vallejo - Magíster en Educación mención en Docencia y Gestión Educativa<br>Magíster - Centro de Altos Estudios Nacionales - Magíster en Administración y Gestión Pública con mención en Defensa Nacional<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Licenciada en Ciencias de la Educación Lengua y Literatura<br>Bachiller - Universidad de Piura - Bachiller en Ciencias de la Educación | GES51058 - BUSINESS ADMINISTRATION (ADMINISTRACIÓN PARA LOS NEGOCIOS), MKA85017 - INNOVATION IN MARKETING: LATERAL THINKING (INNOVACIÓN EN MARKETING:PENSAMIENTO LATERAL) |
| **MALCA ALVARIÑO, RICARDO LEONARDO ENRIQUE** | Magíster - Academia Diplomática del Perú Javier Pérez de Cuéllar - Máster en Diplomacia y Relaciones Internacionales<br>Título Profesional - Academia Diplomática del Perú - Título Profesional de Diplomático<br>Bachiller - Universidad Nacional Agraria La Molina - Bachiller en Ciencias - Ingeniería en Gestión Empresarial | MAR85018 - POLITICAL MARKETING (MARKETING POLÍTICO) |
| **MALDONADO GARRIDO, PEDRO ABELARDO** | Magíster - Universidad del Pacífico - Magíster en Administración<br>Título Profesional - Universidad de Lima - Título Profesional de Economista<br>Bachiller - Universidad de Lima - Bachiller en Economía | FIN52035 - FINANCIAL MATHEMATICS (MATEMÁTICA FINANCIERA), FIN52034 - FINANCIAL MATHEMATICS (MATEMÁTICA FINANCIERA) |
| **MALLQUI BRAVO, FLOR DE MARIA** | Doctor - Pontificia Universidad Católica del Perú - Doctora en Literatura Hispanoamericana<br>Magíster - Pontificia Universidad Católica del Perú - Magíster en Literatura Hispanoamericana<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Licenciada en Educación Secundaria / Especialidad: Lenguaje y Literatura<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Educación | COM42037 - LANGUAGE AND COMMUNICATION I (LENGUAJE Y COMUNICACIÓN I), COM42038 - LANGUAGE AND COMMUNICATION I (LENGUAJE Y COMUNICACIÓN I), COM42039 - LANGUAGE AND COMMUNICATION II (LENGUAJE Y COMUNICACIÓN II) |
| **MALLQUI VILLARREAL, ANA MARIA** | Magíster - Universidad San Ignacio de Loyola - Maestro en Educación con mención en Docencia en Educación Superior<br>Bachiller - Universidad Nacional Federico Villarreal - Bachiller en Educación | ENG42094 - ENGLISH VI: RREL (ENGLISH VI: RREL) |
| **MALVACEDA ESPINOZA, ELI LEONARDO** | Doctor - Universidad de Oviedo - Título Universitario Oficial de Doctor dentro del Programa de Doctorado en Educación y Psicología<br>Magíster - Pontificia Universidad Católica del Perú - Magíster en Psicología Comunitaria<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Psicólogo<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Psicología | INV61069 - THESIS SEMINAR I (SEMINARIO DE TESIS I), INV61070 - THESIS SEMINAR II (SEMINARIO DE TESIS II), PSI51063 - SOCIAL PSYCHOLOGY (PSICOLOGÍA SOCIAL) |
| **MAMANI ALIAGA, ALVARO HENRY** | Doctor - Universidad Nacional de San Agustín de Arequipa - Doctor en Ciencias de la Computación<br>Magíster - Universidade de São Paulo - Mestre Em Ciências - Ciência da Computação<br>Título Profesional - Universidad Nacional de San Agustín de Arequipa - Título Profesional de Ingeniero de Sistemas<br>Bachiller - Universidad Nacional de San Agustín de Arequipa - Bachiller en Ingeniería de Sistemas | SFW62023 - PARALLEL AND DISTRIBUTED COMPUTING (COMPUTACIÓN PARALELA Y DISTRIBUIDA) |
| **MANCO MANCO, ARMANDO** | Magíster - Universidad ESAN - Magíster en Finanzas<br>Bachiller - Universidad Nacional de Ingeniería - Bachiller en Ciencias con Mención en: Ingeniería Económica | FIN52033 - FINANCE (FINANZAS EMPRESARIALES) |
| **MANFREDI GAGLIUFFI, ERNESTO ANGEL GUSTAVO** | Doctor - Universidad Alas Peruanas - Doctor en Administración<br>Magíster - Universidad Ricardo Palma - Maestro en Psicología Organizacional<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Psicólogo<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller Académico en Psicología | INV41056 - RESEARCH METHODOLOGY (METODOLOGÍA DE LA INVESTIGACIÓN) |

| NAME | SUMMARY | COURSE TAUGHT |
|---|---|---|
| **MANRIQUE DE LARA TORRES, GUILLERMO HERNAN FRANCISCO JAVIER** | Magíster - Universidad Ricardo Palma - Maestro en Comportamiento Organizacional y Recursos Humanos<br>Título Profesional - Universidad de San Martín de Porres - Licenciado en Relaciones Industriales<br>Bachiller - Universidad de San Martín de Porres - Bachiller en Ciencias - Relaciones Industriales | GES52022 - MANAGERIAL SKILLS (HABILIDADES GERENCIALES) |
| **MARAVI CONTRERAS, ALFREDO** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Derecho de la Propiedad Intelectual y de la Competencia<br>Segunda Especialidad - Pontificia Universidad Católica del Perú - Título de Segunda Especialidad en Derecho Administrativo<br>Título Profesional - Pontificia Universidad Católica del Perú - Título Profesional de Abogado<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Derecho | MUM61002 - COPYRIGHT (DERECHOS DE AUTOR) |
| **MARCA RIVERA, ARTURO** | Magíster - Instituto Tecnológico y de Estudios Superiores de Monterrey - Maestro en Administración y Dirección de Empresas<br>Título Profesional - Pontificia Universidad Católica del Perú - Título de Ingeniero Informático<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Ciencias con Mención en Ingeniería Informática | API51008 - INFORMATION TECHNOLOGY FOR BUSINESS (INFORMÁTICA PARA LOS NEGOCIOS), TII61003 - DIGITAL BUSINESS TRANSFORMATION (TRANSFORMACIÓN DIGITAL EMPRESARIAL), SFW52019 - INTRODUCTION TO COMPUTER SCIENCE (INTRODUCCIÓN A LA CIENCIA DE LA COMPUTACIÓN), SFW52031 - DATA MANAGEMENT I (GERENCIAMIENTO DE DATOS I) |
| **MARIN TENA, CECILIA MILAGROS** | Magíster - Universidad ESAN - Magíster en Dirección de Tecnologías de Información<br>Título Profesional - Universidad Inca Garcilaso de la Vega - Título de Ingeniero de Sistemas y Computo<br>Bachiller - Universidad Inca Garcilaso de la Vega - Bachiller en Ingeniería de Sistemas y Computo | IEM61015 - INNOVATION AND ENTREPRENEURSHIP (INNOVACIÓN Y EMPRENDIMIENTO), IIN51013 - INTRODUCTION TO BUSINESS AND COMMERCIAL ENGINEERING (INTRODUCCIÓN A LA INGENIERÍA EMPRESARIAL Y COMERCIAL), IIN61007 - PROJECT MANAGEMENT FOR BUSINESS ENGINEERING (GESTIÓN DE PROYECTOS PARA ING. EMPRESARIAL), IIN62037 - CAPSTONE PROJECT IN BUSINESS ENGINEERING (CAPSTONE PROJECT IN BUSINESS ENGINEERING) |
| **MARINO JIMENEZ, MAURO** | Doctor - Universidad Nacional de Educación a Distancia - Título Universitario Oficial de Doctor dentro del Programa de Doctorado en Filología. Estudios Lingüísticos y Literarios: Teoría y Aplicaciones<br>Magíster - Universidad San Ignacio de Loyola - Maestro en Educación / Mención en Docencia en Educación Superior<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Licenciado en Literatura<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Literatura | COM64014 - COMMUNICATION RESEARCH I (INVESTIGACIÓN EN COMUNICACIÓN I) |
| **MARINO JIMENEZ, TANIA** | Magíster - Universidad del Pacífico - Magíster en Administración<br>Título Profesional - Universidad de Lima - Título de Ingeniero de Sistemas<br>Bachiller - Universidad de Lima - Bachiller en Ingeniería de Sistemas | IIN62027 - CAPSTONE PROJECT FOR ENGINEERING (PROYECTO INTEGRADOR PARA INGENIERÍA) |
| **MARINO NOVOA, JULIO JOSE** | Magíster - Universidad Peruana de Ciencias Aplicadas - Magíster en Administración de Empresas<br>Título Profesional - Universidad Católica de Santa María - Licenciado en Administración de Empresas<br>Bachiller - Universidad Católica de Santa María - Bachiller en Administración de Empresas | CIG82004 - OPERATIONS AND SUPPLY CHAIN MANAGEMENT (GESTIÓN DE OPERACIONES Y SUPPLY CHAIN MANAGEMENT) |
| **MARIÑO ZEGARRA, ANGELA PAMELA** | Doctor - Universidad Femenina del Sagrado Corazón - Doctora en Educación<br>Magíster - Universidad Femenina del Sagrado Corazón - Maestro en Educación con Mención en Gestión Directiva Educacional<br>Título Profesional - Universidad Femenina del Sagrado Corazón - Título Profesional de Licenciada en Traducción e Interpretación<br>Bachiller - Universidad Femenina del Sagrado Corazón - Bachiller en Traducción e Interpretación | ENG52001 - LISTENING COMPREHENSION (LISTENING COMPREHENSION), ENG53008 - ENGLISH LANGUAGE PHONETICS (ENGLISH LANGUAGE PHONETICS), ESE61022 - TEACHING ENGLISH AS SECOND LANGUAGE: METHODS & S. II (TEACHING ENGLISH AS SECOND LANGUAGE: METHODS & S. II) |
| **MARQUEZ OPPE, JESSIKA ANGELITA** | Doctor - Universidad Nacional Federico Villarreal - Doctora en Ingeniería<br>Magíster - Universidad Peruana de Ciencias Aplicadas - Magíster en Administración de Empresas<br>Magíster - Universidad Nacional Federico Villarreal - Maestra en Gerencia de Proyectos de Ingeniería<br>Título Profesional - Universidad Católica de Santa María - Título Profesional de Ingeniero de Sistemas<br>Bachiller - Universidad Católica de Santa María - Bachiller en Ingeniería de Sistemas | GSI81019 - GROWTH, SCIENCE AND TECHNOLOGY (CRECIMIENTO, CIENCIA Y TECNOLOGÍA) |

| NAME | SUMMARY | COURSE TAUGHT |
|---|---|---|
| **MARQUINA LUJAN, ROMAN JESUS** | Doctor - Universidad de San Martín de Porres - Doctor en Educación<br>Magíster - Universidad de San Martín de Porres - Maestro en Psicología con mención en Psicología Clínica<br>Título Profesional - Universidad de San Martín de Porres - Título de Licenciado en Psicología<br>Bachiller - Universidad de San Martín de Porres - Bachiller en Psicología | PSI53001 - HUMAN DE VELOPMENT (DESARROLLO HUMANO), PSI53016 - HUMAN DE VELOPMENT (DESARROLLO HUMANO) |
| **MARZANO BARREDA, LUIS ALEJANDRO** | Magíster - Universidade Estadual de Londrina - Mestre em Ciência de Alimentos<br>Título Profesional - Escuela Agrícola Panamericana - Título de Ingeniero en Agroindustria Alimentaria | IAG51010 - AGRO-FOOD TECHNOLOGY I (TECNOLOGÍA AGROALIMENTARIA I), IAG51013 - AGRO-FOOD TECHNOLOGY II (TECNOLOGÍA AGROALIMENTARIA II) |
| **MATOS ANDERSON, CYNTHIA ELIZABETH** | Título Técnico - Institut Paul Bocuse - Título Técnico de Bachelor´s Degree in Gastronomy and Restaurant Management | CUL53007 - TRADITIONAL AND CONTEMPORARY PERUVIAN CUISINE (COCINA PERUANA TRADICIONAL Y CONTEMPORÁNEA) |
| **MATOS DONAYRE, CHRISTIAN ERICK** | Magíster - Universidad ESAN - Magíster en Marketing<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Ciencias y Artes de la Comunicación con Mención en Publicidad | MKA59010 - RELATIONSHIP MARKETING AND CRM (MARKETING RELACIONAL Y CRM) |
| **MATOS PAMPAS, MAURICIA** | Magíster - Universidad Nacional Mayor de San Marcos - Magíster en Educación con mención en Docencia en el Nivel Superior<br>Título Profesional - Universidad Nacional de Educación Enrique Guzmán y Valle -<br>Título Profesional de Licenciado en Educación Área Principal: Psicología Área Secundaria: Ciencias Sociales<br>Título Profesional - Universidad Nacional Federico Villarreal - Título de Licenciado en Psicología<br>Bachiller - Universidad Nacional de Educación Enrique Guzmán y Valle - Bachiller en Ciencias de la Educación<br>Bachiller - Universidad Nacional Federico Villarreal - Bachiller en Psicología | PSS71006 - INTERPERSONAL SKILLS IV (HABILIDADES INTERPERSONALES IV), PSS71007 - INTERPERSONAL SKILLS V (HABILIDADES INTERPERSONALES V) |
| **MATTOS MENA, GRECIA AURORA** | Título Profesional - Universidad de Piura - Título Profesional de Abogado<br>Bachiller - Universidad de Piura - Bachiller en Derecho | DER52046 - LEGAL PERSONS (PERSONAS JURÍDICAS) |
| **MAYA VELARDE, LUIS AUGUSTO** | Magíster - Universidad Europea del Atlántico - Título de Máster Universitario en Administración y Dirección de Empresas<br>Segunda Especialidad - Universidad de Buenos Aires - Título de Especialista en Docencia Universitaria en Ciencias Económica<br>Título Profesional - Universidad San Ignacio de Loyola - Título Profesional de Licenciado en Economía y Negocios Internacionales<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Economía y Negocios Internacionales | ECO51031 - ECONOMICS PRINCIPLES (PRINCIPIOS DE ECONOMÍA), ECO62002 - CURRENTS OF ECONOMIC THOUGHT (CORRIENTES DEL PENSAMIENTO ECONÓMICO), ECO51031 - PRINCIPLES OF ECONOMICS (PRINCIPIOS DE ECONOMÍA ) |
| **MAYOR ZEVALLOS, OTTO ALBERTO** | Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Médico Cirujano<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Medicina | MEH51018 - STRUCTURAL INTEGRATION AND FUNCTION OF THE HUMAN ORGANISM (INTEGRACIÓN DE ESTRUCTURA Y FUNCIÓN DEL ORGANISMO HUMANO), MEH51020 - MORPHOFUNCTIONAL INTEGRATION OF THE CARDIOVASCULAR SYSTEM (INTEGRACIÓN MORFOFUNCIONAL DEL SISTEMA CARDIO-CIRCULATORIO), MEH51055 - MEDICAL PRACTICE AND PROFESSIONALISM II (PRÁCTICA Y PROFESIONALISMO MÉDICO II) |
| **MAYURI AGUILAR, GUILLERMO MARTIN** | Magíster - Universidad de Piura - Magíster en Gobierno de las Organizaciones<br>Magíster - Universitat Autònoma de Barcelona - Título de Máster en Dirección de Relaciones Publicas y Gabinetes de Comunicación<br>Título Profesional - Pontificia Universidad Católica del Perú - Título de Licenciado en Periodismo<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Ciencias y Artes de la Comunicación con mención en Periodismo | TCM61010 - CORPORATE SOCIAL RESPONSIBILITY (RESPONSABILIDAD SOCIAL CORPORATIVA) |
| **MAYURI AGUILAR, VERONICA MARIA** | Magíster - Universidad Peruana de Ciencias Aplicadas - Maestro en Administración de Empresas<br>Bachiller - Universidad Peruana de Ciencias Aplicadas - Bachiller en Marketing | GES55013 - MARKETING MANAGEMENT (GERENCIA DE MARKETING) |
| **MEDINA ALIAGA, DEBORAH ALESSANDRA PAULA** | Magíster - Pontificia Universidad Católica del Perú - Maestra en Historia del Arte y Curaduría<br>Título Profesional - Universidad San Ignacio de Loyola - Título Profesional de Licenciado en Arte y Diseño Empresarial<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Arte y Diseño Empresarial | ART51040 - INTERDISCIPLINARY PROJECT DESIGN (PROYECTO DE DISEÑO INTERDISCIPLINARIO), ART51048 - DESIGN V (DISEÑO V), ART51049 - DESIGN IV (DISEÑO IV), HRA51014 - HISTORY OF DESIGN (HISTORIA DEL DISEÑO), MKA62003 - ADVERTISING (ADVERTISING), ART51101 - INFORMATION DESIGN I (DISEÑO DE LA INFORMACIÓN I) |

| NAME | SUMMARY | COURSE TAUGHT |
|---|---|---|
| **MEDINA FLORES, JIMMY ROBERTO** | Magíster - Universidad ESAN - Magíster en Dirección de Tecnologías de Información<br>Título Profesional - Universidad Continental - Título de Ingeniero en Informática<br>Bachiller - Universidad Continental - Bachiller en Ingeniería Informática | IIN62027 - CAPSTONE PROJECT FOR ENGINEERING (PROYECTO INTEGRADOR PARA INGENIERÍA), PIF51012 - SIMULATION SYSTEMS (SIMULACIÓN DE SISTEMAS), PIF51015 - FUNDAMENTALS OF SOFTWARE DEVELOPMENT (FUNDAMENTOS DEL DESARROLLO DEL SOFTWARE) |
| **MEDINA GALINDO, PAUL REDY** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Administración Estratégica de Empresas<br>Título Profesional - Escuela Naval del Perú - Título Profesional De Licenciado En Ciencias Marítimas Navales Comando General<br>Bachiller - Escuela Naval del Perú - Bachiller en Ciencias Marítimo Navales | IIN52052 - PROCESS SIMULATION (SIMULACIÓN DE PROCESOS INDUSTRIALES) |
| **MEDINA GAMERO, ALDO RAFAEL** | Doctor - Universidad de Piura - Doctor en Humanidades con Mención en Estudios sobre Cultural<br>Magíster - Universidad Nacional Pedro Ruiz Gallo - Maestro en Ciencias de la Educación con mención en Gerencia Educativa Estratégica<br>Título Profesional - Universidad Nacional de San Agustín de Arequipa - Título de Licenciado en Educación Especialidad: Ciencias Sociales<br>Bachiller - Universidad Nacional de San Agustín de Arequipa - Bachiller en Educación | CUL61043 - THESIS PROJECT I (PROYECTO DE TESIS I), CUL61047 - THESIS PROJECT II (PROYECTO DE TESIS II) |
| **MEDINA ROMANI, JUAN ANTONIO** | Magíster - Universidad César Vallejo - Maestro en Administración de la Educación<br>Título Profesional - Universidad San Ignacio de Loyola - Título Profesional en Licenciado en Educación / Especialidad en Ciencia y Tecnología<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Educación | IIS52046 - FUNDAMENTALS OF DIGITAL COMPETENCIES (FUNDAMENTOS EN COMPETENCIAS DIGITALES) |
| **MEDRANO CARBAJAL, ADOLFO MANUEL** | Doctor - Universidad Nacional Federico Villarreal - Doctor en Educación<br>Magíster - Universidad Nacional Federico Villarreal - Maestro en Docencia Universitaria<br>Título Profesional - Escuela de Periodismo Jaime Bausate y Meza - Título Profesional de Licenciado en Periodismo<br>Bachiller - Escuela de Periodismo Jaime Bausate y Meza - Bachiller en Periodismo | MCM51003 - HISTORY OF COMMUNICATION (HISTORIA DE LA COMUNICACIÓN) |
| **MEDRANO COLMENARES, RICARDO CARLOS** | Título Profesional - Universidad Peruana Cayetano Heredia - Título de Médico Cirujano<br>Bachiller - Universidad Peruana Cayetano Heredia - Bachiller en Medicina | MEH51065 - THESIS I (TESIS I) |
| **MEJER POLANCO, LUIS ANGEL** | Magíster - Universidad Europea de Valencia - Título Oficial de Máster Universitario en Docencia Universitaria<br>Título Profesional - Universidad Peruana de Ciencias Aplicadas - Título Profesional de Licenciado en Traducción e Interpretación Profesional Lengua A: Castellano Lengua B: Inglés Lengua C: Francés<br>Bachiller - Universidad Peruana de Ciencias Aplicadas - Bachiller en Traducción e Interpretación Profesional | ENG42085 - ENGLISH IV (ENGLISH IV), ENG42094 - ENGLISH VI: RREL (ENGLISH VI: RREL) |
| **MEJIA CASTILLO, CESAR AUGUSTO** | Magíster - Universidad César Vallejo - Maestro en Docencia Universitaria<br>Título Profesional - Universidad César Vallejo - Título Profesional de Licenciado en Educación Secundaria: Educación para el Trabajo - Administración de Negocios Internacionales<br>Bachiller - Universidad César Vallejo - Bachiller en Educación Secundaria | ENG42085 - ENGLISH IV (ENGLISH IV), ENG42094 - ENGLISH VI: RREL (ENGLISH VI: RREL) |
| **MEJIA ELIAS, CIRO JAVIER** | Magíster - Universidad Nacional Mayor de San Marcos - Magíster en Ingeniería Industrial con mención en Gestión Industrial<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Ingeniero Industrial<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Ingeniería Industrial | IIN52049 - METHODS ENGINEERING I (INGENIERÍA DE MÉTODOS I) |
| **MEJIA SANCHEZ, ELEAZAR CRISTIAN** | Doctor - Pontifícia Universidade Católica do Rio de Janeiro - Doutor em Engenharia Mecânica<br>Magíster - Pontifícia Universidade Católica do Rio de Janeiro - Mestre em Engenharia Mecânica<br>Título Profesional - Universidad Nacional de Ingeniería - Título Profesional de Ingeniero Mecatrónico<br>Bachiller - Universidad Nacional de Ingeniería - Bachiller en Ciencias con mención en Ingeniería Mecatrónica | GLG51005 - GENERAL GEOLOGY (GEOLOGÍA GENERAL) |
| **MEJIA VELASQUEZ, GUSTAVO MOISES** | Doctor - Universidad Alas Peruanas - Doctor en Derecho<br>Magíster - Pontificia Universidad Católica del Perú - Magíster en Derecho con mención en Derecho Internacional Económico<br>Título Profesional - Pontificia Universidad Católica del Perú - Título de Abogado<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Derecho | RIN81023 - INTERNATIONAL ARBITRATION AND DISPUTE RESOLUTION (ARBITRAJE INTERNACIONAL Y SOLUCIÓN DE CONFLICTOS), SCG41016 - NATIONAL REALITY (REALIDAD NACIONAL) |

| NAME | SUMMARY | COURSE TAUGHT |
|---|---|---|
| **MELGAR JIMENEZ, MANUEL FERNANDO** | Doctor - Universidad Nacional Federico Villarreal - Doctor en Economía<br>Magíster - Pontificia Universidad Católica del Perú - Magíster en Ciencia Política y Gobierno con Mención en Políticas Públicas y Gestión Pública<br>Magíster - Universidad César Vallejo - Magíster en Gestión Pública<br>Magíster - Universidad Nacional Federico Villarreal - Maestro en Administración<br>Título Profesional - Pontificia Universidad Católica del Perú - Título de Ingeniero Industrial<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Ciencias con Mención en Ingeniería Industrial | GES87082 - COMPETITIVE PROJECT MANAGEMENT (GESTIÓN COMPETITIVA DE PROYECTOS), INV81081 - RESEARCH SEMINAR 3 (SEMINARIO DE INVESTIGACIÓN 3), INV81187 - THESIS SEMINAR I (SEMINARIO DE TESIS I ) |
| **MENDEZ CALDERON, BLANCA MARIELA** | Magíster - Universidad Europea del Atlántico - Título Oficial de Máster Universitario en Lingüística Aplicada a la Enseñanza del Inglés como Lengua Extranjera<br>Magíster - Universidad Nacional de Trujillo - Maestra en Educación / Mención: Pedagogía Universitaria<br>Título Profesional - Universidad Nacional de Trujillo - Título Profesional de Licenciada en Educación Secundaria / Mención: Idiomas: Inglés - Francés<br>Bachiller - Universidad Nacional de Trujillo - Bachiller en Educación | ENG42068 - ENGLISH IV (ENGLISH IV) |
| **MENDEZ GUERRA, ADRIAN** | Doctor - Universidad de Ciencias de la Cultura Física y el Deporte "Manuel Fajardo" - Doctor en Ciencias de la Cultura Física | EFO61001 - SPORTS MANAGEMENT AND PLANNING (DIRECCIÓN Y PLANIFICACIÓN DEPORTIVA), EFR61005 - SPORTS TRAINING: THEORY AND PRACTICE (TEORÍA Y PRÁCTICA DEL ENTRENAMIENTO DEPORTIVO), EFR61007 - SPORTS TALENT HUNTING (IDENTIFICACIÓN Y DETECCIÓN DE TALENTOS DEPORTIVOS), EFT61004 - PEDAGOGY APPLIED TO SPORTS AND PHYSICAL ACTIVITY (PEDAGOGÍA APLICADA AL DEPORTE Y LA ACTIVIDAD FÍSICA) |
| **MENDEZ VASQUEZ, DIEGO ENRIQUE** | Magíster - Universidad de Piura - Máster en Derecho Administrativo y Regulación del Mercado<br>Título Profesional - Universidad de Piura - Título Profesional de Abogado<br>Bachiller - Universidad de Piura - Bachiller en Derecho | DER52032 - FUNDAMENTALS OF ROMAN LAW (FUNDAMENTOS DEL DERECHO ROMANO), DER64069 - ADMINISTRATIVE LAW I (DERECHO ADMINISTRATIVO I (TEO. ACTO ADM. ESTR. Y ORG. ADM.PÚB.)) |
| **MENDOZA ARANDA, CHRISTIAN** | Magíster - Universidad ESAN - Magíster en Administración<br>Título Profesional - Universidad del Pacífico - Título Profesional de Licenciado en Administración<br>Bachiller - Universidad del Pacífico - Bachiller en Administración | TGT52013 - TOURISM MARKET (MERCADO TURÍSTICO) |
| **MENDOZA GONZALEZ, ASALIA BERNARDA** | Magíster - Universidad Nacional Mayor de San Marcos - Magíster en Lengua y Literatura<br>Magíster - Universidad César Vallejo - Magíster en Evaluación y Acreditación de Calidad Educativa<br>Título Profesional - Universidad Nacional Hermilio Valdizán de Huánuco - Título de Licenciado en Educación / Especialidad: Lenguaje y Literatura<br>Bachiller - Universidad Nacional Hermilio Valdizán de Huánuco - Bachiller en Ciencias de la Educación / Especialidad: Lengua y Literatura | COM42037 - LANGUAGE AND COMMUNICATION I (LENGUAJE Y COMUNICACIÓN I) |
| **MENDOZA HUAMAN, VICENTE EUGENIO** | Doctor - Universidad Nacional Federico Villarreal - Doctor en Educación<br>Magíster - Universidad Nacional Federico Villarreal - Maestro en Docencia Universitaria<br>Título Profesional - Universidad Nacional Federico Villarreal - Título de Licenciado en Psicología<br>Bachiller - Universidad Nacional Federico Villarreal - Bachiller en Psicología | PSI61016 - INTERNSHIP I (INTERNADO I), PSI61017 - INTERNSHIP II (INTERNADO II) |
| **MENDOZA LUNA, YOHEL** | Segunda Especialidad - Universidad Peruana Cayetano Heredia - Título de Especialista en Medicina del Deporte<br>Título Profesional - Universidad Privada del Valle - Diploma Académico de Medico Cirujano | CSA41002 - ANATOMY AND PHYSIOLOGY I (ANATOMÍA Y FISIOLOGÍA I), CSA51001 - SPORTS PHYSIOLOGY (FISIOLOGÍA DEL DEPORTE) |
| **MENDOZA PUERTA, HENRY ANTONIO** | Magíster - Universidad Nacional de Trujillo - Maestro en Ingeniería de Sistemas mención: Administración y Dirección de Tecnologías de la Información<br>Título Profesional - Universidad Privada Antenor Orrego - Título Profesional de Ingeniero de Computación y Sistemas<br>Bachiller - Universidad Privada Antenor Orrego - Bachiller en Ingeniería de Computación y Sistemas | SFW52081 - OBJECT-ORIENTED PROGRAMMING I (PROGRAMACIÓN ORIENTADA A OBJETOS I) |
| **MENDOZA QUINTANA, JESUS ALFONSO** | Magíster - Universidad de San Martín de Porres - Maestro en Turismo y Hotelería / Especialidad: Marketing Turístico y Hotelero<br>Título Profesional - Universidad Nacional de Ingeniería - Título Profesional de Arquitecto<br>Bachiller - Universidad Nacional de Ingeniería - Bachiller en Ciencias con Mención en Arquitectura | ARC53023 - DESIGN WORKSHOP V: CITIES (TALLER DE DISEÑO V: CIUDADES), GES67089 - CAPSTONE PROJECT (PROYECTO INTEGRADOR) |

| **TORRES MANRIQUE, DANILO SANTIAGO** | Magíster - Universidad Alberto Hurtado - Magíster en Economía<br>Título Profesional - Universidad Nacional del Callao - Título Profesional de Economista<br>Bachiller - Universidad Nacional del Callao - Bachiller en Economía | ECO51011 - INTERMEDIATE MICROECONOMICS (MICROECONOMÍA INTERMEDIA) |
| **TORRES MAYANGA, PAULO CESAR** | Doctor - Universidade Estadual de Campinas - Doctor en Ingeniería de Alimentos<br>Magíster - Universidade Estadual de Campinas - Magíster en Ingeniería de Alimentos<br>Título Profesional - Universidad Nacional Pedro Ruiz Gallo - Título Profesional de Ingeniero Químico<br>Bachiller - Universidad Nacional Pedro Ruiz Gallo - Bachiller en Ingeniería Química | IGN41001 - FUNDAMENTALS OF ENGINEERING (FUNDAMENTOS DE INGENIERÍA) |
| **TORRES OBREGON, SARAH ESTHER BEATRIZ** | Magíster - Universidad Internacional Iberoamericana UNINI - Maestría en Educación<br>Segunda Especialidad - Universidad Nacional Mayor de San Marcos - Título de Segunda Especialidad Profesional en Nutrición Clínica<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Licenciada en Nutrición<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Nutrición | NUH51022 - DIET THERAPY FOR CHILDREN AND ADULTS (DIETOTERAPIA DEL NIÑO Y DEL ADULTO) |
| **TORRES ORTIZ, KARIN MERCEDES** | Magíster - Universidad Femenina del Sagrado Corazón - Maestra en Psicología con Mención en Diagnóstico e Intervención Psicoeducativa<br>Título Profesional - Universidad Inca Garcilaso de la Vega - Título Profesional de Licenciada en Psicología<br>Bachiller - Universidad Nacional Federico Villarreal - Bachiller en Psicología | DRH63011 - EDUCATIONAL COACHING (COACHING EDUCATIVO), INV41052 - EDUCATIONAL RESEARCH (INVESTIGACIÓN EDUCACIONAL), PSI51020 - GENERAL PSYCHOLOGY (PSICOLOGÍA GENERAL), PSI51024 - PSYCHOLOGY OF LEARNING (PSICOLOGÍA DEL APRENDIZAJE), PSI52006 - EDUCATIONAL EVOLUTIONARY PSYCHOLOGY (PSICOLOGÍA EVOLUTIVA PARA EDUCACIÓN), PSI53012 - CHILD PSYCHOLOGY (PSICOLOGÍA DEL INFANTE) |
| **TORRES VILLALOBOS, GUADALUPE** | Magíster - Universidad de San Martín de Porres - Maestro en Psicología con mención en Psicología Clínica<br>Título Profesional - Universidad de San Martín de Porres - Título Profesional de Licenciada en Psicología<br>Bachiller - Universidad de San Martín de Porres - Bachiller en Psicología | EST52018 - STATISTICAL METHODS IN PSYCHOLOGY (MÉTODOS ESTADÍSTICOS EN PSICOLOGÍA), INV61069 - THESIS SEMINAR I (SEMINARIO DE TESIS I), INV61070 - THESIS SEMINAR II (SEMINARIO DE TESIS II), PSI51051 - PSYCHOMETRICS (PSICOMETRÍA) |
| **TOVAR GALARRETA, JUAN CARLOS ALFREDO** | Magíster - Pontificia Universidad Católica del Perú - Maestro en Informática con Mención en Ciencias de la Computación<br>Título Profesional - Universidad Nacional del Callao - Título Profesional de Ingeniero de Sistemas<br>Bachiller - Universidad Nacional del Callao - Bachiller en Ingeniería de Sistemas | SFW62034 - CLOUD COMPUTING (CLOUD COMPUTING), AIS62004 - INFORMATION RECOVERY SYSTEMS (SISTEMAS DE RECUPERACIÓN DE INFORMACIÓN) |
| **TRUJILLO TAFUR, JORGE LUIS** | Magíster - Universidad Politécnica de Madrid - Título Oficial de Máster Universitario en Análisis del Riesgo Sísmico mediante Tecnologías Geoespaciales<br>Título Profesional - Universidad San Ignacio de Loyola - Título Profesional de Ingeniero Civil<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Ingeniería Civil | ECC51001 - CONCRETE TECHNOLOGY (TECNOLOGÍA DEL CONCRETO), ICV51001 - DYNAMICS (DINÁMICA), ICV51003 - STATICS (ESTÁTICA), ICV51030 - CONSTRUCTION MATERIALS (MATERIALES DE CONSTRUCCIÓN), ICV51033 - SURVEYING (CAMPO DE TOPOGRAFÍA), ICV51036 - SURVEYING (TOPOGRAFÍA), IMA51001 - MATERIAL MECHANICS I (MECÁNICA DE MATERIALES I) |
| **TSUCHIYA WATANABE, RICARDO ALBERTO** | Magíster - Universidad San Ignacio de Loyola - Maestro en Diseño Gráfico<br>Título Profesional - Universidad San Ignacio de Loyola - Licenciado en Educación / Especialidad en Letras y Humanidades<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Educación | ART51040 - INTERDISCIPLINARY PROJECT DESIGN (PROYECTO DE DISEÑO INTERDISCIPLINARIO), ART51042 - INFORMATION DESIGN II (DISEÑO DE LA INFORMACIÓN II), ART51047 - DESIGN VI (DISEÑO VI), ART51049 - DESIGN IV (DISEÑO IV), ART51050 - TYPOGRAPHY AND DESIGN (TIPOGRAFÍA Y DISEÑO) |
| **TUBINO BARDALES, BEATRIZ PAOLA** | Magíster - BAR-ILAN UNIVERSITY - Maste Of Business Adminitration International MBA Program<br>Título Profesional - Universidad Nacional Agraria La Molina - Título de Ingeniero en Industrias Alimentarias<br>Bachiller - Universidad Nacional Agraria La Molina - Bachiller Ciencias Industrias Alimentarias | AGG61007 - AGRIBUSINESS (AGRIBUSINESS) |
| **TUESTA VILA, JAZMIN ALICIA** | Magíster - Universidad de Belgrano - Título de Magíster en Psicología Empresarial y Organizacional<br>Título Profesional - Pontificia Universidad Católica de Chile - Licenciada en Psicología<br>Bachiller - Pontificia Universidad Católica de Chile - Bachiller en Ciencias Sociales y Humanidades | INV41056 - RESEARCH METHODOLOGY (METODOLOGÍA DE LA INVESTIGACIÓN), INV61060 - THESIS SEMINAR I (SEMINARIO DE TESIS I), INV61061 - THESIS SEMINAR II (SEMINARIO DE TESIS II) |

| NAME | SUMMARY | COURSE TAUGHT |
|---|---|---|
| **TUPAC APAZA, RICARDO** | Magíster - Universidad ESAN - Magíster en Marketing<br>Título Profesional - Universidad Nacional del Altiplano - Título de Ingeniero Estadístico e Informático<br>Bachiller - Universidad Nacional del Altiplano - Bachiller en Ciencias Estadísticas e Informática | MAR54009 - MARKET RESEARCH (INVESTIGACIÓN DE MERCADOS), MKA57005 - ADVANCED MARKET RESEARCH (INVESTIGACIÓN Y ANÁLISIS DE MERCADOS AVANZADA), MKA57004 - MARKET RESEARCH AND ANALYSIS (INVESTIGACIÓN Y ANÁLISIS DE MERCADO), MKA57005 - INVESTIGACIÓN Y ANÁLISIS DE MERCADOS AVANZADA (INVESTIGACIÓN Y ANÁLISIS DE MERCADOS AVANZADA ) |
| **UGARTE NUÑEZ, KATERYN DEL CARMEN** | Magíster - Universidad Alas Peruanas - Maestro en Salud Ocupacional<br>Título Profesional - Universidad de San Martín de Porres - Título de Médico Cirujano<br>Bachiller - Universidad de San Martín de Porres - Bachiller en Medicina | MEH51054 - MEDICAL PRACTICE AND PROFESSIONALISM I (PRÁCTICA Y PROFESIONALISMO MÉDICO I), MEH51057 - MEDICAL PRACTICE AND PROFESSIONALISM IV (PRÁCTICA Y PROFESIONALISMO MÉDICO IV) |
| **UGAS LECAROS, GIANELLA NICOLE** | Magíster - Universidad San Ignacio de Loyola - Maestro en Ciencias Empresariales con Mención en Gestión de Proyectos<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Relaciones Internacionales | EPD51001 - ENTREPRENEURIAL SPIRIT (ESPÍRITU EMPRESARIAL), GES41055 - BUSINESS OPPORTUNITIES (OPORTUNIDADES DE NEGOCIOS) |
| **ULLOA GONZALES, EDUARDO MAXIMO** | Magíster - Universidad Peruana de Ciencias Aplicadas - Maestro en Regulación<br>Título Profesional - Universidad de Lima - Título Profesional de Economista<br>Bachiller - Universidad de Lima - Bachiller en Economía | GES87080 - PUBLIC INVESTMENT PROJECT FORMULATION AND ASSESSMENT (FORMULACIÓN Y EVALUACIÓN DE PROYECTOS DE INVERSIÓN PÚBLICA), TAX81012 - TRUSTS, WORKS FOR TAXES, AND PUBLIC-PRIVATE PARTNERSHIPS (FIDEICOMISOS, OBRAS POR IMPUESTOS Y ASOCIACIONES PÚBLICO-PRIVADAS) |
| **URDAY ZEGARRA, SERGIO JUAN PEDRO** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Economía<br>Título Profesional - Pontificia Universidad Católica del Perú - Título de Licenciado en Economía<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Ciencias Sociales con mención en Economía | ECO51030 - ECONOMICS PRINCIPLES (PRINCIPIOS DE ECONOMÍA), ECO61018 - ECONOMETRICS I (ECONOMETRÍA I) |
| **URRELO HUIMAN, LUIS VLADIMIR** | Doctor - Universidad Nacional de Trujillo - Doctor en Ciencias e Ingeniería<br>Doctor - Universidad San Pedro - Doctor en Gestión y Ciencias de la Educación<br>Magíster - Universidad Privada Antenor Orrego - Maestro en Ingeniería de Sistemas / Ingeniería de Software<br>Magíster - Universidad Privada Antenor Orrego - Maestro en Ingeniería de Sistemas / Sistemas de Información<br>Título Profesional - Universidad Privada Antenor Orrego - Título Profesional de Ingeniero de Computación y Sistemas<br>Bachiller - Universidad Privada Antenor Orrego - Bachiller en Ingeniería de Computación y Sistemas | IIS64026 - BIG DATA AND DATA ANALYTICS (BIG DATA Y ANALÍTICA DE DATOS) |
| **URTEAGA LINARES, ALFREDO ENRIQUE** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Gobierno y Políticas Públicas<br>Bachiller - Universidad de Lima - Bachiller en Contabilidad y Finanzas | FIN66023 - INTERNATIONAL FINANCE (FINANZAS INTERNACIONALES) |
| **VALDERRAMA NEGRON, PEDRO MARTIN** | Magíster - Universidad Nacional del Callao - Maestro en: Gerencia de la Calidad y Desarrollo Humano<br>Título Profesional - Universidad Nacional del Callao - Título Profesional de Ingeniero Químico<br>Bachiller - Universidad Nacional del Callao - Bachiller en Ingeniería Química | CIG52001 - UNIT OPERATIONS (OPERACIONES UNITARIAS), FIS41006 - PHYSICAL CHEMISTRY (FISICOQUÍMICA), IIN51015 - INDUSTRIAL PROCESSES TECHNOLOGY (TECNOLOGÍA DE PROCESOS INDUSTRIALES), IIN52002 - METHODS ENGINEERING I (INGENIERÍA DE MÉTODOS I) |
| **VALDERRAMA ZAPATA, CARLOS ALBERTO** | Magíster - Universidad de San Martín de Porres - Maestro en Educación con mención en Informática y Tecnología Educativa<br>Título Profesional - Universidad San Ignacio de Loyola - Título Profesional de Licenciado en Educación Especialidad Ciencia y Tecnología<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Ingeniería Empresarial y de Sistemas<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Educación | IIS52047 - FUNDAMENTALS OF DIGITAL COMPETENCIES (FUNDAMENTOS EN COMPETENCIAS DIGITALES), INV61060 - THESIS SEMINAR I (SEMINARIO DE TESIS I), IIS52046 - FUNDAMENTALS OF DIGITAL COMPETENCIES (FUNDAMENTOS EN COMPETENCIAS DIGITALES) |

| NAME | SUMMARY | COURSE TAUGHT |
|---|---|---|
| **VALDEZ SILVA, FRANCISCO ANTONIO** | Magíster - Universidad Autónoma de Madrid - Título de Máster en Derecho Penal<br>Magíster - Universidad Rey Juan Carlos - Título Oficial de Máster Universitario en Derecho Penal Económico<br>Magíster - Universidade de Santiago de Compostela - Título Propio de Máster Internacional en Prevención e Represión do Branqueo de Diñeiro, Fraude Fiscal e ¨Compliance¨<br>Magíster - Universidad de Castilla-La Mancha - Título de Máster en Cumplimiento Normativo en Materia Penal<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Abogado<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Derecho | DER64088 - ECONOMIC CRIMINAL LAW (DERECHO PENAL ECONÓMICO) |
| **VALDIVIA MERA, HECTOR RAUL** | Magíster - Universidad Alas Peruanas - Maestro en Administración y Dirección de Empresas<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Licenciado en Educación Secundaria Especialidad: Matemática y Física<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Educación | CAP51038 - FOOD & BEVERAGE COSTS (COSTOS DE ALIMENTOS Y BEBIDAS), CUL58018 - FOOD AND BEVERAGE COST CONTROL (CONTROL DE COSTOS GASTRONÓMICOS) |
| **VALDIVIESO LOPEZ, ERIKA JANET** | Magíster - Universidad de Piura - Máster en Derecho Privado Empresarial<br>Título Profesional - Universidad de Piura - Título de Abogado<br>Bachiller - Universidad de Piura - Bachiller en Derecho | DER52033 - INTRODUCTION TO PHILOSOPHY OF LAW (INTRODUCCIÓN A LA FILOSOFÍA DEL DERECHO) |
| **VALDIVIEZO LAMA, NATALIA ISABEL** | Segunda Especialidad - Universidad Peruana Cayetano Heredia - Título de Especialista en Medicina General y Oncológica<br>Título Profesional - Universidad Nacional de Piura - Título Profesional de Medico Cirujano<br>Bachiller - Universidad Nacional de Piura - Bachiller en Medicina Humana | MEH51080 - MEDICAL ONCOLOGY (ONCOLOGÍA MÉDICA) |
| **VALDIVIEZO PALACIOS, DESYREE VANESSA** | Magíster - Universidad de Granada - Título Oficial de Máster Universitario en Artes Visuales y Educación: Un Enfoque Construccionista<br>Título Profesional - Universidad de Piura - Licenciado en Comunicación<br>Bachiller - Universidad de Piura - Bachiller en Artes con Mención en Comunicación | FGF51009 - PHOTOGRAPHY (FOTOGRAFÍA) |

| **VICTORIO GAMARRA, RICARDO** | Magíster - Universidad Nacional de Educación a Distancia - Título de Máster Universitario Internacional en Enseñanza y Aprendizaje Abiertos y a Distancia<br>Título Profesional - Universidad Marcelino Champagnat - Título de Licenciado en Educación Secundaria en la Especialidad de Psicología y Ciencias Religiosas<br>Bachiller - Universidad Marcelino Champagnat - Bachiller en Educación | EDG51002 - THEORY OF EDUCATION (TEORÍA DE LA EDUCACIÓN), EDG51014 - ASSESSMENT INSTRUMENT DESIGN (DISEÑO DE INSTRUMENTOS DE EVALUACIÓN), EDG51015 - CURRICULAR PLANNING AND DESIGN (DISEÑO Y PROGRAMACIÓN CURRICULAR), EDG52030 - POLITICAL CULTURE AND PERUVIAN EDUCATION (CULTURA POLÍTICA Y REALIDAD DE LA EDUCACIÓN PERUANA), EDG62026 - TEACHING AND LEARNING STRATEGIES (ESTRATEGIAS DE ENSEÑANZA APRENDIZAJE), EIC61053 - INTERMEDIATE INTERNSHIP (PRÁCTICA PRE-PROFESIONAL INTERMEDIA), GES66014 - MANAGEMENT AND LEGISLATION IN EDUCATIONAL INSTITUTIONS (GERENCIA Y LEGISLACIÓN EN INSTITUCIONES EDUCATIVAS) |
| **VIDAL ENDARA, RUBEN FELIPE** | Magíster - Universite Clermont Ferrand I Auvergne - Magíster en Gestión / Especialidad : Logística<br>Magíster - Universite Clermont Ferrand I Auvergne - Maîtrise Management, dans le domaine Droit, Economie, Gestion<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Ingeniero Industrial<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Ingeniería Industrial | IIN62026 - OPERATIONS PLANNING AND CONTROL (PLANEAMIENTO Y CONTROL DE OPERACIONES), IIN62027 - CAPSTONE PROJECT FOR ENGINEERING (PROYECTO INTEGRADOR PARA INGENIERÍA), INV61060 - THESIS SEMINAR I (SEMINARIO DE TESIS I) |
| **VIDAL SOLORZANO, GERARDO JAVIER** | Título Profesional - Universidad Ricardo Palma - Título Profesional de Arquitecto<br>Bachiller - Universidad Ricardo Palma - Bachiller en Arquitectura | ARC61007 - STANDARDS AND MANAGEMENT (NORMATIVIDAD Y GESTIÓN), DAR52008 - DIGITAL GRAPHIC EXPRESSION I (EXPRESIÓN GRÁFICA DIGITAL 1) |
| **VIGIL CORNEJO, FERNANDO RAFAEL** | Doctor - Universidad Inca Garcilaso de la Vega - Doctor en Administración<br>Magíster - Universidad ESAN - Magíster en Administración<br>Título Profesional - Universidad Peruana Cayetano Heredia - Título de Licenciado en Química<br>Bachiller - Universidad Peruana Cayetano Heredia - Bachiller en Ciencias con mención en Química | INV82037 - RESEARCH METHODOLOGY (METODOLOGÍA DE INVESTIGACIÓN), INV82038 - THESIS SEMINAR I (SEMINARIO DE TESIS I) |
| **VIGIL CORNEJO, MARIA ISABEL** | Doctor - Universidad Inca Garcilaso de la Vega - Doctor en Educación<br>Magíster - Universidad Inca Garcilaso de la Vega - Maestra en Investigación y Docencia Universitaria<br>Título Profesional - Universidad Inca Garcilaso de la Vega - Título de Licenciado en Educación Especialidad: Educación Inicial<br>Bachiller - Universidad Inca Garcilaso de la Vega - Bachiller en Educación | INV82038 - THESIS SEMINAR I (SEMINARIO DE TESIS I), INV82039 - THESIS SEMINAR II (SEMINARIO DE TESIS II) |
| **VIGIL LEON, JOSE LUIS** | Doctor - Universidad Nacional de Educación Enrique Guzmán y Valle - Doctor en Ciencias de la Educación<br>Magíster - Escuela Superior de Guerra del Ejército - Maestro en Ciencias Militares con mención en Planeamiento Estratégico y Toma de Decisiones<br>Magíster - Universidad Inca Garcilaso de la Vega - Maestro en Administración<br>Título Profesional - Escuela Militar de Chorrillos - Título Profesional de Licenciado en Ciencias Militares con mención en Administración<br>Bachiller - Escuela Militar de Chorrillos - Bachiller en Ciencias Militares | GES84038 - STRATEGIC VISION AND PLANNING IN GOVERNMENT (VISIÓN ESTRATÉGICA DEL ESTADO Y PLANEAMIENTO ESTRATÉGICO), OSO81005 - STRUCTURE AND ORGANIZATION OF THE STATE (ESTRUCTURA Y ORGANIZACIÓN DEL ESTADO), PAD81002 - PUBLIC ADMINISTRATION IN REGIONAL AND LOCAL GOVERNMENT (ADMINISTRACIÓN PÚBLICA EN GOBIERNOS REGIONALES Y LOCALES), RSO81022 - SOCIAL RESPONSIBILITY IN GOVERNMENT (RESPONSABILIDAD SOCIAL EN EL ESTADO) |
| **VIGO IBAÑEZ, EMPERATRIZ** | Magíster - Instituto Tecnológico y de Estudios Superiores de Monterrey - Maestra en Administración<br>Título Profesional - Universidad Peruana de Ciencias Aplicadas - Título Profesional de Licenciada en Marketing<br>Título Profesional - Universidad Peruana de Ciencias Aplicadas - Título Profesional de Licenciada en Administración<br>Bachiller - Universidad Peruana de Ciencias Aplicadas - Bachiller en Administración y Marketing | MKA52016 - DIGITAL MARKETING (MARKETING DIGITAL) |
| **VILA RICHARTE, ALVARO CESAR** | Magíster - Universidad Norbert Wiener - Maestro en Docencia Universitaria<br>Título Profesional - Universidad Nacional de Educación Enrique Guzmán y Valle - Título Profesional de Licenciado en Gastronomía<br>Bachiller - Universidad Nacional de Educación Enrique Guzmán y Valle - Bachiller en Gastronomía | CUL55008 - BAKING TECHNIQUES AND PROCESSES I (TÉCNICAS Y PROCESOS DE PANIFICACIÓN I) |
| **VILCHEZ ASTUCURI, JORDY VILAYIL** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Administración Estratégica de Empresas<br>Título Profesional - Pontificia Universidad Católica del Perú - Título de Ingeniero de Telecomunicaciones<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Ciencias con mención en Ingeniería de Telecomunicaciones | GEA81002 - STAKEHOLDER MANAGEMENT (GESTIÓN DE STAKEHOLDERS), GES84038 - STRATEGIC VISION AND PLANNING IN GOVERNMENT (VISIÓN ESTRATÉGICA DEL ESTADO Y PLANEAMIENTO ESTRATÉGICO), RSO81022 - SOCIAL RESPONSIBILITY IN GOVERNMENT (RESPONSABILIDAD SOCIAL EN EL ESTADO) |

| NAME | SUMMARY | COURSE TAUGHT |
|---|---|---|
| **VILCHEZ CHUMPITAZ, HANS AARON** | Magíster - Universidad Inca Garcilaso de la Vega - Maestro en Investigación y Docencia Universitaria<br>Título Profesional - Universidad Ricardo Palma - Título Profesional de Ingeniero Mecatrónico<br>Bachiller - Universidad Ricardo Palma - Bachiller en Ingeniería Mecatrónica | FIS51009 - MECHANICS (MECÁNICA) |
| **VILCHEZ LAVADO, HAROLD CLAESEN** | Segunda Especialidad - Universidad de San Martín de Porres - Título de Segunda Especialidad en Medicina Familiar y Comunitaria<br>Título Profesional - Universidad Privada San Juan Bautista - Título Profesional de Médico Cirujano<br>Título Profesional - Universidad Peruana Cayetano Heredia - Título de Licenciado en Tecnología Médica Especialidad de Terapia Ocupacional<br>Bachiller - Instituto Superior Pedagógico Privado "San Juan Bosco" - Bachiller en Medicina Humana<br>Bachiller - Universidad Peruana Cayetano Heredia - Grado de Bachiller en Tecnología Médica | MEH51026 - MORPHOFUNCTIONAL INTEGRATION OF THE RESPIRATORY SYSTEM (INTEGRACIÓN MORFOFUNCIONAL DEL SISTEMA RESPIRATORIO), MEH51053 - FUNDAMENTALS OF HEALTH PROMOTION (FUNDAMENTOS DE LA PROMOCIÓN DE SALUD) |
| **VILCHEZ YUCRA, NIDIA RUTH** | Doctor - Universidad Nacional Federico Villarreal - Doctora en Administración<br>Magíster - Pontificia Universidad Católica del Perú - Magíster en Administración de Negocios<br>Título Profesional - Universidad Nacional Federico Villarreal - Título de Contador Público<br>Bachiller - Universidad Nacional Federico Villarreal - Bachiller en Contabilidad | MAR85018 - POLITICAL MARKETING (MARKETING POLÍTICO) |
| **VILLA TALAVERA, MORAIMA VICTORIA** | Magíster - Universidad San Ignacio de Loyola - Magíster en Ciencias Empresariales<br>Título Profesional - Universidad San Ignacio de Loyola - Licenciado en Administración Hotelera<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Administración Hotelera<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Administración en Turismo | GHO61019 - EVENT MANAGEMENT (DIRECCIÓN DE EVENTOS), RER61033 - EVENT MANAGEMENT (GESTIÓN DE EVENTOS) |
| **VILLACRES VELA, CESAR HUMBERTO** | Magíster - Universidad ESAN - Maestro en Administración<br>Segunda Especialidad - Universidad Nacional Federico Villarreal - Título de Especialista en Geriatría<br>Título Profesional - Universidad Nacional Federico Villarreal - Título de Médico Cirujano<br>Bachiller - Universidad Nacional Federico Villarreal - Grado de Bachiller en Medicina | MEH61072 - EXTERNSHIP IN MEDICINE (EXTERNADO EN MEDICINA) |
| **VILLAFANI LUYO, HUMBERTO CROSSI** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Economía<br>Título Profesional - Universidad Nacional de Ingeniería - Título Profesional de Ingeniero de Petróleo y Gas Natural<br>Bachiller - Universidad Nacional de Ingeniería - Bachiller en Ingeniería De Petróleo y Gas Natural | ECO51030 - ECONOMICS PRINCIPLES (PRINCIPIOS DE ECONOMÍA), ECO62002 - CURRENTS OF ECONOMIC THOUGHT (CORRIENTES DEL PENSAMIENTO ECONÓMICO), ECO62004 - APPLIED MATHEMATICAL ECONOMICS II (ECONOMÍA MATEMÁTICA APLICADA II), EST42010 - STATISTICS FOR ECONOMISTS (ESTADÍSTICA PARA ECONOMISTAS) |
| **VILLAMAR ROMERO, ROGER MAURICE** | Doctor - University of South Florida - Doctor of Philosophy / Applied Anthropology<br>Magíster - Montclair State University - Master of Arts / Anthropology<br>Bachiller - William Patterson College - Bachelor of Arts / Sociology / Anthropology | RIN61003 - INTERNATIONAL COOPERATION PROJECT ASSESSMENT (EVAL. DE PROYECTOS DE COOPERACIÓN INTERNACIONAL), RIN61032 - RESEARCH SEMINAR I (SEMINARIO DE INVESTIGACIÓN I), RIN61035 - THE GLOBAL POWER POLITICS (THE GLOBAL POWER POLITICS) |
| **VILLANUEVA CCAHUANA, PHILARINE STEFANY** | Doctor - Universidad Nacional Mayor de San Marcos - Doctora en Literatura Peruana y Latinoamericana<br>Magíster - Universidad Nacional Mayor de San Marcos - Magíster en Arte Peruano y Latinoamericano con mención en Historia del Arte<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Licenciada en Literatura<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Literatura | COM42037 - LANGUAGE AND COMMUNICATION I (LENGUAJE Y COMUNICACIÓN I), COM42039 - LANGUAGE AND COMMUNICATION II (LENGUAJE Y COMUNICACIÓN II) |
| **VILLANUEVA RAMOS, MARIA BRISEIDA** | Magíster - Universidad de Lima - Maestro en Tributación y Política Fiscal<br>Título Profesional - Pontificia Universidad Católica del Perú - Título Profesional de Abogado<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Derecho | DER54049 - INTERNATIONAL COMMERCIAL LAW (DERECHO COMERCIAL INTERNACIONAL) |
| **VILLAR BARNUEVO, JULIO CESAR** | Magíster - Universidad San Ignacio de Loyola - Magíster en Administración de Negocios (M.B.A.)<br>Título Profesional - Universidad Inca Garcilaso de la Vega - Título Profesional de Ingeniero Industrial<br>Bachiller - Universidad Inca Garcilaso de la Vega - Bachiller en Ingeniería Industrial | BRC51005 - BANK ANALYSIS (ANÁLISIS BANCARIO), GES57056 - PROJECT ASSESSMENT (EVALUACIÓN DE PROYECTOS) |

| NAME | SUMMARY | COURSE TAUGHT |
|---|---|---|
| **VILLAR GALVEZ, LUISA MARIA DEL PILAR** | Programa de Especialización - ESNECA Business School - Título de Maestría Internacional en Psicología del Deporte | EFO61002 - PHYSICAL ACTIVITY FOR SPECIAL NEEDS POPULATIONS (ACTIVIDAD FÍSICA PARA POBLACIONES CON NECESIDADES ESPECIALES) |
| **VILLAR LAVALLE, HUGO MARTIN** | Doctor - Universidad Autónoma de Nuevo León - Doctorado en Filosofía con Especialidad en Administración<br>Magíster - Universidad Peruana de Ciencias Aplicadas - Maestro en Administración de Empresas<br>Título Profesional - Universidad de San Martín de Porres - Título de Licenciado en Relaciones Industriales<br>Bachiller - Universidad de San Martín de Porres - Bachiller en Relaciones Industriales | DRH81031 - LEADERSHIP AND STRATEGIC TALENT MANAGEMENT (LIDERAZGO Y GESTIÓN ESTRATÉGICA DEL TALENTO HUMANO), DRH85013 - ORGANIZATIONAL BEHAVIOR AND THE INDIVIDUAL (COMPORTAMIENTO ORGANIZACIONAL Y EL INDIVIDUO) |
| **VILLAVICENCIO CARRANZA, OLENKA ERIKA** | Magíster - Universidad San Ignacio de Loyola - Maestro en Educación con mención en Gestión de la Educación<br>Título Profesional - Universidad Privada Antenor Orrego - Título Profesional de Ingeniera de Computación y Sistemas<br>Título Profesional - Universidad Nacional de Trujillo - Título Profesional de Licenciada en Educación Secundaria / Mención: Inglés - Francés<br>Bachiller - Universidad Privada Antenor Orrego - Bachiller en Ingeniería de Computación y Sistemas<br>Bachiller - Universidad Nacional de Trujillo - Bachiller en Educación | ENG42079 - ENGLISH I (ENGLISH I), ENG42080 - ENGLISH I (ENGLISH I), ENG42081 - ENGLISH II (ENGLISH II), ENG42082 - ENGLISH II (ENGLISH II), ENG42084 - ENGLISH III (ENGLISH III) |
| **VILLAVICENCIO VARGAS, GUISELLA** | Magíster - Universidad Europea del Atlántico - Máster Universitario en Lingüística aplicada a la enseñanza del Inglés como Lengua Extranjera<br>Título Profesional - Universidad Nacional Federico Villarreal - Título de Licenciado en Educación Especialidad: Inglés<br>Bachiller - Universidad Nacional Federico Villarreal - Bachiller en Educación | EDG51019 - PROJECTS IN THE CLASSROOM (PROJECTS IN THE CLASSROOM), ENC51001 - ENGLISH COMPOSITION (ENGLISH COMPOSITION), ENG53009 - ENGLISH VOCABULARY (ENGLISH VOCABULARY), ESE61021 - TEACHING ENGLISH AS SECOND LANGUAGE: METHODS & S. I (TEACHING ENGLISH AS SECOND LANGUAGE: METHODS & S. I) |
| **VILLENA ATOCHE, CESAR AUGUSTO** | Magíster - Universidad Santo Domingo/ Universidad Nacional de Educación Enrique Guzman y Valle - Maestro en Ciencias de la Educación con mención en Gestión educacional<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Licenciado en Matemática<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Matemática | MAT42040 - MATHEMATICS (MATEMÁTICA) |
| **VIRTO QUISPE, AMERICO JESUS** | Magíster - UniversitÁ Commerciale Luigi Bocconi - Magíster de Primer Nivel en Finanzas Cuantitativas y Gestión de Riesgos<br>Título Profesional - Universidad Nacional Federico Villarreal - Título de Ingeniería Industrial<br>Bachiller - Universidad Nacional Federico Villarreal - Bachiller en Ingeniería Industrial | FIN52016 - FINANCIAL RISKS (RIESGOS FINANCIEROS), FIN54003 - CAPITAL MARKET (MERCADO DE CAPITALES) |
| **VIVANCO ALVAREZ, RAFAEL ERNESTO** | Doctor - Universidad Complutense de Madrid / Universidad de Granada / Universitat de Barcelona / Universitat de Girona - Título Universitario Oficial de Doctor dentro del Programa de Doctorado en Artes y Educación<br>Magíster - Universidad Ricardo Palma - Maestro en Docencia Superior<br>Título Profesional - Universidad San Ignacio de Loyola - Título Profesional de Licenciado en Educación<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Educación | ART51046 - ILLUSTRATION (ILUSTRACIÓN), ART51052 - NATURE DRAWING I (DIBUJO NATURAL I) |
| **VIVAS PACHAS, JORGE LUIS** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Enseñanza de las Matemáticas<br>Bachiller - Universidad Nacional del Callao - Bachiller en Matemática | MAC41025 - CALCULUS OF ONE VARIABLE (CÁLCULO DE UNA VARIABLE), MAC41016 - CALCULUS OF SEVERAL VARIABLES (CÁLCULO DE VARIAS VARIABLES) |
| **VIZARRETA VILCARROMERO, WALTER MANUEL** | Magíster - University of Texas at Austin - Master of Business Administration<br>Bachiller - Universidad del Pacífico - Bachiller en Administración | TGT61007 - TOURISM CONSULTING (CONSULTORÍA TURÍSTICA), TGT62013 - TOURISM PRODUCT DEVELOPMENT (DESARROLLO DE PRODUCTOS TURÍSTICOS) |
| **WILLIAMS ALBITES, CARLOS EDUARDO** | Magíster - Universidad Internacional de la Rioja - Título Oficial de Máster Universitario en Composición Musical con Nuevas Tecnologías<br>Bachiller - Facultad de Teología Pontificia y Civil de Lima - Bachiller en Educación | MUS51010 - INTRODUCTION TO AUDIO TECHNOLOGY (INTRODUCCIÓN A LA TECNOLOGÍA DE AUDIO) |
| **WONG ORTIZ, JULIO NICANOR** | Magíster - Universidad Internacional de la Rioja - Título Universitario Oficial Máster Universitario en Prevención de Riesgos Laborales<br>Título Profesional - Universidad Ricardo Palma - Título Profesional de Arquitecto<br>Bachiller - Universidad Ricardo Palma - Bachiller en Arquitectura | ARC53025 - DESIGN WORKSHOP III: SYSTEMS (TALLER DE DISEÑO III: SISTEMAS) |
| **YABIKU SOTO, KIOMI DENISSE** | Magíster - Universidad Internacional de la Rioja - Máster Universitario en Estudios Nutricionales de Precisión y Epidemiología Nutricional<br>Título Profesional - Universidad Científica del Sur - Título Profesional de Licenciada en Nutrición y Dietética<br>Bachiller - Universidad Científica del Sur - Bachiller en Nutrición y Dietética | GES67075 - CAPSTONE PROJECT (PROYECTO INTEGRADOR) |

| NAME | SUMMARY | COURSE TAUGHT |
|---|---|---|
| **YACILA MARCHAN, DANY DONATO** | Magíster - Universidad Internacional de la Rioja - Título Oficial de Máster Universitario en Composición Musical con Nuevas Tecnologías<br>Bachiller - Universidad Nacional de Música - Bachiller en Música - Educación Musical | MUS51001 - INSTRUMENT II (INSTRUMENTO II), MUS51004 - INSTRUMENT I (INSTRUMENTO I), MUS51009 - SECOND INSTRUMENT I (INSTRUMENTO COMPLEMENTARIO I) |
| **YANAC AVILA, ROMMEL LUIS** | Segunda Especialidad - Universidad Nacional Mayor de San Marcos - Título de Segunda Especialidad Profesional en Hematología<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Médico Cirujano<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Medicina | MEH51024 - MORPHOFUNCTIONAL INTEGRATION OF THE HEMATOPOIETIC SYSTEM (INTEGRACIÓN MORFOFUNCIONAL DEL SISTEMA HEMATOPOYÉTICO) |
| **YARASCA HUANACUNE, JORGE ANDRES** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Ingeniería Mecánica<br>Título Profesional - Universidad Nacional de Ingeniería - Título Profesional de Ingeniero Mecánico<br>Bachiller - Universidad Nacional de Ingeniería - Bachiller en Ciencias con mención en Ingeniería Mecánica | IMC51020 - STRENGTH OF MATERIALS (RESISTENCIA DE MATERIALES) |
| **YARLEQUE MEDINA, EMMANUEL FELIX** | Doctor - Universidade Federal de Juiz de Fora - Título de Doutor em Modelagem Computacional<br>Magíster - Universidade Federal de Juiz de Fora - Título de Mestre em Modelagem Computacional<br>Bachiller - Universidad Nacional del Callao - Bachiller en Matemática | SFW52043 - COMPUTATIONAL LINEAR ALGEBRA (ÁLGEBRA LINEAL COMPUTACIONAL), FSW56001 - COMPUTATIONAL LINEAR ALGEBRA (ÁLGEBRA LINEAL COMPUTACIONAL) |
| **YARLEQUE WONG, VICTOR** | Magíster - Universidad Ricardo Palma - Maestro en Administración de Negocios<br>Título Profesional - Universidad Nacional de Educación Enrique Guzmán y Valle - Título Profesional de Licenciado en Educación / Área Principal: Historia - Área Secundaria: Ciencias Sociales<br>Título Profesional - Universidad de San Martín de Porres - Título de Contador Público<br>Bachiller - Universidad Nacional de Educación Enrique Guzmán y Valle - Bachiller en Ciencias de la Educación<br>Bachiller - Universidad de San Martín de Porres - Bachiller en Contabilidad | FIN52023 - FINANCE (FINANZAS) |
| **YEPES SALAZAR, ALICIA DEL PILAR** | Magíster - Universidad de Lima - Máster en Banca y Finanzas<br>Título Profesional - Universidad Ricardo Palma - Título Profesional de Economista<br>Bachiller - Universidad Ricardo Palma - Bachiller en Economía | ECO51027 - BASIC ECONOMICS (ECONOMÍA BÁSICA), FIN54001 - CAPITAL MARKET (CAPITAL MARKET) |
| **YEPEZ CASTRO, JOSE ALONSO** | Doctor - Universidad Nacional Mayor de San Marcos - Doctor en Derecho y Ciencia Política<br>Magíster - Academia Diplomática del Perú Javier Pérez de Cuéllar - Máster en Diplomacia y Relaciones Internacionales<br>Título Profesional - Pontificia Universidad Católica del Perú - Título de Abogado<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Derecho | RIN53003 - INTERNATIONAL ORGANIZATIONS (ORGANISMOS INTERNACIONALES) |
| **YORI MEJIA, MARIA TIRSSA** | Título Profesional - Universidad Peruana Cayetano Heredia - Título de Médico Cirujano<br>Bachiller - Universidad Peruana Cayetano Heredia - Bachiller en Medicina | MEH51028 - INTRODUCTION TO CLINICAL PRACTICE AND INTERPRETATION OF DIAGNOSTIC TESTS (INTRODUCCIÓN A LA CLÍNICA E INTERPRETACIÓN DE EXÁMENES AUXILIARES), MEH51063 - PRINCIPLES AND INTRODUCTION TO MEDICINE P4 (PRINCIPIOS E INTRODUCCIÓN A LA MEDICINA P4), MEH51075 - SPECIALTIES I (ESPECIALIDADES I) |
| **YZQUIERDO MARIN, ADNER** | Magíster - Universidad de Lima - Maestro en Economía con mención en Banca y Finanzas<br>Título Profesional - Universidad de San Martín de Porres - Título de Economista<br>Bachiller - Universidad de San Martín de Porres - Bachiller en Ciencias - Economía | GES67086 - CAPSTONE PROJECT (PROYECTO INTEGRADOR) |
| **ZALDIVAR PEÑA, SILVIA ELISA** | Magíster - Instituto Tecnológico y de Estudios Superiores de Monterrey - Maestra en Ingeniería con Especialidad en Sistemas de Calidad y Productividad<br>Título Profesional - Universidad de Lima - Título Profesional de Ingeniero Industrial<br>Bachiller - Universidad de Lima - Bachiller en Ingeniería Industrial | IIN63016 - OPERATIONS RESEARCH (INVESTIGACIÓN DE OPERACIONES) |
| **ZAMALLOA CHAVES VELANDO, CARLOS FERNANDO** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Administración Estratégica de Empresas<br>Bachiller - Universidad de Lima - Bachiller en Administración | FIN42006 - FUNDAMENTALS OF FINANCE (FUNDAMENTOS DE LAS FINANZAS), FIN52035 - FINANCIAL MATHEMATICS (MATEMÁTICA FINANCIERA), FIN52034 - FINANCIAL MATHEMATICS (MATEMÁTICA FINANCIERA) |

| NAME | SUMMARY | COURSE TAUGHT |
|---|---|---|
| **ZAMAME RAMIREZ, JOFER ANDREE** | Doctor - Universidad Estadual Paulista - Título de Doutor em Ciências, Área de Patologia<br>Magíster - Universidad Estadual Paulista - Título de Mestre em Patologia<br>Título Profesional - Universidad Nacional Mayor de San Marcos - Título Profesional de Licenciado en Tecnología Médica Área: Laboratorio Clínico y Anatomía Patológica<br>Bachiller - Universidad Nacional Mayor de San Marcos - Bachiller en Tecnología Médica | MEH51019 - PHYSIOPATHOLOGICAL INTEGRATION (INTEGRACIÓN FISIOPATOLÓGICA), MEH51052 - MICROBIOLOGY AND PARASITOLOGY (MICROBIOLOGÍA Y PARASITOLOGÍA), MEH51067 - CHEMICAL AND BIOLOGICAL PROCESSES AND NUTRITION (PROCESOS QUÍMICO-BIOLÓGICOS Y NUTRICIÓN) |
| **ZAMORA YANSI, RICHARD ISMAEL** | Magíster - Universidad Peruana Unión - Magíster en Administración de Negocios con mención en Gestión Empresarial<br>Título Profesional - Universidad Nacional de Ingeniería - Título Profesional de Ingeniero Industrial<br>Bachiller - Universidad Nacional de Ingeniería - Bachiller en Ciencias con mención en Ingeniería Industrial | NIN52005 - INTERNATIONAL OPERATIONS (INTERNATIONAL OPERATIONS) |
| **ZANABRIA CARMONA, EDSON JOEL** | Magíster - Pontificia Universidad Católica del Perú - Magíster en Gestión y Dirección de Empresas Constructoras e Inmobiliarias<br>Título Profesional - Pontificia Universidad Católica del Perú - Título de Ingeniero Civil<br>Bachiller - Pontificia Universidad Católica del Perú - Bachiller en Ciencias con mención en Ingeniería Civil | ICV61041 - CONSTRUCTION PROCEDURES II (PROCEDIMIENTOS DE CONSTRUCCIÓN II) |
| **ZAPATA GONZALES, DIEGO ALBERTO** | Magíster - Universidad de Navarra - Título Oficial de Máster Universitario en Derechos Humanos<br>Título Profesional - Universidad San Ignacio de Loyola - Título Profesional de Licenciado en Relaciones Internacionales<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Relaciones Internacionales | GLB41004 - PERU IN A GLOBAL CONTEXT (REALIDAD NACIONAL Y GLOBALIZACIÓN) |
| **ZAVALETA CALDERON, JORGE EDGAR** | Doctor - Universidad Inca Garcilaso de la Vega - Doctor en Medio Ambiente y Desarrollo Sostenible<br>Magíster - Universidad Inca Garcilaso de la Vega - Maestro en Gestión Empresarial<br>Título Profesional - Universidad Nacional de Ingeniería - Título Profesional de Ingeniero Mecánico<br>Bachiller - Universidad Nacional de Ingeniería - Bachiller en Ciencias con Mención en Ingeniería Mecánica | IMA51020 - INTRODUCTION TO TECHNICAL DRAWING FOR ENGINEERING (INTRODUCCIÓN AL DIBUJO TÉCNICO PARA INGENIERÍA) |
| **ZAVALETA MELGAR, JUANA CONSUELO** | Magíster - Universidad de San Martín de Porres - Maestro en Bioquímica y Nutrición<br>Título Profesional - Universidad Femenina del Sagrado Corazón - Título Profesional de Licenciada en Nutrición y Dietética<br>Bachiller - Universidad Femenina del Sagrado Corazón - Bachiller en Nutrición y Dietética | EDG63008 - PRE-PROFESSIONAL PRACTICES IN THE COMMUNITY (PRÁCTICAS PRE-PROFESIONALES EN LA COMUNIDAD), NUH51021 - FOOD SAFETY AND LEGISLATION (INOCUIDAD Y LEGISLACIÓN DE ALIMENTOS), NUH51038 - FUNDAMENTALS OF HEALTH: MACRO AND MICRONUTRIENTS (FUNDAMENTOS DE LA SALUD: MACRO Y MICRONUTRIENTES), NUH51046 - BROMATOLOGY (BROMATOLOGÍA DE LOS ALIMENTOS) |
| **ZEGARRA RODRIGUEZ, ELIANA** | Magíster - Universidad de Occidente - Título de Máster en Educación Superior con énfasis en Diseño Curricular por Competencia y Acreditación Universitaria<br>Título Profesional - Universidad San Ignacio de Loyola - Título Profesional de Licenciado en Arte y Diseño Empresarial<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Arte y Diseño Empresarial | ART51040 - INTERDISCIPLINARY PROJECT DESIGN (PROYECTO DE DISEÑO INTERDISCIPLINARIO), ART51042 - INFORMATION DESIGN II (DISEÑO DE LA INFORMACIÓN II), ART51050 - TYPOGRAPHY AND DESIGN (TIPOGRAFÍA Y DISEÑO), ART51101 - INFORMATION DESIGN I (DISEÑO DE LA INFORMACIÓN I) |
| **ZEGARRA RUIZ, LUIS ANTHONY** | Magíster - Universidad Nacional Mayor de San Marcos - Magíster en Gestión Integrada en Seguridad, Salud Ocupacional y Medio Ambiente<br>Título Profesional - Universidad Nacional Federico Villarreal - Título de Licenciado en Química<br>Bachiller - Universidad Nacional Federico Villarreal - Bachiller en Química | IMM61018 - RIVER BASIN AND WATER RESOURCE MANAGEMENT (GESTIÓN DE CUENCAS Y RECURSOS HÍDRICOS), QUE51008 - APPLIED CHEMISTRY (QUÍMICA APLICADA) |
| **ZELADA CHAVEZ, MIGUEL ANGEL** | Magíster - Universidad Nacional Mayor de San Marcos - Magíster en Bioquímica<br>Título Profesional - Universidad Peruana Cayetano Heredia - Título de Licenciado en Biología<br>Bachiller - Universidad Peruana Cayetano Heredia - Bachiller en Ciencias con mención en Biología | QUE51017 - ORGANIC CHEMISTRY (QUÍMICA ORGÁNICA), QUI51012 - GENERAL CHEMISTRY (QUÍMICA GENERAL) |
| **ZUBIETA ZAMUDIO, SANDRA MERCEDES** | Magíster - Universidad San Ignacio de Loyola - Magíster en Administración de Negocios (M.B.A.)<br>Título Profesional - Universidad Autónoma de Guadalajara - Título de Licenciado en Administración Hotelera | GHO62019 - LODGING OPERATIONS MANAGEMENT II (GESTIÓN DE OPERACIONES DE ALOJAMIENTO II) |
| **ZUBILETE FLORES, ALBERTO** | Certificación - Escuela de Capacitación Profesional NOVA - Certificado del módulo de Pastelería | CUL56034 - PASTRY FUNDAMENTALS AND TECHNIQUES I (FUNDAMENTOS Y TÉCNICAS DE PASTELERÍA I) |

| NAME | SUMMARY | COURSE TAUGHT |
|---|---|---|
| **ZUÑE MORALES, RICARDO HANNO** | Magíster - Universidad San Ignacio de Loyola - Maestro en Administración de Negocios - Executive MBA<br>Magíster - San Ignacio University - Master of Business Adminitration in International Business<br>Título Profesional - Universidad San Ignacio de Loyola - Título Profesional de Licenciado en Economía<br>Bachiller - Universidad San Ignacio de Loyola - Bachiller en Economía | ETM41011 - ETHICS AND CITIZENSHIP (ÉTICA Y CIUDADANÍA), PSI53001 - HUMAN DE VELOPMENT (DESARROLLO HUMANO), PSI53016 - HUMAN DE VELOPMENT (DESARROLLO HUMANO) |
| **ZUÑIGA AGUILAR, ISAAC** | Doctor - Universitat de Lleida - Título Universitario Oficial de Doctor dentro del Programa de Doctorado en Derecho y Administración de Empresas, mención Internacional<br>Magíster - Universidad ESAN - Magíster en Dirección de Empresas<br>Título Profesional - Universidad Privada Antenor Orrego - Título Profesional de Licenciado en Administración<br>Bachiller - Universidad Privada Antenor Orrego - Bachiller en Ciencias Económicas | EPD81004 - INNOVATION MANAGEMENT AND ENTREPRENEURSHIP IN NEW GLOBAL BUSINESSES (GESTIÓN DE LA INNOVACIÓN Y EMPRENDIMIENTO DE NUEVOS NEGOCIOS GLOBALES), GES83043 - STRATEGIC MANAGEMENT (DIRECCIÓN ESTRATÉGICA), GES86034 - INNOVATION MANAGEMENT (GESTIÓN DE LA INNOVACIÓN), INV81258 - SYSTEMS THINKING (PENSAMIENTO SISTÉMICO), INV82038 - THESIS SEMINAR I (SEMINARIO DE TESIS I), INV82039 - THESIS SEMINAR II (SEMINARIO DE TESIS II) |

# ACADEMIC CALENDAR 2026

| Academic Activities | Summer Courses | Term 2026-01 | Term 2026-02 |
|---|---|---|---|
| WELCOME CEREMONY FOR NEW STUDENTS (Hybrid) | N.A. | Fri. March 13 | Tue. August 11 |
| INTRODUCTORY WORKSHOP (Virtual) | N.A. | Mon. March 16 | Thu. August 13 |
| REGISTRATION AND PRIORITY INFORMATION (Registration Site) | Thu. December 11, 2025 (04:00 pm) | Thu. March 05 (04:00 pm) | Thu. July 30 (04:00 pm) |
| ORDINARY ACADEMIC ENROLLMENT AND CHOICE OF SCHEDULES (1) | Mon. 15 to Wed. 17 of December 2025 | Mon. March 09 to Thu. March 12 | Fri. August 07 to Wed. August 12 |
| CHANGES AND/OR CANCELLATION OF ENROLLMENT (Deadline date) | Mon. January 05, 2026 | Mon. March 16 | Fri. August 14 |
| LATE ACADEMIC ENROLLMENT | Thu. December 18, 2025 to Tue. January 13, 2026 | Fri. March 13 to Mon. April 06 | Thu. August 13 to Sat. August 29 |
| START OF CLASSES | Mon. January 05, 2026 | Wed. March 18 | Mon. August 17 |
| FACULTY SURVEY (2) | N.A. | Mon. May 018 to Sun. May 24 | Mon. October 12 to Sun. October 18 |
| SATISFACTION SURVEY | N.A. | Mon. June 15 to Sat. June 20 | Mon. October 19 to Sat. October 24 |
| WITHDRAWAL OF COURSES (4) (5) | Fri. February 13, 2026 | Fri. June 19 | Fri. November 27 |
| PERIOD WITHDRAWAL (5) (6) | Fri. February 13, 2026 | Fri. June 12 | Fri. November 20 |
| END OF PERMANENT EVALUATIONS | Sat. February 21, 2026 | Tue. June 30 | Sat. November 28 |
| END OF CLASSES | Sat. February 28, 2026 | Tue. July 07 | Sun. December 06 |
| FINAL EXAMS | N.A. | Tue. June 01 to Tue. July 07 | Mon. November 30 to Sat. December 05 |
| DEADLINE FOR SUBMISSION OF FINAL EXAM GRADES | Tue. March 03, 2026 | Thu. July 09 | Fri. December 11 |
| DEADLINE FOR SUBMITTING REQUESTS FOR MAKE-UP FINAL EXAMS | N.A. | Thu. July 09 | Mon. December 07 |
| RETURN OF FINAL EXAMS (7) | N.A. | Fri. July 17 | Thu. December 10 |
| DEFERRAL EXAMS (3)(9)(10) | N.A. | Sat. July 11 to Tue. July 14 | Thu. December 10 to Sat. December 12 |
| DEADLINE FOR SUBMISSION OF MAKE-UP FINAL EXAM GRADES | N.A. | Wed. July 15 | Mon. December 14 |
| DEADLINE FOR GRADE APPEALS | Tue. March 03, 2026 | Thu. July 16 | Tue. December 15 |
| END OF SEMESTER | Wed. February 04, 2026 | Fri. July 17 | Wed. December 16 |

| Complementary Activities | Fecha | Date | Date |
|---|---|---|---|

Leyenda:

(1) The student must be academically and financially qualified to enroll. You should do it according to your priority.

(2) Students participate in the evaluation of the teaching management of their faculty members.

(3) It will only apply to those students who have completed their corresponding procedure within the established deadlines.

(4) It does not exempt from previously acquired academic and financial obligations.

(5) Withdrawal from the course does not imply a reduction in the amount of the pension payment fee. Art. 13 of the Study Regulations.

(6) El estudiante deberá cancelar las cuotas generadas y vencidas hasta antes de la presentación de la Solicitud de Retiro de Periodo.

(7) The ROLE and procedure will be published in a timely manner by INFOSIL (Evaluations and Documents/Information).

(8) Only for students who in the immediately preceding period , obtained an average of 17 or higher.

(9) The USIL Cash desk will only be open until 08:00 pm. of the appointed day.Subsequent payments will not be accepted even if your request has been made previously.

(10) Only students who completed the corresponding procedure correctly and within the established deadlines will be able to take the delayed final exam.

(11) The dates of the renewal process for benefits (commercial) applied by Student Benefits Services are subject to change. Summer renewal applies only to private agreements.

Important Note:
Review the considerations and steps to follow for each academic-administrative procedure in the Procedures Guide, Consultation option available via INFOSIL.

**Leyenda:**

(1) Students participate in the evaluation of their teachers' teaching management.
(2) Withdrawal from the course does not imply a reduction in the amount of the pension payment fee. Art. 12 of the CPEL Studies Regulations.
(3) Remember that the day of the final exam depends on the modality in which the course in which the student is enrolled is taught.
(4) Review Articles 22, 23 of the CPEL Studies Regulations.
(5) Only for students who did NOT take the final exam and completed the procedure via INFOSIL. See Article 22 of the Study Regulations. No type of justification is required to access this requirement.
(6) The procedure and place will be indicated in due course through INFOSIL.
(7) Only for students who have completed the respective procedure and duly accepted by the English Academic Coordination.
(8) Only for students who apply taking into account specific restrictions.(
(9) For duly justified cases, the Late English Exploratory Exam will be taken. Carry out the corresponding procedure in CPEL Academic Coordination.
(10) Former students without an agreement who change to an employer that has an agreement with CPEL. Applicable from the following period.
(11) This will be applicable for the next period in which it was managed. The cost see the Catalog of Procedures.
(12) For those students who completed the immediately previous period and have met the corresponding requirements. CPEL Academic Coordination.
(13) Most courses will be taught in 100% virtual synchronous mode.
(14) The renewal dates for benefits applied by Services - Student Benefits (Commercial Discounts) are subject to change.

Important Note: **Review the considerations and steps to follow for each academic-administrative procedure in the Procedures Guide, a consultation option available via INFOSIL.**

| ACTIVITIES | PAYMENT CALENDAR | |
|---|---|---|
| | 2026-05-MCE MPROY -SP-C1 | 2026-09-MCE MPROY -SP-C1 |
| PAYMENT OF REGISTRATION and 1st. SHARE | From Thu. 23/04/2026 to Thu. 30/04/2026 | From Mon. 24/08/2026 to Mon. 31/08/2026 |
| 2nd PAYMENT SHARE | From Sun. 24/05/2026 to Sun. 31/05/2026 | From Wed. 23/09/2026 to Wed. 30/09/2026 |
| 3rd PAYMENT SHARE | From Tue. 23/06/2026 to Tue. 30/06/2026 | From Sat. 24/10/2026 to Sat. 31/10/2026 |

(1) Those students who have started their studies before the 2016-02 period must have previously completed the reinstatement process.

(2) For this process, the payment of registration and the 1st fee is verified. In the case of entrants, compliance with the admission process is also verified.

(3) The same thing as indicated in point (2) is verified; However, there may be delays in enabling the student's different platforms.

(4) Subject to the frequency of class delivery (see programming in INFOSIL, option "Class development" / "Schedule").

(5) See "Procedure Guide" in INFOSIL.

(6) Review considerations and restrictions established in the directive "EPG written exams and assessments (for students)." Consider that they are unique dates.

(7) It applies only if the student does not take the regular exam according to the schedule established for the final exam week.

(8) It must be done at the time of collecting the assignments and final exams; Review of grades at later dates will not be accepted.

(9) Consider that these are reference dates subject to change.

(10) Review the "general provisions" of the "Standards for the presentation of degree works (to obtain the degree of master)".

(11) Applies only to students who complete their study plan in the corresponding period.

**Important:** EPG-USIL reserves the right to modify the program outline, the courses, the date of the courses and the assigned faculty member, in accordance with its continuous improvement process or due to force majeure.

**Explanatory Note:** This document shows the calendar of the 1st cycle of each program by cohort with differentiated sales strategies:
(*) Corporate calls within the framework of an agreement, whose starts are subject to market demand.

(1) See Procedures Guide in INFOSIL.

(2) Subject to class delivery frequency (see programming in INFOSIL, Class Development / Schedule option)

(3) It must be done at the time of collection of the final assignments and exams, review of grades on later dates will not be accepted (See Procedures Guide in INFOSIL)

(4) Review considerations and restrictions established in the directive "EPG Written Examinations and Assessments (for Students)".

(5) It applies only if the student does not take the regular exam according to the schedule established for the final exam week. See "Procedure Guide" in INFOSIL.

(6) Review considerations and restrictions established in the directive "EPG written exams and assessments (for students)." Consider that they are unique dates.

(7) It applies only if the student does not take the regular exam according to the schedule established for the final exam week.

(8) Review the general provisions of the "Directive for Obtaining a Doctoral Academic Degree"

(9) Applies only to students who complete their study plan in the corresponding period.

(10)Applies only to students who passed the Research Methodology course. Review the procedure for obtaining a teacher's academic degree.

**Important**: EPG-USIL reserves the right to modify the study plan, the courses, the date of their delivery and the assigned teacher, in accordance with its continuous improvement process or due to force majeure.

**Explanatory Note:** This document shows the calendar of the 1st cycle of each program by cohort with differentiated sales strategies:
(*) Corporate calls within the framework of an agreement, whose starts are subject to market demand.
